# 2023 Louisiana Nursing Education Capacity Report

## Executive Summary

The 2023 Nursing Education Capacity report is a subsection of the 2023 Louisiana State Board of Nursing (LSBN) annual report. Findings from Louisiana's Nursing Education Capacity report provide valuable information to the LSBN board members, employers of RNs and APRNs, schools of nursing, workforce planners, policy makers, and other interested stakeholders, about the state's capacity to educate new and existing RNs and APRNs and provide opportunities to those RNs and APRNs desiring to advance their education. This report is based on data taken from the schools of nursing annual reports that are submitted to LSBN by Louisiana's undergraduate and graduate nursing programs. Please note that this year is the second year that the data was collected on a calendar year (January to December).

## **NURSING EDUCATION CAPACITY IN LOUISIANA 2023**

The Louisiana State Board of Nursing (LSBN) is mandated to closely monitor all nursing programs in the state that prepare nursing students for initial licensure as a registered nurse (RN), as well as those graduate programs that prepare RNs as advanced practice registered nurses (APRNs). It is the responsibility of LSBN to ensure that these programs are preparing safe and effective practitioners to care for the citizens of Louisiana. Deans and Directors of pre-RN licensure programs in Louisiana must submit an annual report to LSBN in the beginning of each year to demonstrate ongoing compliance with all rules and regulations relative to nursing education. Information such as the number of applicants accepted into the programs each year, the number of students enrolled in clinical nursing courses, the number of graduates, and the qualifications of faculty teaching in the programs is used to determine nursing education capacity. An analysis of the data obtained from the 2023 annual reports submitted by undergraduate and graduate nursing programs in Louisiana was used to develop the 2023 Nursing Education Capacity Report. Please note that this year is the second year that the data was collected on a calendar year (January to December).

### **Pre-RN Licensure Programs in Louisiana**

LSBN approved 33 pre-RN licensure programs during the 2023 report year that prepare students to become candidates for initial RN licensure in Louisiana: one diploma program, 13 associate degree (AD) programs, and 19 baccalaureate in nursing (BSN) programs (Table 1).

## Reasons Why Qualified Applicants Were Not Admitted to Pre-RN Licensure Programs (2023 Annual Report Year)

During the current report year, a lack of qualified faculty is the major contributing factor as to why qualified applicants were not admitted to Louisiana’s nursing programs (Table 4). Lack of a sufficient number of budgeted faculty positions, non-competitive faculty salary and classroom space not available ranked number two, three and four, respectively. Other factors contributing to Louisiana’s pre-RN programs’ inability to admit qualified students included lack of clinical specialty sites, clinical placement sites not available, and skills lab space not available. The American Association of Colleges of Nursing’s (AACN, 2023) report on *2022-2023 Enrollment and Graduations in Baccalaureate and Graduate Programs in Nursing* identifies insufficient clinical placement sites, faculty, preceptors, and classroom space, as well as budget cuts as the primary barriers for qualified applicants not being offered admission. U.S. nursing schools turned away 66,261 qualified applications from baccalaureate nursing programs in 2022.

**Pre-RN Licensure Students in Louisiana Performance on the NCLEX-RN**

In 2023, there were a total of 2,454 RN candidates (2,445 in 2022) from nursing education programs in Louisiana that sat for the National Council Licensure Examination for Registered Nurses exam (NCLEX-RN) for the first time, which represents a 0.4% increase in number. The passage rate on the NCLEX-RN Exam on the first take for these candidates was 92.91% (Table 16). The overall national passage rate on the NCLEX-RN for 2023 was 88.56% compared to 79.90% in 2022 (see Appendix B1 for NCLEX-RN results by program). The passage rate on the NCLEX-RN for graduates from Louisiana’s pre-RN licensure programs continues to exceed that of the nation.

There was a 36% increase in the number of graduates passing the NCLEX-RN exam from the states only diploma program which is attributable to the fact that the hospital sponsoring the program has changed its mind to close and the diploma program continues. The number of AD graduates sitting for the NCLEX-RN exam increased by 17% and the number of BSN graduates increased by 1% (Table 17). The overall passage rate for Louisiana’s graduates has decreased by two percent over the past five years.

### Faculty Teaching in Pre-RN Licensure Programs in Louisiana

To gauge the current level of demand for nurse faculty, data was obtained from the 2023 Annual Reports submitted to LSBN by the Deans and Directors of pre-RN licensure programs and APRN programs in the state of Louisiana. Deans and Directors were asked to report the number of filled and vacant faculty positions in their pre-RN licensure programs as of December 31, 2023. These numbers are depicted by program type and full vs. part-time positions in Table 18. The number of full and part-time faculty positions fluctuate from year to year depending on the number of budgeted faculty positions, the availability of qualified faculty, and the school’s need to fill full-time positions with part-time faculty.

There was a total of 494 budgeted full-time nurse faculty positions reported by Louisiana’s pre-RN licensure programs as of December 31, 2023. Forty (40) faculty positions were funded from grants, capitation funds, additional appointments, and/or other funding sources.

**Table 18. Budgeted Nurse Faculty Positions in Pre-RN Licensure Programs in LA (2023)**

<b>Total (33)</b>	<b>494</b>	<b>358</b>	<b>40</b>	<b>852</b>

Note: Faculty funded from other sources was not included when reporting the total number of budgeted faculty.

### Vacant Nurse Faculty Positions

There was a total of 41 vacant nurse faculty positions reported by Deans and Directors in the current report year (Table 19). Twenty-four (24) or 59% of the vacant nurse faculty positions were reported by Louisiana’s BSN programs and 16 (39%) were reported by AD programs. The number of vacant full-time faculty positions will often determine the number of part-time positions needed. Many schools do not budget positions for part-time instructors, instead they are hired as needed.

### **New Nurse Faculty Appointments, Exceptions and use of Preceptors**

A total of 165 new faculty appointments were reported by pre-RN licensure programs during the 2023 report year (Table 20). New appointments included not only full-time faculty, but also part-time adjunct faculty that are hired for one or more semesters based on available funding. Fifty-eight percent (58%) of the new faculty appointments were for BSN programs, 39% were for AD programs and 3% for the diploma program.

Faculty exceptions are granted to pre-RN licensure programs upon approval of the Board for a pre-approved time period. According to LSBN Rules and Regulations, Title 46, Part XLVII, Chapter 35, No. 3515 B.9, “the number of active faculty exceptions shall not exceed 20% of the number of full-time nurse faculty employed (not FTE) in the undergraduate nursing education degree program at any given time.” The need for faculty exceptions is indicative of the lack of available qualified nurse faculty. Fifty-five percent (55%) of faculty exceptions requested were for AD programs, 44% were for BSN programs and 1% for the diploma program. Rule 3515.B.9 was amended and finalized on May 20, 2023 removing the 20% cap on faculty exceptions for BSN-prepared nurses with 2 years of nursing experience. This has allowed LSBN to utilize more BSN-prepared nurses as adjunct clinical faculty for more than two years before they enroll in a graduate Master of Nursing program.

Preceptors are valuable resources in nursing education. Preceptors are used only during the last two academic semesters of a baccalaureate program and during one of the last two semesters of a diploma or associate degree program (LSBN Rules and Regulations, Title 46, XLVII, Chapter 35, No.3543 E.1.a). In an effort to meet the schools of nursing needs for qualified preceptors, rules were promulgated in June 2016 which “allows an individual RN, who does not possess a BSN, to be utilized as a preceptor provided that the RN has had no less than three years’ experience as an RN with a minimum of one year in the clinical area in which the experience occurs and has the requisite skills to guide the student to meet the desired course outcomes for the specific clinical experiences”(LSBN Rules and Regulations, Title 46, XLVII, Chapter 35, No.3543 G.2.c). In preceptor-student relationships, nursing faculty retain the responsibility for selecting, guiding, and evaluating student learning experiences with input from the preceptor (LSBN Rules and Regulations, Title 46, XLVII, Chapter 35, No.3543 A). In the 2023 report year, there were a total of 1,490 preceptors used by pre-RN licensure programs.

**Table 20. New Faculty Appointments, Exceptions and use of Preceptors (2023)**

**Nursing Faculty Attrition**

Faculty attrition due to faculty leave, resignation, retirement, death or termination contributes to the ongoing demand for nurse faculty (Table 21). In 2023, a total of 24 faculty were on leave compared to 12 in 2022, a 100% increase. There was a total of 90 resignations in 2023, compared to 81 in 2022, an 11% increase; 18 retirements (25 in 2022), a 28% decrease; and 9 terminations (14 in 2022), a 36% decrease.

**Educational Preparation of Nurse Faculty**

According to Table 22, in 2023, approximately 26% (257) of the faculty teaching in pre-RN licensure programs were prepared at the doctoral level, a 1% decrease in number (260 in 2022); 66% (658) were master's prepared, a 3% decrease in number (677 in 2022); and 8% (75) reported that their highest degree in nursing was a baccalaureate degree which represents a 56% increase in number when compared to the previous report year (48 in 2022).

The number of faculty holding a DNP that taught in pre-RN licensure programs in Louisiana in 2023 increased by 1% compared to the previous year (Table 23). The number of faculty with a PhD in Nursing decreased in number by 16% compared to the previous year. The number of faculty with a PhD in a related field increased by 11% and the number of faculty with a DNS

increased by 18% in the current report year. Over half (57%) of the doctoral prepared faculty teaching in Louisiana’s pre-RN programs have the DNP as their terminal degree. Twenty-seven percent of the faculty with a doctoral degree had a PhD in nursing.

### Board of Regents Nursing Faculty Stipends

There was a 29% decrease in the number of nurse faculty receiving the Board of Regents (BOR) Nurse Faculty stipend between 2022-2023 that were pursuing a doctoral degree and a 100% decrease in those pursuing a Masters’ degree. As seen in Table 24, the number of faculty that were previous BOR stipend recipients decreased by 11% when compared to the previous report year.

### Nurse Faculty Salaries

According to the American Association of Colleges of Nursing (AACN), faculty shortages at nursing schools across the country are limiting student capacity at a time when the need for professional registered nurses continues to grow (2021). As stated previously, the inability to attract qualified nurse faculty due to noncompetitive salaries has consistently been cited as one of the major contributing factors as to why hundreds of qualified student applicants are not admitted to Louisiana’s pre-RN licensure programs each year. Noncompetitive salaries lead to an inadequate number of filled nurse faculty positions, which is cited as a major reason for denying admission to qualified students (AACN, 2022).

According to AACN, mean salary for full-time instructional faculty teaching in four-year colleges or universities in 2021-2022 was \$121,727 for doctorally-prepared Professors and \$75,285 for non-doctoral professors, \$95,910 for doctorally-prepared Associate Professors and \$72,737 for non-doctoral associate professors, \$83,086 for doctorally-prepared Assistant Professors and \$68,669 for non-doctoral assistant professors and \$71,439 for doctorally-prepared Instructors and \$65,070 for non-doctoral instructors (2022). The mean salaries for all levels of nursing faculty in Louisiana remain below national means for four-year public colleges (Table 25). According to the Bureau of Labor Statistics (2022), the median salary for Nurse Practitioners is \$121,610. The higher compensation in clinical and private-sector settings is luring current and potential nurse educators away from teaching (AACN, 2021). Joynt and

Kimball (2008), authors of a white paper entitled *Blowing Open the Bottleneck: Designing New Approaches to Increase Nurse Education Capacity*, stated, “While nursing faculty compensation adjustments alone will not solve the nursing education capacity problem, the value of the educators must be acknowledged and rewarded in order to move forward” (p.12).

**Table 25. Mean Salaries for Nursing Faculty (2022-2023)**

## Nurse Faculty in Louisiana Demographics

### Age

In 2023, nearly half (47%) of the nurse faculty in Louisiana were 51 and older (Table 26). Twenty percent (179) of the faculty teaching in Louisiana’s pre-RN licensure programs were 61+ years. According to AACN’s report on *Salaries of Instructional and Administrative Nursing Faculty in Baccalaureate and Graduate Programs in Nursing, 2021-2022 Nursing Faculty Shortage Fact Sheet*, the average age of doctoral-prepared nurse faculty holding the ranks of professor, associate professor, and assistant professor were 62.5, 56.7 and 50.6 years, respectively. For master’s degree-prepared nurse faculty, the average ages for professors, associate professors, and assistant professors were 55.0, 54.7, and 48.6 years, respectively (AACN, 2022). One-third of the current nursing faculty workforce teaching in baccalaureate and graduate programs are expected to retire by 2025. (Fang & Kesten, 2018). This finding underscores the urgency for the nursing education community to address the impending exodus of senior faculty and to develop younger faculty for succession.

**Table 26. Age Ranges for Nurse Faculty (2022-2023)**

Approximately 34% (314) of the faculty teaching in Louisiana’s pre-RN licensure programs were minorities (Table 28) which is a 5% decrease in number when compared to the previous report year (332 minority nurse faculty in 2022). A 33% decrease in the number of Hispanic/Latino nurse faculty, a 14% decrease in Asian nurse faculty, and an 8% decrease in the number of Black/African American nurse faculty contributed to the overall decrease in the number of minority nurse faculty. It is interesting to note that there was a 138% increase in the number of *Other* nurse faculty in the 2023 report year.

**Graduate Nursing Programs in Louisiana**

**Advanced Practice Registered Nurse (APRN) Education in Louisiana**

Graduate Nursing Programs across the state afford RNs in Louisiana the opportunity to become an advanced practice registered nurse (APRN) in four roles: Nurse Practitioner, Clinical Nurse Specialist, Certified Nurse Midwife, and Certified Registered Nurse Anesthetist. Table 29 provides a listing of the types of roles and specialty areas offered by graduate nursing programs in Louisiana. A list of LSBN Approved Graduate Nursing Programs can also be found in Appendix A.

## Graduate Nursing Programs in Louisiana Offering Non-Licensure Graduate Nursing Degrees

LSBN does not have jurisdiction over those graduate nursing programs that lead to non-licensure graduate degrees such as nursing education, nursing administration, executive nurse leader, and clinical nurse leader. In order to better inform policy makers about nursing workforce demands and predict future nursing workforce needs, it is important to be able to describe, to the best of our ability, the number of nurses that are pursuing graduate nursing education outside of advanced practice roles. In this section of the annual report, the Center for Nursing will present data on non-licensure graduate nursing programs in Louisiana (Table 40).
