COVID-19 Guidance

Emergency Rule Rescinded

Based on new information about the supply chain for chloroquine and hydroxychloroquine, as well as the removal of those drugs from the FDA's list of drugs in shortage, the basis for the Emergency Rule issued March 22, 2020 has been resolved. The Board has determined it appropriate to rescind the Emergency Rule effective immediately. This [guidance document](#) has also been posted on the Board's COVID-19 webpage.

Distribution of this Notice - to all of the following for whom we have email addresses on file:

- > *List of Interested Parties*
- > Pharmacies
