That the Board approve the request from LSU Health Sciences Center School of Nursing for the proposed curriculum changes described in the summary/background.

Summary/Background

On March 18, 2026, LSBN staff received notification from LSU Health Sciences Center School of Nursing of proposed curriculum changes. The revisions are the result of new standards released by the American Association of Colleges of Nursing (AACN, 2021) and the integration of the new standards, as well as the integration of competency-based education within the Master of Science in Nursing- Nurse Educator Concentration. The new AACN Essentials were approved by the School of Nursing (SON) Faculty Organization in May 2023. The goal is to deliver a curriculum designed around competency-based assessments, active learning strategies, and rigorous evaluation methods. To accomplish this goal, the SON started a curriculum transition to a competency-based education (CBE) framework that promotes the educational expertise of the faculty while enhancing the student learning experience. The new curriculum is scheduled to be implemented starting in the 2026 Summer semester. The belief is that these revisions will enhance the quality of the programs, better prepare graduates for the challenges of the evolving healthcare landscape, and ensure continued compliance with accreditation standards.

RE: 2025 LOUISIANA CENTER FOR NURSING NEWLY LICENSED REGISTERED
NURSE SURVEY REPORT**

Action Requested

Accept Report

Summary/Background

The 2025 Louisiana Center for Nursing (LCN) Newly Licensed Registered Nurse (NLRN) Survey Report represents the eighth biennial survey of newly licensed RNs conducted by LCN. The initial survey, originally entitled the New Graduate Survey, was conducted in 2011. The name of the survey was changed to better identify the target population – graduates from pre-RN licensure nursing programs that successfully passed the National Council Licensure Examination for Registered Nurses (NCLEX-RN) and received their initial RN license. Conducting the NLRN Survey every two years gives LCN the ability to monitor employment trends and challenges reported by newly licensed RNs in Louisiana which will give employers of NLRNs and nurse educators important information that can be used to help create a seamless transition from academia to practice and increase retention of NLRNs.
