

Louisiana State Board of Nursing

2011

Annual Report

“Safeguarding the life and health of the citizens of Louisiana.”

**Louisiana State Board of Nursing
17373 Perkins Road
Baton Rouge, LA 70810
www.lsbn.state.la.us**

Letter to the Governor, Members of the Legislature, Other State Agencies, Healthcare Community, Academic Institutions, and the Citizens of Louisiana:

It is with great pleasure that I present to you the Louisiana State Board of Nursing's (LSBN) 2011 Annual Report. The mission of LSBN is *to safeguard the life and health of the citizens of Louisiana by assuring persons practicing as registered nurses and advanced practice registered nurses are competent and safe*. LSBN accomplished its mission through a myriad of activities by the Board and its staff. The purpose of the 2011 Annual Report is to reflect the activities and actions of the Board for the period of January 1, 2011 and ending December 31, 2011 and to provide data relative to nursing education capacity for Registered Nurses (RNs) in Louisiana and the available Registered Nurse (RN) workforce in Louisiana.

On behalf of LSBN's members and staff, we trust that this report will reflect our dedication and commitment to serve the citizens of Louisiana and present objective data that can be used in decision-making relative to professional nursing in Louisiana.

Sincerely,

Barbara L. Morvant, MN, RN
Executive Director

Michelle Wells, MSCHM, BSN, RNC	RN Compliance Officer

PROGRAM MANAGER

Kathie Pohlman, LCSW-BACS, MBA	Social Worker 5-A
--------------------------------	-------------------

Duties and Powers of the Louisiana State Board of Nursing

The duties and powers of LSBN are defined in RS37:918. In order to assure that individuals licensed to practice as registered nurses and/or advanced practice registered nurses are qualified, LSBN is empowered to regulate nursing education and practice in Louisiana. Further, LSBN is charged with the responsibility to deny, revoke, suspend, probate, limit or otherwise discipline individuals who violate the provisions of the law governing nursing practice in Louisiana. The following sections reflect information regarding activities of LSBN in safeguarding the citizens of Louisiana in major areas: Nursing Education, Licensure, and Discipline/Alternative to Discipline.

Further, Senate Resolution 152 of the 2008 Regular Legislative Session requested the Louisiana State Board of Nursing establish a nursing workforce center in Louisiana. The charge to the nursing workforce center, hereafter called the Louisiana Center for Nursing, was identified as the following:

- Collect, analyze and report the registered nurse workforce data utilizing established nursing supply, demand, and predictor models to forecast registered nurse resource needs to the Louisiana Health Works Commission.
- Evaluate registered nurse education capacity, and develop strategies for increasing educational access, retention and mobility, including opportunity for minority and underrepresented groups.
- Establish a website for information concerning potential employment, and educational opportunities for becoming a registered nurse in Louisiana.

Louisiana State Board of Nursing
STRATEGIC PLAN
2011 - 2016

MISSION STATEMENT

To safeguard the life and health of the citizens of Louisiana by assuring persons practicing as registered nurses and advanced practice registered nurses are competent and safe.

The practice of nursing by qualified individuals is necessary to protect the public health, safety, and welfare of the citizens of Louisiana (LRS:37:911). In order to promote, preserve, and protect the public health, safety, and welfare, the LSBN is charged with the regulation of nursing education and practice and ensuring that any individual practicing or offering to practice nursing or using the title “registered nurse” or “advanced practice registered nurse” shall be licensed to do so. In 2011, the LSBN Board and staff confirmed the vision for the Board and began their efforts to meet the strategic initiatives as set forth in the 2011-2016 Strategic Plan.

VISION 2020 LSBN will be recognized as a trend-setter nationally and a leader in proactive nursing practices and regulatory standards and processes.

- GOAL I:** Ensure that LSBN remains at the forefront of national trends.
- GOAL II:** Enhance image and visibility of LSBN.
- GOAL III:** Promote regulatory effectiveness and improve methods of tracking LSBN functions.
- GOAL IV:** Forecast registered nurse resource needs for Louisiana.
- GOAL V:** Ensure financial sustainability for LSBN.

MAJOR MOTIONS AND OTHER ACTIONS **OF THE BOARD IN 2011**

ADMINISTRATIVE ACTIONS:

Adopted the Vice-President's Report and Third Quarter Financial Statement

Approved that the LSBN continue to have an annual full audit.

Approved that the Board accepts the proposed rule changes to Paperless Licensing Revisions and Revision to Alternatives to Disciplinary Proceedings in order to initiate rule-making process.

Approved for the Executive Director and Vice-President to attend the 2011 Delegate Assembly.

Accepted the NCSBN Nurse Licensure Compact and Consumer Conference Report.

NURSE PRACTICE ACTIONS:

Approved the revisions to the Criteria for Individual Treatment Providers.

Acknowledged that the practice of registered nurses providing STD treatment as specified by DHH-OPH standing orders has been in place in Louisiana since 1993 and the LSBN further acknowledges that there is nothing to prohibit DHH-OPH from furthering the training and oversight of registered nurses under the auspices of DHH-OPH to provide STD treatment.

Deferred issuance of a practice opinion in response to a request by Mr. Chris Haik, Adult Nurse Practitioner with Comprehensive Occupational Resources (CORE) until petitioner and/or his Board approved collaborating physician have obtained opinions from the Louisiana State Board of Medical Examiners (LSBME) and the Louisiana State Board of Pharmacy (LABP) whether it is within the scope of practice for a Louisiana licensed physician to assess patients, diagnose patients, plan patient care, implement patient care and evaluate patient care outcomes utilizing an internet based questionnaire model.

COMPLIANCE ACTIONS:

Accepted and approved the Declaratory Statement on Cosmetic and Aesthetic Dermatological Procedures and Treatments Performed by Registered Nurses. This Declaratory Statement supersedes all previous related opinions. The Declaratory Statement is available in this publication, as well as online: <http://www.lsbn.state.la.us/documents/decstate/Declarat21.pdf>

Accepted and approved staff to issue letter of review to the Lafayette Parish School System-Health Services Department that the Lafayette Parish School System-Health Services Department Diabetic Protocol dated May 1, 2010 is consistent with the provisions of the nurse practice act, provided the registered nurse performs one's responsibility within the standards of nursing care.

Motion made directing staff to further research the topic submitted by the Department of Health and Hospitals, Office of Public Health (DHH-OPH) regarding registered nurses that are employed by entities other than DHH-OPH and work under the auspices and direct practice supervision of DHH-OPH providing Sexually Transmitted Disease (STD) treatment as specified by DHH-OPH standing orders which follow the Centers for Disease Control's current STD treatment guidelines.

Adopted the proposed changes to Criteria for Individual Treatment Providers policy.

UNFINISHED BUSINESS:

Accepted the revisions to LAC46:XLVII.3331 Denial or Delay of License, Reinstatement or the right to practice nursing as a student nurse.

EDUCATION ACTIONS:

Accepted the October 2010 Louisiana State Board of Nursing Staff Site Visit Report from Baton Rouge Community College and Granted Full Approval.

Accepted the October 2010 Louisiana State Board of Nursing Staff Site Visit Report from Baton Rouge General Medical Center School of Nursing and Continued Full Approval.

Approved Egan Healthcare as a provider of continuing education effective March 2, 2011 through March 2, 2013.

Approved Major Curriculum revisions to the BSN program at Nicholls State University.

Delayed action on LSUE's request for major curriculum revisions to provide them time to respond to the Board's concerns regarding justification of the 1:8 clinical ratio.

Accepted the Annual Reports from the following undergraduate nursing programs preparing candidates for Registered Nurse Licensure and grant *Continued Full Approval status to:*

- Baton Rouge General Medical Center
- Delgado Community College/Charity School of Nursing
- Dillard University
- Louisiana State University at Eunice
- Louisiana Tech University
- McNeese State University
- Northwestern State University
- Our Lady of the Lake College
- Southern University at Baton Rouge
- Southern University at Shreveport
- University of Louisiana at Lafayette
- University of Louisiana at Monroe
- Louisiana State University Health Sciences Center
- Nicholls State University

Our Lady of Holy Cross College
Southeastern Louisiana University
Continued Initial Approval status to:
Bossier Parish Community College
Louisiana Delta Community College

Full Approval status to:
Baton Rouge Community College

Restore Full Approval Status to:
Louisiana State University at Alexandria

Delayed action on the Annual Report for Louisiana College.

Accepted the Annual Report from Fletcher Technical Community College and continued Initial Approval pending report LAC 46:XLVII.3533.B.a-h and 3523 Program Evaluation, Self Study Report and recommended that the LSBN staff be directed to conduct a site visit following receipt of reports and after the May graduating class.

Accepted the Annual Report from Grambling State University and placed them on Conditional Approval, and required a detailed report that specifies their plan of action to increase their NCLEX-RN scores with a timeline for implementation of all those actions.

Accepted the Annual Report from William Carey University and placed them on Conditional Approval, and requested that they provide Board staff with a detailed report of the plans that they have in place to raise NCLEX-RN scores.

Accepted the Annual Reports from the following graduate programs preparing candidates for Advanced Practice Registered Nurse Licensure and granted continued Full Approval status to:

Grambling State University
Intercollegiate Consortium for a Master of Science in
Nursing (ICMSN):
McNeese State University
Southeastern Louisiana University
University of Louisiana at Lafayette
Louisiana State University Health Sciences Center
Loyola University
Northwestern State University
Our Lady of the Lake College
Southern University

Approved Dillard University as a Continuing Education Provider effective May 11, 2011 through May 11, 2013.

Approved the revised major curriculum changes to the Associate Degree Program at LSU-Eunice and requested that an evaluation of the curriculum changes be submitted to the Board of Nursing within two years.

Approved the request from Loyola University to proceed to establish a Post-BSN to DNP nursing program in Louisiana, with all the privileges of marketing that program.

Approved the major curriculum changes for the Intercollegiate Consortium for a Masters of Science in Nursing (ICMSN) from adult psychiatric/mental health nurse practitioner to family psychiatric/mental health nurse practitioner.

Accepted the annual report and supplemental report on previously submitted curricular template from BSN program at Louisiana College and restore to Full Approval.

Approved Fletcher College to remain on initial approval status pending completion of the 2010-2011 Annual Report.

Approved the Major Curriculum changes to the Dillard University BSN Program to be implemented beginning Fall 2011

Re-approve Glenwood Medical Center as CE Provider for four (4) years effective August 1, 2011 through August 1, 2015

Re-approve Tulane Medical Center as a Continuing Education provider for four (4) years effective August 1, 2011 to August 1, 2015.

Accepted that the LSBN appoint a three (3) person work group to review current guidelines for out-of-state graduate programs utilizing Louisiana facilities as clinical sites. After review of current guidelines develop recommendation for Board approval within 60 days. The Review of existing guidelines and recommendations for future guidelines shall include but is not limited to assessment of current students involved, number of programs involved, criteria of NP faculty.

Deferred action on the request of Georgetown University to offer graduate clinical experiences in Louisiana.

Approved the request for re-approval of the University of South Alabama to offer graduate clinical experiences in Louisiana for the following Specialty/Concentrations:

MSN

Family Nurse Practitioner

Adult Gerontology Acute Care Nurse Practitioner

Adult/Gerontology Primary Care Nurse Practitioner

Acute Care Pediatrics Nurse Practitioner

Women's Health Nurse Practitioner

Neonatal Nurse Practitioner

Family Psychiatric Nurse Practitioner

Dual Role Preparations

Family & Adult Gerontological Acute Care Nurse Practitioner

Adult Health Clinical Nurse Specialist

Pediatric Clinical Nurse Specialist

DNP
BSN-DNP
MSN-DNP

Additionally, University of South Alabama must meet the following requirements:

1. University of South Alabama students must have active unencumbered Louisiana License;
2. Preceptors must have active unencumbered Louisiana RN and APRN licenses and adhere to the guidelines set forth in LAC46XLVII.4509.U;
3. Institutions must adhere to LAC46XLVII.4509.I Guidelines for Advanced Practice Nurse requirements.

Approved that the approval granted University of South Alabama be for a two (2) year period.

Deferred action on the request from the University Massachusetts to offer graduate clinical experience in Louisiana.

Deferred action on the request of Frontier Nursing University to offer graduate clinical experiences in Louisiana.

Deferred action on the request of Graceland University to offer graduate clinical experience in Louisiana.

Deferred action on the request of University of Alabama Birmingham for re-approval to offer graduate clinical experience in Louisiana.

Approved eliminating the requirement to submit Criminal Background Check Information with application for licensure by examination provided the applicant was screened as a student nurse in Louisiana. Additional, that the Board allows the staff to request Criminal Background Check in individual cases if deemed necessary.

Approved the draft proposed rules regarding application to enroll in clinical nursing courses report as a working draft to forward to deans and directors.

Approved the request of Georgetown University to offer Graduate clinical experiences in Louisiana for the Specialties/Concentrations of:

- Family Nurse Practitioner (FNP)
- Certified Nurse Midwife/Woman's Health Nurse Practitioner (CNM/WHNP)
- Nursing Education (non APRN)

And that the approval shall be effective Fall 2011- Fall 2013 contingent on the adherence to, and submission of, required documentation regarding faculty qualifications, preceptor qualifications, clinical site appropriateness and approval, and student criteria as outlined in *LAC46: XVII.4509*.

The Board further instructs Georgetown to submit to the Board:

1. clarification of adherence to NONPF standards and LSBN rules related to evaluation of students; and
2. clarification of the following Specialties

Concentrations which are not in compliance with the Consensus Model:
Adult Acute Care Nurse Practitioner (ACNP)
Adult Acute and Critical Care CNS (CCNS)
Blended ACNP/CCNS

The Board further recommends Georgetown to submit above information and receive approval from Board prior to admission of any new clinical students in Louisiana sites.

Deferred the request from University of Massachusetts, Boston to offer Graduate clinical experiences in Louisiana until submission of requested supplemental information and Board of Regents approval and recommended suspension of admission of new Louisiana clinical students until receiving approval by LSBN.

Approved the request of Frontier Nursing University to offer Graduate clinical experiences in Louisiana for the following Specialties/Concentrations of:

Post Master's Doctor of Nursing Practice
Master of Science in Nursing or Post Master's Certificates of:
Certified Nurse Midwife
Family Nurse Practitioner
Woman's Health Nurse Practitioner

And that the approval shall be effective Fall 2011- Fall 2013 contingent on continued adherence to and submission of required documentation regarding qualifications, preceptor qualifications, clinical site appropriateness and approval, and student criteria as outlined in *LAC46: XVII.4509*.

Conditionally Approved the request of Graceland University to offer Graduate clinical experiences in Louisiana for the following:

Family Nurse Practitioner (FNP)
Nurse Educator (non APRN);

And that Conditional Approval shall be effective Fall 2011- Fall 2013 contingent upon:

1. Graceland becoming compliant with faculty licensure in Louisiana and submission of clinical affiliation and preceptor agreement, and impact on LA approved schools utilizing the agency; and
2. Continued adherence to and submission of required documentation regarding faculty qualifications, preceptor qualifications, clinical site appropriateness and approval, and student criteria as outlines in *LAC46: XVII.4509*.

The Board further recommends Graceland submit above information to staff to be announced at subsequent Board meeting and receive approval from Board prior to admission of any new clinical students in Louisiana sites.

Approved the request of the University of Alabama Birmingham to offer Graduate clinical experiences in Louisiana for the following Specialties/Concentrations of:

Adult/Gerontology NP
Adult/Women's Health NP
Pediatric NP (Acute)
Pediatric NP (Primary) faculty
Neonatal NP
Psych Mental Health NP

Family NP
Post Masters DNP
Others: (Non APRN)
Clinical Research Manager
Clinical Nurse Leader

And that Approval shall be effective Fall 2011- Fall 2013 contingent upon:

1. University of Alabama Birmingham becoming compliant with Faculty licensure in Louisiana and submission of clinical affiliation and preceptor agreement, and impact on LA approved schools utilizing the agency; and
2. Continued adherence to and submission of required documentation regarding faculty qualifications, preceptor qualifications, clinical site appropriateness and approval, and student criteria as outlined in **LAC46: XVII.4509**.

The Board further instructs University of Alabama Birmingham to submit to Board clarification of the following Specialties/Concentrations which are not in compliance with the Consensus Model:

Adult NP (Acute)
Adult NP (primary)

The Board further recommends University of Alabama Birmingham to submit above information and receive approval from Board prior to admission of any new clinical students in Louisiana sites.

Approved the request of Texas Wesleyan University to offer Graduate clinical experiences in Louisiana for the following Specialties/Concentrations of: MSNA/CRNA;

And that Approval shall be effective Fall 2011-Fall 2013 contingent on the adherence to and submission of required documentation regarding faculty qualifications, preceptor qualifications, and clinical site appropriateness and approval, and student criteria as outlined in **LAC46:XVII.450**.

The Board further instructs Texas Wesleyan University to submit to Board for continued approval:

1. Copy of COA approval of Clinical agency;
2. Clarification of the understanding of COA regulations regarding inability of clinical site coordinators to perform site evaluations;
3. Louisiana Licensure status of faculty;

The Board further recommends Texas Wesleyan University to submit above information and receive approval from Board prior to admission of any new clinical students in Louisiana sites.

Approved the request of Texas Christian University to offer Graduate clinical experiences in Louisiana for the following Specialty/Concentrations:

MSNA
DNP-Anesthesia

Approval effective Fall 2011- Fall 2013 contingent on the adherence to and submission of required documentation regarding faculty qualifications, preceptor qualifications, clinical site appropriateness and approval and student criteria as outlined in **LAC46: XVII.4509**

Approved the request of Vanderbilt University School of Nursing to offer Graduate clinical experiences in Louisiana for the following Specialties/Concentrations of:

Master's

Adult/ Gerontology NP
Family NP
FNP-Acute Care NP-Emergency Care
Neonatal NP
Nurse Midwife
Nurse Midwife FNP
Pediatric NP Acute Care

Post Master's Certificate

Adult/ Gerontology NP
Family NP
Neonatal NP
Pediatric NP (Primary Care Foundation) Psych Mental Health NP
Women's Health NP
Women's Health/Adult NP
Nurse Midwife
Pediatric NP Acute Care
Pediatric NP Primary Care
Psych Mental Health NP (with NP Foundation)
Psych Mental Health NP (without NP)
Women's Health NP

And that Approval shall be effective Fall 2011 – Fall 2013 contingent upon:

1. Vanderbilt University School of Nursing becoming compliant with faculty Licensure in Louisiana and submission of preceptor agreement, and impact on LA approved schools utilizing the agency; and
2. Continued adherence to and submission of required, documentation regarding faculty qualifications, preceptor qualifications, clinical site appropriateness and approval, and student criteria as outlined in **LAC46: XVII.4509**

The Board further instructs Vanderbilt University to submit to Board within three (3) months:

3. Clarification of adherence to NONPF standards and LSBN rules related to evaluation of students
4. Clarification of the following Specialties/ Concentrations which are not in compliance with the Consensus Model:
 - a. Adult Acute Care Nurse Practitioner (ANCP) (Pre and Post Master's)
 - b. Adult Acute Nurse Practitioner Intensivist

The Board further recommends Vanderbilt University to submit above information and receive approval from Board prior to admission of any new clinical students in Louisiana sites.

Acknowledges the Letter of Intent from South Louisiana Community College to initiate an Associate of Science in Nursing Degree Program.

Accepted the LSBN Site Visit Report on McNeese State University School of Nursing Associate of Science in Nursing Degree program and continued Full approval status to be reviewed annually with annual reports

Accepted the LSBN Site Visit Report on McNeese State University School of Nursing Baccalaureate of Science in Nursing Degree program and continued Full approval status to be reviewed annually with annual reports

Accepted the LSBN Site Visit Report on Bossier Parish Community College Associate of Science in Nursing Degree program and granted Full approval

Accepted the LSBN Site Visit Report on Louisiana Delta Community College School of Nursing Associate of Science in Nursing Degree Program and granted Full approval status to be reviewed annually with annual reports

Initial Approval status to Loyola University School of Nursing BSN-DNP Program and allowed enrollment of students for the following Specialty/Concentrations:

Family Nurse Practitioner

Accepted the proposal and first offering submitted by Louisiana College division of Nursing to begin the process of becoming a Continuing Education provider recognized by Louisiana State Board of Nursing; and Instructed the Division of Nursing of Louisiana College to submit post-presentation documents as outlined in the Rules and Regulations; and Further instructed the Division of Nursing of Louisiana College to submit two additional, different offerings a minimum of 90 days prior to planned initiation for the offering, and required post-presentation documents as outlined in the Rules and Regulation, prior to approval status as a Continuing Education provider recognized by the Louisiana State Board of Nursing.

Re-Approved University of Monroe as a Continuing Education provider [Provider # 44] for two (2) years, effective December 14, 2011 through December 14, 2013.

LOUISIANA CENTER FOR NURSING ACTIONS

Accepted the *Nursing Workforce Demand Report* and requested that it be placed on the next agenda for further discussion

OTHER BOARD ACTIONS

Accepted the APRN Task Force report.

Approved to direct staff to draft a letter to Board of Regents addressing concerns of Licensed Midwives proposal.

DISCIPLINARY ACTIONS: The Board of Nursing acted on 491 disciplinary matters involving 464 individuals. See Table 1 for types of disciplinary actions taken in 2011.

COMPLAINTS AND INVESTIGATIONS

Louisiana State Board of Nursing Agency-Wide Investigations and Disciplinary Actions for Calendar Year 2011

There were 2,619 individuals with complaints or alleged incidents that resulted in opened investigations and consideration for disciplinary action by LSBN for calendar year 2011. This represents a 7.7% increase when compared to 2010, (2,432). Of the 2,619 complaints or matters requiring further investigation by LSBN, 54.33% (1,423) were against RNs, 39.21% (1,027) were against student nurses, and 2.22% (58) were against Advanced Practice Registered Nurses (APRNs) (APRN and Prescriptive Authority combined)(Table 2). The percentage of complaints against RNs, based on the 57,788 RNs licensed to practice in LA in 2011, is approximately 2.56 % of the entire RN workforce.

Table 2. Classification of Individuals Who Were Subjects of Complaints

Calendar Year 2011	RN	Nursing Student	Endorsement Applicant	APRN	Exam Applicant	Prescriptive Authority	Total
#	1,423	1,027	56	56	55	2	2,619
%	54.33%	39.21%	2.14%	2.14%	2.10%	0.08%	100%

Source of Opened Investigations

The sources for over 90.00% of all open investigations can be found in Table 3. The source of 28.89 % (760) of complaints to LSBN was Student Files (student applications or application process). Self Reports from Registered Nurses as well as Student Applicants followed with 24.25 % (638) with LSBN Staff having 15.93 % (419) complaints reported and investigated by the Board. Approximately 2.51% (66) of the total number of complaints received by LSBN were initiated by hospitals. Other sources include, but are not limited to the Recovery Nurse Program, Patient/Family, other regulatory agencies, employers, nursing schools and lay people.

Table 3. Source of Opened Investigations

Calendar Year 2011	Student File	Self-Reported	LSBN Staff	Rap Batch	Renewal	Reinstatement Request	Hospital	Other Sources
#	760	638	419	229	196	70	66	253
%	28.89%	24.25 %	15.93%	8.70 %	7.45 %	2.66%	2.51%	9.61 %

Note: Other sources are represented by 17 entities which are responsible for 1.75% to .04% of the total sources for open investigations.

Types of Complaints or Potential Violations Resulting in Opened Investigations

Nearly half 45.88% (1,209) of the 2,635 complaints or potential violations received by LSBN in 2011 for further investigation were related to criminal convictions, 30.36% (800) were other related issues to include but not limited to: Continuing Education, Failure to Comply with a Board Order and Practicing without a License, . Drug related investigations constituted for 3.04% (80) and 5.84% (154) addressed the RN's inability to practice safely (see Table 4).

Table 4. Type of Complaint or Potential Violations Resulting in Opened Investigations

Type of Complaint/Violation	No.	%
Criminal Related	1,209	45.88%
Other	800	30.36%
Fraud/Deceit	160	6.07%
Inability to practice safely	154	5.84%

Action in other state	34	1.29%
Practicing without a license	12	0.46%

Note: Individuals with open investigations may have multiple complaints or potential violations.

One Year Review of Louisiana State Board of Nursing Number of Investigations

When reviewing the number of individual investigations for the year 2011 (2,619) and comparing the totals to 2010 (2,432) there was a 7.7% (187) increase in the number of investigations between 2010 and 2011 (Table 5). The number of Student Investigations decreased by 1.8 % (20); however, the number of Registered Nurse and Advance Practice Registered Nurse Investigations increased by 15.5% (207). The largest increase was with Registered Nurses accounting for 12.8% (162) compared to 2010. Furthermore, the number of investigations from 2006 to 2011 increased by 1,327 or a 102.7% increase with the first big increase occurring between 2009 and 2010. The increase in the number of student investigations can partially be contributed to Board Staff implementing new processes to better capture the number of student investigations. In contrast, the increase in Registered Nurse investigations is partially related to several hundred Renewal Investigations being opened after December 31, 2009. Therefore, these investigations are reflected in the 2010 numbers. Processes have been revised to eliminate this from occurring as well as to eliminate the opening of duplicate investigations. For example; the 2012 Renewal season resulted in 531 Yes answers; however, LSBN staff screened out 333 Yes answers, resulting in 198 investigations being opened. The 333 Yes answers were duplicates and had either already been addressed by the LSBN Staff or were in the process of being addressed by the LSBN Staff. This screening on the front end saved time, cost, duplication of work on the back end and improved staff moral.

Table 5. Louisiana State Board of Nursing Investigations 2009-2011

Classification	2009 Investigations		2010 Investigations		2011 Investigations	
	No.	%	No.	%	No.	%

HEARING DEPARTMENT

The total number of disciplinary board actions (491.) for year 2011 represents a 13 % increase over the number for year 2010 (429.); in turn, the number for 2010 was 10 % higher than the number of actions for 2009 (391).

Of all disciplinary actions taken in year 2011, the two largest categories concerned Registered Nurses (RNs) and Student Nurse Applicants.

REGISTERED NURSES

The types of board actions taken and the most common violations leading to said disciplinary actions regarding Registered Nurses include:

- Formal Reprimands: 37 RNs signed voluntary Consent Orders, the most common reason for this level of discipline being the failure to disclose arrests.
- License probation: 32 RNs signed Consent Orders, the most common reasons for this type of discipline were DWI convictions/incidents, positive drug tests (mostly Marijuana).
- Reinstatement w/ probation: 35, the most common underlying reason for discipline being drug dependence.
- License suspensions: 5 RNs signed voluntary Consent Orders for license suspension, the most common reason for this level of discipline being narcotic discrepancies, followed by impaired behavior.
- License summary suspension, then opportunity to reinstate: 9 RNs and most due to narcotic discrepancies.
- Voluntary Surrender of License: 28 RNs signed a Voluntary Surrender agreement, the most common reason for such discipline being alcohol/drug dependence.
- Automatic suspensions of license: Of the 69 automatic suspensions triggered by failure to follow Consent Order requirements, the three most common reasons for license suspension were positive drug tests for drugs, positive tests for alcohol and failure to follow recommendations of evaluators.
- License revocation: Reasons included sexual abuse of patient and positive drug test.

STUDENT NURSE APPLICANTS FOR CLINICAL NURSING COURSES

The second largest group involved in disciplinary actions related to Student Nurse Applicants who applied to enroll in nursing clinical courses:

- Probation while enrolled in clinical nursing courses: 44 Consent Orders signed, usually related to drug/alcohol incidents.
- Delay via Board Regulation 3331: Next most numerous were 35 delays of approval issued. Delays to progress into clinical course were due to pending

criminal matters, including DWI arrests. Denials were due mostly to convictions of crimes involving distribution of drugs.

- Delayed until requirements met: 32 Consent Orders signed by Student Nurses agreeing to delay of approval of progression into clinical courses until certain stipulations were completed (usually comprehensive evaluations, psychiatric, psychological and substance abuse), mostly due to drug/alcohol incidents.
- Three suspensions of approval to continue in clinical courses were due to reasons that included failure to submit to drug tests or other stipulations and positive alcohol test.

Note: There were no board hearings in 2011 for months January, March and November.

Hearing Department's other activities:

Year 2011 activities of the Hearing Department:

- Negotiated/handled 164, Consent Orders, 12 Multiple Actions, 15 Investigation Agreements, 16 delay/deny letters
- Conducted 81 in-office conferences to offer Consent Orders
- Processed 290, Consent Orders, 88 automatic license suspension, 15 Multiple Actions, 43 Denys/Delays and 34 Investigation Agreements.
- Managed 34 board hearings
- Investigated 25 student nurse applicant cases
- Serviced 621 public records requests or over 50/month
- Reviewed 247 Case Review Reports of cases referred for disciplinary action, averaging 21/month which constituted a 30 % increase over the previous year's numbers; and
- Answered 01 set of Interrogatories

Monitoring

This division monitors student nurses and registered nurses in the Recovering Nurse Program through confidential agreements and disciplinary orders. The Recovering Nurse Program (RNP) was developed to protect the consumers of health care in Louisiana while allowing a Registered Nurse recovering from a substance use disorder and/or a medical, mental or physical condition to maintain licensure while being closely monitored by the Board through a structured agreement or order. Participants are allowed to join the program confidentially if they meet criteria outlined in L.R.S 3419 or through consent order with probation if ineligible for confidential entry. After completion of treatment and clearance to return to work by the RNP staff and treatment team, the individual is allowed to practice in a highly supervised setting. Monitoring includes, but is not limited to, frequent random drug screening, reports from employers, participation in Aftercare and verified participation in support groups such as Alcoholics Anonymous.

In contrast to some independent alternative programs, the RNP is housed within the LSBN, therefore any non-compliance or relapse, once confirmed, is acted upon swiftly often resulting in either immediate return for treatment or automatic suspension of license. Thus, offering greater protection to the citizens of this state from potentially impaired practitioners.

The added structure and accountability of monitoring programs such as RNP have been linked to greater success in maintaining abstinence. Relapse rates for the general public following treatment for substance use disorders are 40%-60% (NIDA, 2009). Whereas, the relapse rate for RNP participants at LSBN in 2011 was 11.6%.

Relapse rate is calculated based upon the number of active confidential RNP participants as of December 31, 2011 divided by the total number of relapsed participants for the year. This number gives a rough value for trending the success of the program and is only relevant when compared with past year data and national averages. The relapse rates for 2010 and 2011 were 6% and 11.6%, respectively. Increases in relapse rates do not necessarily reflect the credibility of the program but may reflect an improvement in detection methods used by the program. For instance, in 2011, drug screening on the weekends for reasonable cause/suspicion was conducted which may have contributed to an increase in the number of relapses detected. In summary, although relapse rates are based upon raw data, they can be used to provide inferences into the success of the program or the success of the detection.

Beginning in 2010, the RNP Department began distinguishing between individuals who relapsed while in the program and individuals who relapsed after successfully completing a three (3) year confidential program. In 2010, there were four (4) individuals that had successfully completed the RNP program and were not being monitored at the time of relapse, thus they were not included in the overall relapse rate statistic. In 2011, there were ten (10) individuals who relapsed after completing a three (3) year program. It is the expectation, that the addition of a five (5) year initial program length for the more severe cases of substance abuse will decrease the *relapse after completion rates*. This has been the case with many impaired practitioner programs across the country.

The Department also monitors compliance with Board orders/agreements (excluding RNP participants). These (non-RNP) individuals may have stipulations which are often similar to RNP such as drug screening and work site monitoring, but they are not required to do treatment and have not been diagnosed with a substance use disorder. As of December 31, 2011, LSBN monitored a total of six-hundred and thirteen registered nurses and student nurses (Table 6) which is a 5.5% increase over 2010.

Additionally, the Department processes disciplinary reinstatement requests for individuals previously disciplined by LSBN. The history of the individual is reviewed and stipulations for reinstatement are provided. Disciplinary reinstatements continue to increase from 81 in 2010 to 107 in 2011. The addition of a Compliance Investigator to the Monitoring Department in 2010 has contributed greatly to the improved efficiency of the reinstatement process as this individual is able to investigate the often complex histories of previously disciplined individuals to determine eligibility for reinstatement. Often times this requires a period of monitoring by the Department prior to eligibility for reinstatement. This also may include re-entry into RNP. Some choose to not pursue reinstatement after stipulations are provided. Individuals with an extensive disciplinary history are referred to a hearing. The Monitoring Division investigates and prepares the cases for presentation at the Administrative Hearing.

Finally, the department drafts voluntary surrender agreements should an individual wish to surrender their license for a minimum of two (2) years rather than comply with the RNP agreement or board order. The department drafted eleven (11) of these agreements.

Departmental Highlights in 2011

- *Criteria for Individual Treatment Providers* was revised to give RNP participants and individuals monitored by the board greater choice and access to qualified providers when individual therapy is warranted.
- Began drug screening on the weekends rather than Monday through Friday for reasonable cause/suspicion. This may account for some of the increase in relapse rates from 2010 due to greater detection efforts.
- Began utilizing Phosphatidylethanol (PEth) blood testing to detect alcohol abuse. Blood concentrations of PEth are highly correlated to ethanol intake (Aradottir et al., 2006). This test has allowed us to detect ethanol abuse at a much higher frequency than with other less reliable alcohol markers.
- In 2011, the National Council of State Boards of Nursing (NSCBN) published an excellent resource manual which prompted some of the rule changes in order to be aligned with national trends and effective monitoring practices. ***Substance Use Disorder in Nursing: A Resource Manual and Guidelines for Alternative and Disciplinary Monitoring Programs.*** The manual may be viewed at the following link-https://www.ncsbn.org/SUDN_10.pdf.
- LAC 46: XLVII§3419 was revised to reflect best practices and to allow for the assessment of a \$250 administrative fee. Best practice changes included:
 1. if an individual substitutes a medication in order to divert a controlled substance, he/she is not eligible to join the RNP confidentially.
 2. initial program length may now be five (5) years rather than three (3) if recommended by the treatment team.

Table 6. Recovery Nurse Program and Monitoring Activities for Annual Report Year 2011

RNP – (Confidential and Disciplinary) Activity	Annual Yr 2011	Annual Yr 2010	Annual Yr 2009
New Admissions to RNP	129	140	134

**These numbers change as individuals are released through successful completion or through suspensions throughout the year, the number included reflects 4th quarter of 2011 statistics.

LICENSURE

Approval to Enroll in Clinical Nursing Courses

There were four thousand six hundred and ninety (4,690) applications to enroll in clinical nursing courses during the calendar year of 2011. Of these, one thousand and thirty-four (1,034) were placed under investigations. A total four thousand and five (4,005) student applications were approved for clinical enrollment, fifty-nine (59) were delayed approval, fourteen (14) were denied.

Licensure by Examination

Beginning January 1 through December 31, 2011 the NCLEX-RN examination was administered to two thousand four hundred fifty (2,450) candidates using computerized adaptive testing (CAT). These candidates included first time takers, repeat takers, and foreign graduates. Of this number, two thousand four hundred and forty-eight (2,448) individuals were licensed to practice as registered nurses as initial licensure by examination. There were two thousand two hundred eight-six (2,286) graduates from 26 nursing programs in Louisiana who tested for the first time. Of this number, two thousand four hundred and forty-seven (2,447) were licensed. First time candidates from nursing programs in Louisiana achieved a pass rate of 90.76 percent for the 2011 calendar year. This is above the national average of 87.90 percent. Performance of first time candidates of nursing education programs in Louisiana can be found in Appendix A1.

Registered Nurse Licensure

A total of fifty-four thousand two hundred sixty-one (54,261) RNs and three thousand seven hundred thirty-one (3,731) APRNs renewed their licenses to practice in Louisiana by the January 31, 2012 due date.

A total of two thousand six hundred six (2,562) individuals relinquished the right to practice as a registered nurse in Louisiana, as follows: two thousand twenty-nine (2,029) RNs failed to renew the license, four hundred twenty-eight (428) RNs requested inactive status [thirty-eight (38) were APRNs], and one hundred five (105) RNs requested retired status [six (6) were APRNs].

One thousand three hundred seventy-eight (1,378) individuals were licensed to practice as a RN by endorsement. Six hundred thirty-six (636) individuals reinstated their privilege to practice nursing in Louisiana.

Table 7 reflects the number of applications received and processed for licensure by endorsement, as well as temporary permits issued during the years of 2007-2011. During the year 2011, a total of one thousand five hundred ten (1,510) applications were received from United States (US) educated RNs and a total of twenty-nine (29) applications were received from foreign education RNs. Of the applications for endorsement received in 2011, a total of one thousand three hundred fifty-seven (1,357) US educated RN applications were completed through to licensure and twenty-one (21) foreign educated RN applications were completed through to licensure for a

grand total of one thousand three hundred seventy-eight (1,378) total endorsement licenses issued.. The remaining applications received in 2011 from both US and foreign educated nurses were not processed through to licensure either because their application files were incomplete and subsequently expired, or the RN completed a temporary nursing assignment and did not desire full licensure. The total number of temporary permits issued for the year 2011 was four hundred seventy-six (476). Permits are issued to allow the RN or APRN holding a valid and unencumbered RN or APRN license in another US state to work as a RN or APRN in Louisiana until all documents are received in the LSBN office and full licensure can be issued. Additionally, permits are issued to RNs and APRNs holding a valid and unencumbered RN or APRN license in another US state to work on a temporary basis a RN or APRN in Louisiana during special events or disasters.

Table 7. Licensure by Endorsement into Louisiana (2007-2011)

Report Year	Applications Received – U.S. Educated	Applications Received – Foreign Educated	Temporary Permits Issued	United States Educated RN License Issued	Foreign Educated RN License Issued	Total RN Licenses Issued (US & Foreign)
2011	1,510	29	476	1,357	21	1,378
2010	1,441	28	481	1,248	14	1,262
2009	1,523	29	690	1,425	29	1,454
2008	1,702	67	796	1,431	50	1,481
2007	1,785	89	614	1,635	48	1,683

Verification of Credentials to Other States

During 2011, a total of two thousand two hundred thirty-three (2,233) RNs utilized the National Council of State Boards of Nursing (NCSBN) verification service (NurSys.com) to request their Louisiana RN credentials be verified to another state board of nursing. Table 8 reflects the number of individuals requesting licensure verifications per year for the previous 5 year period.

Table 8. License Verification Out of Louisiana (2007-2011)

Report Year	Number of Verifications
2011 NurSys Processed	2,233
2010 NurSys processed	2,253
2009 NurSys processed	1,341
2008 Board processed	1,083
2007 Board processed	2,659

*Note: Due to a variety of factors, it cannot be assumed that there is a relationship between request for verification of credentials and numbers of RNs leaving the state.

Advanced Practice Registered Nurses

LSBN authorizes the practice of APRNs in four categories, Certified Registered Nurse Anesthetist (CRNA), Certified Nurse Midwife (CNM), Clinical Nurse Specialist (CNS), and Nurse Practitioner (NP). In 2011, a total of three thousand nine hundred thirty-nine (3,939) individuals were licensed to practice as APRNs, as follows: one thousand three hundred sixty-

nine (1,369) as CRNAs, twenty-nine (29) as CNMs, one hundred sixty-seven (167) as CNSs, and two thousand one hundred thirty (2,130) were licensed as NPs.

During 2011, LSBN received a total of three hundred eighty-five (385) applications for APRN licensure, as follows: three hundred twenty-nine (329) by examination, and fifty-six (56) by endorsement from another state.

An APRN who engages in medical diagnosis and management is required to apply for, and receive approval by LSBN for prescriptive authority privileges in collaboration with one or more physicians or dentists to deliver health care services in the state of Louisiana. Table 9 reflects the number of APRNs with prescriptive and distributing authority in compliance with the Board's rules as of January 31, 2012.

Table 9. Prescriptive and Distributing Authority for APRNs (2011)

**2012 SUMMARY REPORT ON
LICENSEES WITH DEFAULTED STUDENT LOANS**

In accordance with Louisiana Revised Statute 38:2951, the Louisiana State Board of Nursing withheld the 2012 licensure renewals on one-hundred-twenty (120) Registered Nurses (RNs) who were deemed by the Louisiana Office of Student Financial Assistance (LOSFA) to be in default of a student loan. This represents an increase of forty-eight point fifteen percent (48.15%) from the eighty-one (81) nurses that were in loan default last year.

Of the one-hundred-twenty (120) total nurses in default during 2011, thirty point eighty-three percent (30.83%), or thirty-seven (37) nurses, had been in loan default previously as outlined below:

- Default 6 times = 1 nurse
- Default 5 times = 2 nurse
- Default 4 times = 6 nurses
- Default 3 times = 9 nurses
- Default 2 times = 19 nurses

The remaining eighty-three (83) nurses were in loan default for the first time. This represents sixty-nine point seventeen percent (69.17%) of the total one-hundred-twenty (120) total nurses for this year, and an increase of seventy-six point six percent (76.6%) – or 36 more nurses – than were in first time loan default last year.

Certified letters were mailed to the RNs on August 29, 2011 advising them that their ability to renew their 2012 RN license would be placed on hold until the Louisiana State Board of Nursing received authorization from LOSFA that the loan was removed from default status.

As of February 1, 2012, one-hundred-eleven (111) of the one-hundred-twenty (120) nurses had been removed from default status by LOSFA and permitted to seek licensure renewal by January 31, 2012. Of the remaining nine (9), two (2) contacted the Board to advise they were living and working out-of-state and choose to go inactive, and the license of the remaining seven (7) were changed to delinquent status and unable to practice as a registered nurse in Louisiana.

2012 SUMMARY REPORT ON RELICENSURE AUDIT

In accordance with LAC 46:XLVII.3335.I.2, the Louisiana State Board of Nursing performed an audit on the continuing education (CE) requirements for 2011 license renewal on one-thousand-three-hundred-fifty-nine (1,359) RNs (see Appendix B for LSBN Approved Continuing Education Providers).

Letters were mailed to the RNs advising them of their selection to participate in the CE random audit. Of the one-thousand-three-hundred-fifty-nine (1,359) RNs selected, one-thousand-one-hundred-forty-six (1,146) were compliant and had met the CE requirements. The remaining two-hundred-thirteen (213) RNs were deemed non-compliant and action was taken as outlined below:

- Two-hundred-six (206) RNs obtained additional CEs, produced documentation to support completion, and were issued Informal Reprimands for 1st time non-compliance;
- Three (3) RNs changed their status to inactive as they were no longer working in nursing or had moved out-of-state;
- Three (3) RNs were non-compliant of CE audit for a second time. Final informal reprimand and warning issued with notice of automatic CE audit next year.
- One (1) RN was placed under investigation for failure to respond and comply with CE audit. The nurse's RN license became delinquent on 1/31/2012. Resolution of investigation and documentation of CE requirements for 2011 RN licensure renewal is required prior to reinstatement.

In accordance with LAC 46:XLVII.4513.D.5, the Louisiana State Board of Nursing performed an audit on the continuing competency for prescriptive authority for 2011 license renewal on fifty-seven (57) Advanced Practice Registered Nurses (APRNs). Letters were mailed to the APRNs advising them of their selection to participate in the random audit of additional six (6) hours of pharmacology CE needed for their prescriptive authority privileges. Of the fifty-seven (57) APRNs selected, forty-seven (47) were compliant. Prescriptive authority privileges were inactivated for one (1) APRN due to the individual's failure to respond and comply with the pharmacology CE audit. The remaining nine (9) APRNs obtained additional CE, produced documentation to support completion, and were issued Informal Reprimands for 1st time non-compliance.

NURSING EDUCATION CAPACITY IN LOUISIANA 2010-2011

It is the charge of the Louisiana State Board of Nursing (LSBN) to closely monitor all nursing programs in the state that prepare nursing students for initial licensure as a registered nurse (RN), as well as those graduate programs that prepare RNs as advanced practice registered nurses (APRNs). It is the responsibility of LSBN to ensure that these programs are preparing safe and effective practitioners to care for the citizens of Louisiana. Deans and Directors of Pre-RN Licensure programs in Louisiana must submit an annual report to LSBN in the fall of each year to demonstrate ongoing compliance with all rules and regulations relative to nursing education. Information such as the number of applicants accepted into the programs each year, the number of students enrolled in clinical nursing courses, the number of graduates and the qualifications of faculty teaching in the programs is used to determine RN education capacity. An analysis of the data obtained from the 2010-2011 annual reports submitted by undergraduate and graduate nursing programs in Louisiana was used to develop the Nursing Education Capacity Report.

Pre-RN Licensure Programs in Louisiana

LSBN approved twenty-six (26) pre-RN licensure programs during the 2010-2011 report year (Table 10). One (1) diploma program, twelve (12) associate degree programs (one less from last year – Nicholls no longer has an AD program), and thirteen (13) baccalaureate programs prepare students to become candidates for initial RN licensure in Louisiana (see Appendix C for a List of LSBN Approved Nursing Education Programs).

Table 10. Pre-RN Licensure Programs in LA (2011)

Program Type	No. of Programs	% of Total Programs

Total No. of Pre-RN Programs	26	100%

Applicants and Admissions to Pre-RN Licensure Programs in Louisiana

The pool of qualified applicants applying to pre-RN licensure programs in Louisiana in 2010-2011 decreased by 1% over the last year (Table 11). Beginning in 2008, there has been a steady decline in the number of qualified applicants applying to pre-RN licensure programs - dropping from 5,110 applicants in 2008 to 4,705 in 2011 reflective of an 8% decrease in the last 4 years. A 4% decrease in the number of qualified applicants admitted to pre-RN licensure programs in the past year was also noted. In the current report year, 3,252 of the 4,705 qualified applicants (69%) were admitted, in comparison to 71% that were admitted in 2009-2010. Approximately 31% of the qualified applicants were denied admission to Louisiana's pre-RN licensure programs in 2010-2011 (see Appendix A2 for a summary report of applicants and admissions to pre-RN Licensure programs and Appendix A3 for a breakdown of applicants and admissions by programs).

Table 11. Applicants and Admissions for Pre-RN Licensure Programs in LA (2007-2011)

Report Year	Qualified Applicants	No. and % of Qualified Applicants Admitted to Pre-RN Licensure Programs		No. and % of Qualified Applicants Not Admitted to Pre-RN Licensure Programs	
	No.	No.	%	No.	%

Applicants and Admissions to Pre-RN Licensure Programs in Louisiana by Program Type for the 2010-2011 Annual Report Year

Although there were more students applying to Associate Degree programs in 2011 (Table 12a), more students were actually admitted to Baccalaureate programs in Louisiana over the past 5 years (Table 12b). During the 2011 report year, there were 2,393 applications submitted to Louisiana’s Associate Degree programs and 2,221 submitted to Baccalaureate programs, whereas, 78% (1,741) of the applicants applying to Baccalaureate programs were admitted and only 61% (1,466) of the applicants applying to Associate Degree programs were admitted, resulting in a 6% decrease in the number of students admitted to Associate Degree programs and a 2% decrease in those admitted to Baccalaureate programs between 2010 and 2011. Forty-nine percent of qualified applicants pursuing a Diploma in nursing were admitted in 2011 compared to 41% in 2010 (see Appendix A3 for a breakdown of applicants and admissions by programs).

Over the last four years (2008-2011) there has been a 12% decrease in the number of admits to diploma programs, a 10% decrease in admits to Associate degree programs, and no relative change in the number of students admitted to Baccalaureate programs leading to an overall 5% decrease in the number of qualified applicants admitted to pre-RN licensure programs in Louisiana during this time period.

Table 12a. Applicants and Admissions for Pre-RN Licensure Programs in Louisiana by Program Type (2010-2011)

Applicants 2010	Diploma	Associate Degree	Baccalaureate
No. of Qualified Applicants	91	2,393	2,221
No. Qualified Applicants Admitted	45	1,466	1,741
% of Qualified Applicants Admitted	49%	61%	78%
No. Qualified Applicants Not Admitted	46	927	480
% of Qualified Applicants Not Admitted	51%	39%	22%

Table 12b. Admissions to Pre-RN Licensure Programs in LA (2007-2011)

Report Year	Diploma	Associate	Baccalaureate
2011	45	1,466	1,741
2010	39	1,565	1,780
2009	41	1,537	1,728
2008	51	1,628	1,741
2007	47	1,398	1,585
1 & 5 Year Variance	↑15% / ↓4%	↓6% / ↑5%	↓2% / ↑10%

Reasons Why Qualified Applicants are not Admitted to Pre-RN Licensure Programs (2010-2011 Annual Report Year)

The top four reasons identified by Louisiana’s pre-RN licensure programs as to why qualified applicants are not admitted have remained unchanged: 1) limited budgeted faculty positions; 2) limited number of qualified faculty; 3) non-competitiveness in faculty salaries; and 4) lack of clinical specialty sites (Table 13). The ranking for these reasons did change in the 2010-2011 report year placing a lack of qualified faculty as number 2 instead of number 3, and non-competitive salaries as number 3 instead of number 2. The lack of available classroom space, clinical sites, and skills lab space were ranked numbers 4, 5 and 6, respectively.

Table 13. Reasons Why Qualified Applicants are not Admitted to Pre-RN Licensure Programs in LA (2010-2011)

Rank	Reason Why Qualified Applicants Are Not Admitted to Pre-RN Licensure Programs in Louisiana
No. 1	Budgeted Faculty Position Not Available
No. 2	Qualified Faculty Not Available
No. 3	Faculty Salary Not Competitive
No. 4	Lack of Clinical Specialty Sites

Enrollment in Pre-RN Licensure Programs in Louisiana

In 2011, 15,988 students enrolled in post-secondary education settings in Louisiana declared nursing as their major (Table 14), which reflects an 8% increase from the previous report year (14,779 in 2010). However, there was a 1% decrease in the number of students enrolled in clinical nursing courses in the current report year (see Appendix A2 for a summary report on enrollments in pre-RN Licensure programs).

Table 14. Enrollment in Pre-RN Licensure Programs in LA(2007-2011)

Report Year	Enrollment (All Nursing Majors)	Enrollment in Clinical Nursing Courses
2011	15,988	6,114
2010	14,779	6,175
2009	15,232	6,077
2008	13,797	6,311
2007	14,113	5,723
1 & 5 Year Variance	↑8% / ↑13%	↓1% / ↑7%

Gender of Students Enrolled in Pre-RN Licensure Programs in Louisiana

There was a 13% decrease in the number of males enrolled in Pre-RN licensure programs in 2011 compared to a 9% increase in 2010. Females represented 86% of students enrolled in pre-RN licensure programs in Louisiana in 2011 (85% in 2010), while males represented 14% (15% in 2010) (Table 15).

Table 15. Gender of Students Enrolled in Pre-RN Licensure Programs in LA (2007-2011)

Report Year	Male		Female	
	#	%	#	%
2011	834	14%	5,280	86%

2008	882	14%	5,566	86%
2007	817	14%	5,116	86%
1 & 4 Year Variance	↓13% / ↑2%		↑1% / ↑3%	

Racial Distribution of Students Enrolled in Pre-RN Licensure Programs in Louisiana

In 2011, 67% (4,126) of the students enrolled in pre-RN licensure programs in Louisiana were White, which represented a 6% increase in number over the past year. The number of Blacks enrolled in Louisiana's pre-RN licensure programs decreased by 3% (a difference of 47 students) in 2011. In contrast, there was an 18% increase in the number of Asian students enrolled in Louisiana's pre-RN licensure programs (Table 16). Of the 226 students that reported their ethnicity as *Other*, 23 were self-reported as Native American/Alaskan Natives.

Table 16. Racial Distribution of Students Enrolled in Pre-RN Licensure Programs in LA (2007-2011)

Report Year	White		Black		Hispanic		Asian		Other	
	#	%	#	%	#	%	#	%	#	%
2011	4,126	67	1,473	24	154	3	135	2	226	4

Graduates from Pre-RN Licensure Programs in Louisiana

There were a total of 2,281 graduates from pre-RN licensure programs from Louisiana's schools of nursing in 2011 which is forty-two more graduates than the previous report year. Fifty-one percent of the graduates came from baccalaureate programs (57% in 2010), 48% came from associate degree programs (41% in 2010), and 1% from the only diploma program in the state (2% in 2010). There was a noted shift in the distribution of graduates across the various programs. The number of graduates from baccalaureate programs decreased by 9%, whereas, the number of graduates from associate degree programs increased by 18% (Table 17). The number of diploma graduates went from 39 in 2010 to 30 in 2011 which reflects a 23% decrease over the previous year (see Appendix A2 for a summary report of RN graduates and Appendix A7 for the number of RN Graduates per program for 2011).

Table 17. Graduates of Pre-RN Licensure Programs in LA According to Program Type (2007-2011)

Report Year	Total No. of RN Graduates from Pre-RN Licensure Programs	Diploma		Associate		Baccalaureate	
		No.	%	No.	%	No.	%
2011	2,281	30	1%	1,084	48%	1,167	51%
2010	2,239	39	2%	916	41%	1,284	57%
2009	2,230	30	1%	1,043	47%	1,157	52%

Pre-RN Licensure Students in Louisiana Performance on the NCLEX-RN

In 2011 there were a total of 2,294 RN candidates (2,271 in 2010) sitting for the National Council Licensure Examination for Registered Nurses (NCLEX-RN) exam with 2,082 (90.76%) passing on the first take (Table 18). The overall national passage rate on the NCLEX-RN for 2011 was 87.90% compared to 87.42 in 2010 (see Appendix A1 for NCLEX-RN results by program).

Table 18. Performance of First-Time Candidates Graduating from Pre-RN Licensure Programs in LA on NCLEX-RN (January 1, 2011 – December 31, 2011)

Program Type	No. Taking	No. Passing	% Passing
Diploma	28	28	100%
Associate Degree	1,104	1,001	90.67
Baccalaureate Degree	1,162	1,053	90.62
Grand Total	2,294	2,082	90.76

Note: The National Average Passage Rate on the NCLEX-RN Examination was 87.90% for 2011.

The passage rate on the NCLEX-RN for graduates from Louisiana’s pre-RN licensure programs has exceeded that of the nation for the previous 5 years (Table 19) in spite of the higher passing standard implemented in April 2010 by the National Council of State Boards of Nursing. There was a 2% decrease in the NCLEX-RN passage rate for Associate Degree programs (1,001/1,104 Passing) in 2011, a 1% increase in the passage rate for Baccalaureate programs (1,053/1,162 Passing) and a 6% increase for Louisiana’s one Diploma program (28/28 Passing). There was an 11% decrease in the number of graduates from baccalaureate programs passing the NCLEX-RN exam and an 18% increase in the number of graduates from Associate Degree programs. There was a 20% decrease in the number of graduates from the state’s only Diploma nursing program.

Table 19. Summary Performance of First-Time Candidates Graduating from Pre-RN Licensure Programs in Louisiana on NCLEX-RN (2007-2011)

Report Year	Diploma		Associate		Baccalaureate		Passage Rate for LA	Passage Rate for the Nation

Graduate Nursing Programs in Louisiana

Advanced Practice Registered Nurse Education in Louisiana

APRN Programs in Louisiana

There are seven Graduate Nursing Programs in Louisiana offering a degree as an Advanced Practice Registered Nurse (APRN). Six of the seven programs offer the Nurse Practitioner (NP) role; four the Clinical Nurse Specialist (CNS) role; and two the Certified Registered Nurse Anesthetist (CRNA) role (see Appendix B for a list of LSBN Approved Graduate Nursing Programs). There are currently no programs offering the Certified Nurse Midwife (CNM) role in Louisiana (Table 20).

Table 20. Advanced Practice Registered Nurse Programs in Louisiana (2011)

Masters Program	Specialties	Roles*

Enrollment in APRN Programs in Louisiana

Over the past year there has been an overall decline in the number of students enrolled in Louisiana's APRN programs. Between 2010 and 2011 there was a 3% decrease in the number of students enrolled in Louisiana's NP programs, a 72% decrease in those enrolled in CNS programs, and a 29% decrease in those enrolled in CRNA programs. However, over the past five years there has been a 68% increase in the number of students enrolled in NP programs in Louisiana, in contrast to a 67% decrease in CNS programs and a 23% decrease in students enrolled in Louisiana's CRNA programs (Table 21).

Table 21. Enrollment in APRN Programs in LA (2007-2011)

Report Year	No. of Students Enrolled in NP Programs	No. Students Enrolled in CNS Programs	No. Students Enrolled in CRNA Programs	Total No. Students Enrolled in APRN Programs
2011	707	5	163	875
2010	726	18	228	972

Ethnicity of Students Enrolled in APRN Programs in Louisiana (2010 – 2011)

Over the last year there was a 7% decrease in the number of White and Black students enrolled in APRN programs across the state, as well as a 5% decrease in the number of Hispanic students. In contrast, there was a 17% increase in the number of Asian students (+2). In 2011, the racial make-up of students enrolled in Louisiana's APRN programs was 72% White, 23% Black, 2% Hispanic, 2% Asian and 1% other race (Table 23).

Table 23. Ethnicity of Students Enrolled in APRN Programs in LA (2009 - 2011)

Report Year	White		Black		Hispanic		Asian		Other

Graduates from APRN Programs in Louisiana in 2011

In the 2010-2011 report year, there were a total of 279 graduates from Louisiana's APRN programs (Table 24) which represents a 13% increase from 2009-2010 (see Appendix D for Enrollment and Graduates from APRN Programs in Louisiana). The majority of the graduates were from NP programs (72%) and CRNA programs (26%). Two-percent of the graduates were from CNS programs.

Table 24. Graduates from APRN Programs in Louisiana According to Program Type (2010 - 2011)

Report Year	Total No. of APRN Graduates	NP		CNS		CRNA	
		No.	%	No.	%	No.	%

2010	246	174	71%	2	1%	70	28%
1 Year Variance	↑13%	↑15%		↑200%		↑4%	

Performance of APRN Graduates on Certification Exams

Certification examinations taken by graduates from Louisiana's APRN programs include, but are not limited to the American Nurses Credentialing Center (ANCC), the American Academy of Nurse Practitioners (AANP), the Council on Certification for Nurse Anesthetists (CCNA), the National Certification Corporation (NCC), the Pediatric Nursing Certification Board (PNCB), and the American Association of Critical Care Nurses (AACCN). In 2010-2011, 270 APRN candidates sat for their respective certification exams. Two hundred and sixty-two (262) candidates successfully passed their certification exams resulting in a 97% passage rate for the state (Table 25).

Table 25. Performance on APRN Certification Exams by Graduates of Louisiana's APRN Programs (2010 - 2011)

Report Year	No. Taking Exam	No. Passing Exam	Passage Rate %
2011	270	262	97.04
2010	233	223	95.71
1 and 2 Year Variance	↑16%	↑17%	↑1%

Graduate Nursing Programs in Louisiana Offering Non-Licensure Degrees in Nursing Education and Nursing Administration

Six of the seven Graduate Nursing Programs in Louisiana offer a Masters Degree in Nursing Education and a Masters Degree in Nursing Administration (Table 26). Currently, LSBN only has jurisdiction over graduate nursing programs that lead to the APRN degree which require licensure, and not those that lead to a Masters in Nursing Education or Nursing Administration. In order to better inform policy makers about nursing workforce demand and to be able to predict future nursing workforce needs, it will be important to identify how many nurses are being prepared to take on faculty positions in Louisiana, as well as leadership positions in hospitals and other clinical settings. A major limitation related to reporting on enrollment of Louisiana's RNs in

APRN and non-licensure Graduate Nursing programs is the inability to track those nurses that are enrolled in online or out-of-state programs that do not come under the jurisdiction of the Board of Nursing.

Table 26. Non-Licensure Masters Programs in Louisiana in Nursing Education and Administration (2010 - 2011)

Masters Program	Specialties	Roles

Admission to Non-Licensure Graduate Nursing Programs in Louisiana in 2010-2011

In the 2011 report year, a total of 304 RN students were admitted to Louisiana’s non-licensure graduate programs in Nursing Education and Nursing Administration (Table 27). The majority of the students (271) were admitted to Nursing Administration programs across the state which represents a 10% decrease when compared to 2010. Nursing Education programs admitted 33 graduate nursing students during the 2011 report year, which represents a 23% decrease from the previous year. Of the 883 students admitted to graduate nursing programs across the state, 579 (66%) were admitted to APRN programs, 271(31%) were admitted to Nursing Administration programs, and 33 (4%) were admitted to Nursing Education programs in the 2010-2011 report year.

Table 27. Admissions to Non-Licensure Graduate Nursing Programs in Louisiana (2010-2011)

1 Year Variance	↓23%	↓10%	↓12%

Enrollment in Non-Licensure Graduate Nursing Programs in Louisiana

In the 2011 report year, a total of 549 RN students were enrolled in Louisiana’s non-licensure graduate programs in Nursing Education and Nursing Administration (Table 28). The majority of the students (494) were enrolled in Nursing Administration programs across the state. There were 55 RN students enrolled in the state’s Nursing Education programs during the 2011 report year. Of the 1,424 students enrolled in graduate nursing programs across the state, 875 (61%) were enrolled in APRN programs, 494 (35%) were enrolled in Nursing Administration programs, and 55 (4%) were enrolled in Nursing Education programs during the 2010-2011 report year. Between 2010 and 2011, there was a 22% decrease in the number of students enrolled in nursing education programs and a 13% decrease in the number enrolled in nursing administration programs.

Table 28. Enrollment in Non-Licensure Graduate Nursing Programs in Louisiana (2010-2011)

Note: American Indian/Alaskan Native (5) included in *Other*.

Graduates from Non-Licensure Graduate Nursing Programs in Louisiana

In the 2010-2011 report year, there were a total of 222 graduates from Louisiana’s non-licensure graduate nursing programs which represents a 12% decrease from the previous report year (Table 30). The majority of the graduates (194) were from Nurse Administration Programs and 28 were from Nursing Education programs.

Table 30. Graduates from Non-APRN Programs in Louisiana According to Program Type (2010 - 2011)

Report Year	No. of Nursing Education Graduates		No. Nursing Administration Graduates		Total No. Graduates from Non-Licensure Graduate Nursing Programs
2011	28	13%	194	87%	222
2010	31	12%	222	88%	253
1 Year Variance	↓10%		↓13%		↓12%

Nursing Faculty in Louisiana

To gauge the current level of demand for nurse faculty, data was obtained from the 2010-2011 Annual Reports submitted to LSBN by the Deans and Directors of pre-RN licensure programs and APRN programs in the state of Louisiana.

Faculty Teaching in Pre-RN Licensure Programs

Deans and Directors were asked to report the number of filled and vacant faculty positions in their pre-RN licensure programs from October 16, 2010 to October 15, 2011. These numbers are depicted by program type and full vs. part-time positions in Table 31.

There were a total of 560 budgeted full-time nurse faculty positions reported by Louisiana’s pre-RN licensure programs in 2010-2011 compared to 536 in 2009-2010 which reflects a 4% increase. The budgeted positions were filled with 533 full-time and 192 part-time faculty members, a total of 725 faculty compared to a total of 742 in 2009-2010. Thus, in 2011 there were more budgeted full-time faculty positions reported by pre-RN licensure programs when compared to the previous year (+24), but less full and part-time faculty employed (-17) which reflects a 2% decrease in the number of faculty. Sixty-four faculty positions were funded from grants, capitation funds, additional appointments, and/or other funding sources compared to 17 positions in 2010, a 276% increase.

Table 31. Filled Nurse Faculty Positions in Pre-RN Licensure Programs in LA (2010-2011)

Program Type	Filled Faculty Positions		Nurse Faculty Positions Funded from other Sources	Number of Nurse Faculty Teaching in Louisiana's Pre-RN Licensure Programs for the 2010-2011 Report Year
	Full-time	Part-time /Adjunct		
Diploma (1)	11	1	0	12
ADN (12)	192	62	23	254
BSN (13)	330	129	41	459
Total (26)	533	192	64	725

Vacant Nurse Faculty Positions

There were a total of 27 full-time vacant nurse faculty positions reported by Deans and Directors in the current report year, compared to 32 in the previous report year (Table 32). The majority (15) of vacant full-time nurse faculty positions were reported by Louisiana's associate degree programs, followed by 12 vacant positions reported by baccalaureate programs. The number of vacant full-time faculty positions will often determine the number of part-time positions needed. Many schools do not budget positions for part-time instructors, instead they are hired as needed.

Table 32. Vacant Nurse Faculty Positions Pre-RN Licensure Programs in LA (2010-2011)

New Nurse Faculty Appointments, Exceptions and use of Preceptors

A total of 82 new faculty appointments were reported by pre-RN licensure programs during the 2010-2011 report compared to 71 in the previous year, a 15% increase in the number of faculty appointments (Table 33).

Faculty exceptions are granted to pre-RN licensure programs upon approval of the Board for a pre-approved time period. According to LSBN Rules and Regulations, Title 46, Part XLVII, Chapter 35, No. 3515 B.8, the number of faculty exceptions shall not exceed 20 percent of the number of full-time nurse faculty employed (not FTE) in the program. The need for faculty exceptions is indicative of the lack of available qualified nurse faculty. The number of faculty exceptions requested by pre-RN licensure programs went from 56 in 2009, to 44 in 2010 and 40 in 2011, which represents a 29% decrease in the number of faculty exceptions utilized by pre-RN licensure programs over the last two years.

Preceptors are valuable resources in nursing education. Preceptors are used only during the last two academic semesters of a baccalaureate program and during one of the last two semesters of a diploma or associate degree program (LSBN Rules and Regulations, Title 46, XLVII, Chapter

35, No.3541B). In preceptor-student relationships, nursing faculty retain the responsibility for selecting, guiding and evaluating student learning experiences with input from the preceptor. In 2010, there were 968 preceptors used by pre-RN licensure programs and 1,190 in 2011 which reflects a 23% increase in the number of preceptors used by pre-RN licensure programs.

Table 33. New Faculty Appointments, Exceptions and use of Preceptors

Diploma (1)	2	1	0
ADN (12)	23	15	398
BSN (13)	57	24	792
Total (26)	82	40	1,190

Nursing Faculty Attrition

Faculty attrition due to faculty leave, resignation, retirement, death or termination contributes to an ongoing demand for nurse faculty (Table 34). During the 2010-2011 annual report year, a total of 15 faculty went on leave in comparison to 5 from the previous report year (a 200% increase). There were a total of 47 resignations, which is no change from the previous year, 18 retirements (19 in 2010), and 19 terminations (23 in 2010).

Table 34. Faculty Attrition: Leave, Resignation, and Retirement/Termination

Program Type	No. of Faculty on Leave	No. of Faculty Resignations	No. of Faculty Retirement/Termination
Diploma (1)	0	1	1
ADN (12)	2	13	17
BSN (13)	13	33	19
Total (26)	15	47	37 (18 Retirements/ 19 Terminations)

Educational Preparation of Nurse Faculty

The Institute of Medicine Report on the Future of Nursing: Leading Change, Advancing Health recommends that the proportion of nurses with a baccalaureate degree be increased to 80% and the number of nurses with a doctorate be doubled by 2020 (IOM Report, 2011). According to the Carnegie Study (Benner, Sutphen, Leonard and Day, 2009), in order to meet the projected shortages for registered nurses, nursing education programs must increase their capacity by approximately 90%. The educational preparation of nursing faculty is essential. In order to properly educate the next generation of RNs, nurse faculty must be prepared to teach nursing students how to care for clients with complex diagnoses and treatment plans; be familiar with essential principles of teaching and learning; be able to appropriately use the newest teaching learning healthcare technology; and have the ability to engage nursing students in the teaching-learning process.

The Southern Association of Colleges and Schools (SACS), require that at least 25 % of nursing course hours in a Baccalaureate Nursing program be taught by faculty members holding the terminal degree (2010). In 2011 approximately 16% (122) of the faculty teaching in pre-RN licensure programs were prepared at the doctoral level, 79% (617) were Masters prepared, and

5% (40) reported that their highest degree in nursing was a baccalaureate degree (Table 35). This represents a 16% increase in the number of faculty prepared at the doctoral level, a 4% increase in those prepared at the Masters' level, and a 9% decrease in faculty prepared at the BSN level.

Table 35. Educational Preparation of Faculty (2010-2011)

Program Type	No. of Doctorally Prepared Faculty	No. of Masters Prepared Faculty	No. of BSN Faculty Exceptions
Diploma (1)	2	10	1
ADN (13)	24	247	15
BSN (13)	96	360	24
Total (27)	122 (16%)	617 (79%)	40 (5%)

Note: Total = 779

Board of Regents Nursing Faculty Stipends

According to the 2010-2011 annual reports from pre-RN-licensure programs, 115 nurse faculty employed in pre-RN licensure programs in Louisiana were recipients of the Board of Regents (BOR) Nursing Faculty Stipends, an increase of 10 nurse faculty when compared to the 2009-2010 report year (Table 36). Due to statewide budget cuts to higher education, funds were not available for stipends for graduate nursing students during the 2010-2011 annual report year.

Table 36. Board of Regents Faculty Stipend Recipients

BOR Stipend Recipients	2008-2009	2009-2010	2010-2011
Masters	19	11 (↓42%)	0
Doctoral	46	22 (↓52%)	0
Faculty Currently Employed that were BOR Stipends Recipients (Masters and Doctorate)	107	105 (↓2%)	115 (↑10%)

Nurse Faculty Salaries

Noncompetitive salaries for nursing faculty has been consistently cited as one of the major reasons why there are limited numbers of qualified faculty available to teach in Louisiana's pre-RN licensure programs. Noncompetitive salaries leads to an inadequate number of filled nurse faculty positions which is cited as a major reason for denying admission to qualified students (Maloney and Burns, 2006). According to the American Association of Colleges of Nursing (AACN, 2012), the average salary of a NP, across settings and specialties, is \$91,310 compared to \$72,028 for a master's prepared faculty. The higher compensation in clinical and private-sector settings is luring current and potential nurse educators away from teaching (AACN, 2009). Joynt and Kimball (2008), authors of a white paper entitled *Blowing Open the Bottleneck: Designing New Approaches to Increase Nurse Education Capacity* stated "While nursing faculty compensation adjustments alone will not solve the nursing education capacity problem, the value of the educators must be acknowledged and rewarded in order to move forward"(p.12).

The Deans and Directors of pre-RN licensure programs in Louisiana reported the average salaries of nursing faculty according to the rankings of instructor, assistant professor, associate professor, and professor. The Southern Regional Education Board (SREB) mean salary for full-time instructional faculty teaching in nursing programs in four year colleges or universities in

Louisiana was \$91,275 for Professors, \$68,557 for Associate Professors, \$58,067 for Assistant Professors and \$42,506 for Instructors, with the average salary being \$65,909 (SREB, 2012). Although there was an increase in mean salaries for all levels of faculty teaching in pre-RN licensure programs in Louisiana in the 2010-2011 report year when compared to the 2009-2010 annual report year, mean faculty salaries for Assistant Professors, Associate Professors and Professors in Louisiana still fall below the SREB mean for four year public colleges (Table 37).

Table 37. Mean Salaries for Nursing Faculty (2010-2011)

Faculty Role/Rank	Instructor	Assistant Professor	Associate Professor	Professor
2011	\$50,208	\$56,744	\$64,993	\$93,177
2010	\$48,801	\$55,839	\$61,917	\$74,687
1 Year Variance	↑3%	↑2%	↑5%	↑25%

Note: Salaries in terms of length of appointment (9 month, 10 month, or 12 month) could not be determined based on information provided in the annual report.

Age Ranges for Nurse Faculty

Aging nurse faculty has to be addressed when planning for a projected nursing shortage. The literature contends that younger nurses tend to choose practice roles over faculty roles (Joynt, and Kimball, 2008). In 2010-2011 over a third (39%) of the nurse faculty in Louisiana were between 51 to 60 years of age and 28% (176) were 41 to 50 years of age. Fifty-four percent (54%) of nursing faculty teaching in Louisiana’s pre-RN licensure programs are 51 years of age or older (Table 38). “The average age of nurse faculty at retirement is 62.5 years with a wave of retirements expected within the next 10 years (AACN, 2012).

Table 38. Age Ranges for Nurse Faculty (2009-2011)

Age Category	No. of Faculty 2009		No. of Faculty 2010		No. of Faculty 2011

Nurse Faculty Teaching in Graduate Nursing Programs in Louisiana

Educational Preparation of Nursing Faculty Teaching in Graduate Nursing Programs in Louisiana

Faculty teaching in Graduate Nursing programs in Louisiana must have a minimum of a Masters Degree in Nursing (LSBN Rules and Regulations Title 46 Part XLVII Chapter 45, 4509 G 2.c)

although most accrediting bodies prefer graduate nursing faculty have a doctorate either in nursing or in a related field outside of nursing. In 2010-2011 73% (105) of the faculty teaching in Louisiana’s graduate nursing programs held an earned doctorate which is relatively little change from the 2009-2010 report year (74% or 108 in 2009-2010) (Table 39). The Masters was the highest degree held by a little over one-fourth (27%) of the 144 faculty teaching in graduate nursing programs in Louisiana in 2011. These individuals possessed credentials and/or expertise in an advanced practice specialty area that was recognized by both LSBN and national accrediting bodies.

Table 39. Educational Preparation of Faculty Teaching in Graduate Nursing Programs

Program Type	No. of Faculty with a Doctorate in Nursing	No. of Faculty with a Doctorate outside of Nursing	No. of Mastered Prepared Nurses Teaching in an APRN Program	Total Faculty
2011	73	32	39	144
2010	73	35	38	146
2009	62	39	32	133

Filled and Vacant Nurse Faculty Positions in Graduate Nursing Programs in Louisiana

Deans and Directors of Louisiana’s graduate nursing programs were asked to submit the number of budgeted full-time faculty positions that were filled for the current report year. There were 54 filled full-time nurse faculty positions reported statewide which reflects a 25% decrease in the number of filled full-time nurse faculty positions in Louisiana’s graduate nursing programs since 2009-2010. The number of full-time and part-time faculty filling the 54 budgeted positions changed very little since 2010 (Table 40). Seven (7) nurse faculty positions were reported as being vacant (2 less than 2010) and there was no change in the number of faculty positions funded from other sources (e.g., grants, capitation funds) since the previous report year.

Table 40. Faculty Positions in Graduate Nursing Programs in LA (2009-2011)

Report Year	Number of Budgeted Nurse Faculty Positions Filled	Number of Full-time and Part-time Faculty Teaching in Graduate Nursing Programs	Nurse Faculty Positions Funded from other Sources	Vacant Nurse Faculty Positions	No. of New Faculty Appointments
2011	54	150	50	7	14
2010	72	149	50	9	13
2009	70	120	12	9	13
1 & 2 Year Variance	↓25% / ↓23%	↑1% / ↑25%	↑0% / ↑317%	↓22% / ↓22%	↑8% / ↑8%

Graduate Nursing Faculty Attrition

A total of 20 faculty left their teaching positions in graduate nursing programs in Louisiana in 2011 for one of the following reasons: approved paid or unpaid leave (5), resignations (9), and retirement (6) (Table 41). This represents a 33% increase in overall faculty attrition since 2010 -

a 400% increase in the number of faculty on leave and an 80% increase in faculty resignations. Six (6) graduate faculty retired in 2010 and 6 retired in 2011.

Table 41. Graduate Nursing Faculty Attrition: Leave, Resignation, and Retirement/Death/Termination

Program Type	No. of Faculty on Leave	No. of Faculty Resignations	No. of Faculty Retiring/Death/Termination
2011	5	9	6 (All retirements)
2010	1	5	9 (6 Retirements/3 Contracts Ended)
2009	2	4	3 (3 Retirements)

NURSING EDUCATION CAPACITY IN LOUISIANA
MAJOR FINDINGS
2010-2011

Pre-RN Licensure Programs in Louisiana

- In 2011, there were a total of 26 pre-RN licensure programs in Louisiana; 1 diploma, 12 associate degree; and 13 baccalaureate degree programs. Nicholls State has phased out its AD program (last graduates reported on the 2009-2010 annual report) and OLOL College has submitted a letter of intent to develop a BSN program.
- Beginning in 2008, there has been a steady decline in the number of qualified applicants applying to Louisiana's pre-RN licensure programs - dropping from 5,110 applicants in 2008 to 4,705 in 2011 (8% decrease in the last 4 years).
- More qualified students applied to Associate Degree programs in 2011 (2,393) than Baccalaureate programs (2,221), but more students were admitted to Baccalaureate programs (1,741) than Associate Degree programs (1,466).
- Since 2008, there has been a 12% decrease in the number of students admitted to Louisiana's only diploma program, a 10% decrease in admits to Associate Degree Programs and no movement up or down in the number of students admitted to baccalaureate programs.
- Since 2008, there has been a 16% increase in the number of qualified applicants denied admission to Louisiana's pre-RN licensure programs.
- The top four reasons identified by Louisiana's pre-RN licensure programs as to why qualified applicants are not admitted have remained unchanged: 1) limited budgeted faculty positions; 2) limited number of qualified faculty; 3) non-competitiveness in faculty salaries; and 4) lack of clinical specialty sites.
- There was a 13% decrease in the number of males enrolled in Pre-RN licensure programs in 2011 compared to a 9% increase in 2010.
- The racial make-up of students enrolled in Louisiana's pre-RN licensure programs in 2010-2011 was 67% White, 24% Black, 3% Hispanic, 2% Asian and 4% Other, which reflects a 6% increase in the number of Whites enrolled, a 3% decrease in Blacks, a 11% decrease in Hispanics, an 18% increase in Asians and a 52% increase in Other Race students.
- Baccalaureate programs produced 51% of the graduates from pre-RN licensure programs, followed by 48% from Associate Degree programs and 1% from the Diploma program.
- The number of graduates from baccalaureate and diploma programs decreased by 9% and 23% respectively, while the number of graduates from Associate Degree programs increased by 18% between 2010 and 2011.
- In 2011 there were a total of 2,294 RN candidates sitting for the National Council Licensure Examination for Registered Nurses (NCLEX-RN) exam with 2,082 passing on the first take resulting in a 90.76% pass rate for the state which exceeded the national pass rate of 87.90.

Advanced Practice Registered Nurse Education in Louisiana

- There are seven Graduate Nursing Programs in Louisiana offering a degree as an Advanced Practice Registered Nurse (APRN). Six of the seven programs offer the Nurse Practitioner (NP) role; four the Clinical Nurse Specialist (CNS) role; and two the Certified Registered Nurse Anesthetist (CRNA) role. There are currently no programs offering the Certified Nurse Midwife (CNM) role in Louisiana.
- Over the past year there has been an overall decline in the number of students enrolled in Louisiana's APRN programs. Between 2010 and 2011 there was a 3% decrease in the number of students enrolled in Louisiana's NP programs, a 72% decrease in those enrolled in CNS programs, and a 29% decrease in those enrolled in CRNA programs.
- Over the past year there has been a 33% decrease in the number of male students enrolled in Louisiana's APRN programs.
- The racial make-up of students enrolled in Louisiana's APRN programs is 72% White, 23% Black, 2% Hispanic, 2% Asian, and 1% Other race.
- In the 2010-2011 report year, there were a total of 279 graduates from Louisiana's APRN programs. The majority of those graduates were from NP programs (72%) and CRNA programs (26%). Two-percent (6) of the APRN graduates were from CNS programs.
- In the current report year (October 16, 2010 thru October 15, 2011) 262 candidates successfully passed their certification exams resulting in a 97% passage rate for the state.

Non-Licensure Graduate Nursing Programs: Nursing Education and Nursing Administration

- Six of the seven Graduate Nursing Programs in Louisiana offer a Masters Degree in Nursing Education, and Nursing Administration.
- Currently, LSBN does not have jurisdiction over graduate nursing programs that lead to the Masters in Nursing Education and Nursing Administration.
- Of the 883 students admitted to graduate nursing programs across Louisiana, 579 (66%) were admitted to APRN programs, 271(31%) were admitted to Nursing Administration programs, and 33 (4%) were admitted to Nursing Education programs in the 2010-2011 report year.
- Of the 1,424 students enrolled in graduate nursing programs across the state, 875 (61%) were enrolled in APRN programs, 494 (35%) were enrolled in Nursing Administration programs, and 55 (4%) were enrolled in Nursing Education programs during the 2010-2011 report year.
- Between 2010 and 2011, there was a 22% decrease in the number of students enrolled in graduate nursing education programs and a 13% decrease in the number enrolled in nursing administration programs.
- The racial make-up of students enrolled in non-licensure graduate nursing programs in Louisiana is 68% White, 21% Black, 3% Hispanic, 3% Asian and 5% Other race.
- In the current report year there were a total of 222 graduates from Louisiana's non-licensure graduate nursing programs which represents a 12% decrease from the previous report year. The majority of the graduates (194) were from Nurse Administration programs and 28 were from Nursing Education programs.

Faculty Teaching in Pre-RN Licensure Programs in Louisiana

- There were a total of 560 budgeted full-time nurse faculty positions reported by Louisiana's pre-RN licensure programs in 2010-2011 compared to 536 in 2009-2010 which reflects a 4% increase in the number of full-time budgeted positions.
- In 2011 there were more budgeted full-time faculty positions reported by pre-RN licensure programs when compared to the previous year (+24), but less full and part-time faculty employed (-17) which reflects a 2% decrease in the number of faculty teaching in Louisiana's pre-RN licensure programs.
- Sixty-four faculty positions were funded from grants, capitation funds, additional appointments, and/or other funding sources compared to 17 positions in 2010, a 276% increase.
- There were a total of 27 full-time vacant nurse faculty positions reported by Deans and Directors in the 2010-2011 report year, compared to 32 reported in the previous report year.
- A total of 82 new faculty appointments were reported by pre-RN licensure programs during the 2010-2011 report compared to 71 in the previous year which represents a 15% increase in the number of faculty appointments.
- The number of faculty exceptions requested by pre-RN licensure programs went from 56 in 2009, to 44 in 2010, and 40 in 2011, which represents a 29% decrease in the number of faculty exceptions utilized by pre-RN licensure programs over the last two years.
- 1,190 preceptors were utilized by pre-RN licensure programs during the current report year which reflects a 23% increase in the number of preceptors used by pre-RN licensure programs when compared to the previous year.
- During the 2010-2011 annual report year, a total of 15 faculty went on leave in comparison to 5 from the previous report year (a 200% increase).
- In 2010-2011 approximately 16% (122) of the faculty teaching in pre-RN licensure programs were prepared at the doctoral level, 79% (617) were Masters' prepared, and 5% (40) reported that their highest degree in nursing was a baccalaureate degree. This represents a 16% increase in the number of faculty prepared at the doctoral level, a 4% increase in those prepared at the Masters' level, and a 9% decrease in faculty prepared at the BSN level when compared to 2010.
- One hundred and fifteen (115) nurse faculty teaching in pre-RN licensure programs in Louisiana were recipients of the Board of Regents (BOR) Nurse Faculty Stipends, an increase of 10 nurse faculty when compared to the 2009-2010 report year. Due to statewide budget cuts to higher education, funds were not available for stipends for graduate nursing students during the 2010-2011 annual report year.
- Although there was an increase in mean salaries for all levels of faculty teaching in pre-RN licensure programs in Louisiana in the 2010-2011 report year when compared to the 2009-2010 annual report year, mean faculty salaries for Assistant Professors, Associate Professors and Professors in Louisiana still fall below the SREB mean for four year public colleges.

Faculty Teaching in Graduate Nursing Programs

- In 2010-2011 73% (105) of the faculty teaching in Louisiana's graduate nursing programs held an earned doctorate which reflects a 1% decrease from the previous report year.
- There were 54 filled full-time nurse faculty positions reported statewide by graduate nursing programs, which reflects a 25% decrease in the number of filled full-time nurse faculty positions in Louisiana's graduate nursing programs since 2009-2010.
- A total of 20 faculty left their teaching positions in graduate nursing programs in Louisiana between 2010 and 2011 for one of the following reasons: approved paid or unpaid leave (5), resignations (9), and retirement (6). This represents a 33% increase in overall faculty attrition since 2010 - a 400% increase in the number of faculty on leave and an 80% increase in faculty resignations.

NURSING SUPPLY: AVAILABLE RN NURSING WORKFORCE IN LOUISIANA
2010-2011

The Louisiana State Board of Nursing (LSBN) collects demographic information about Louisiana’s registered nurse workforce as a component of the licensure renewal process. The target population for the nursing supply data for 2011 includes all registered nurses that held an active unencumbered license to practice as a registered nurse (RN) in Louisiana any time between February 1, 2011 and January 31, 2012. Descriptive analysis of the RN supply data, along with findings based on the analysis of the data, is being presented in the 2011 LSBN Annual Report. The raw data on which this report is based can be found in Appendix D.

Licensed Registered Nurses Residing in Louisiana

The Louisiana Nurse Practice Act requires annual license renewal for registered nurses. LSBN is the state appointed agency assigned to implement, regulate, and monitor the issuance of a license to practice as a RN in the state of Louisiana. In 2011, 57,788 nurses held a license to practice as a registered nurse (RN) in Louisiana. Of the 57,788 RNs holding a Louisiana license, 50,142 (87%) lived in Louisiana, while 7,630 (13%) reported home addresses outside of Louisiana. Overall, over the past five years, there has been a 14% increase in the number of RNs holding a license to practice nursing in Louisiana, a 15% increase in the number of RNs licensed and residing in Louisiana, and a 4% increase in the number of RNs that do not reside in Louisiana but hold a license to practice in Louisiana (Table 42).

Table 42. Licensed Registered Nurses Residing in LA ((2007-2011)

Report Year	# of Nurses holding an RN License in LA (Residing in LA)	# of Nurses holding an RN License in LA (Not Residing in LA)	Total # Nurses Holding a LA RN License
2011	50,142	7,630	57,788
2010	48,298	7,396	55,712
2009	46,828	7,523	54,366
2008	44,700	7,344	52,052
2007	43,548	7,316	50,873
1 & 5 Year Variance	↑4% ↑15%	↑3% ↑4%	↑4% ↑14%

Note: Parishes were not designated for 16 licensed RNs

Employment Distribution of Licensed Registered Nurses Residing in Louisiana

The majority of RNs holding an active RN license in Louisiana reported full-time employment (74%), while 13% reported part-time employment. There has been a 11% increase since 2007 in the number of RNs that are working full-time and a 15% increase in the number that are working part-time. Over 4,000 RNs (4,366) reported that they were unemployed, which reflects a 6% increase in the number of unemployed RNs during the 2010-2011 report year when compared to a 25% increase in the number of unemployed RNs reported during the 2009-2010 report year (Table 43). Nurses that were not employed indicated that they were either

unemployed and seeking a nursing position (1,460), seeking employment, but not in nursing (146), or not seeking employment at all (2,760).

Table 43. Employment Distribution of Licensed Registered Nurses Residing in LA (2007-2011)

Report Year	Full-Time Nursing		Part-Time Nursing		Employed Other		Not Employed		No Response
	#	%	#	%	#	%	#	%	#
2011	37,157	74	6,488	13	1,178	2	4,366	9	740
2010	36,171	75	6,227	13	1,150	2	4,116	9	422
2009	35,485	76	6,080	13	1,145	2	3,330	7	384
2008	34,432	77	5,818	13	871	2	3,388	8	191
2007	33,383	77	5,648	13	1,014	2	3,269	8	234
1 & 5 Year Variance	↑3%	↑11%	↑4%	↑15%	↑2%	↑16%	↑6%	↑34%	

There was a 17% increase in the number of licensed RNs indicating that some form of disability was their reason for not seeking employment and a 12% increase in the number of RNs citing home and family care as their major reason for not seeking employment. There was a 21% increase since 2010 in the number of licensed RNs that were retired (Table 44).

Table 44. Reasons for Unemployment (2010-2011)

Report Year	Home/Family Care	Retired	Difficulty Finding a Nursing Position	Currently in School	Disabled
2011	2,048	916	501	426	316
2010	1,834	754	468	413	269
1 Year Variance	↑12%	↑21%	↑7%	↑3%	↑17%

Note: Additional reasons for unemployment included inadequate salary (26) and other (675)

Employers of Licensed Registered Nurses Residing in Louisiana

Although hospitals continue to be the primary employers of RNs in 2011, the percentage of RNs employed by hospitals went from 57% in 2010 to 56% in 2011. The number of RNs employed by hospitals did increase by 2% in the current report year compared to a 1% decrease in 2010 (Table 45). Since 2007, there has been an 88% increase in the number of RNs employed in physician's offices and a 60% increase in the number employed by long term care facilities. In addition to hospitals, employers showing the lowest growth in numbers of licensed RNs over the past year include Home/Community/Public Health (1%), Nurse Educators (1%), and School Nurses (3%). In 2011 there was a 9% increase in the number of RNs employed in clinic/ambulatory care settings in contrast to the 14% decrease in 2010.

Table 45. Field of Employment for Licensed Registered Nurses Residing in LA (2007-2011)

Age Ranges for Licensed Registered Nurses Residing in Louisiana

The average age for RNs licensed in Louisiana in 2011 is 44 years, whereas, nationwide the average age for RNs is 47 yrs (BHP., 2010). There was a 12% increase in the number of licensed RNs that were less than 30 years of age, which is also the age category that had the greatest growth in numbers in 2010 (11% increase). Licensed RNs in Louisiana between the ages of 30 and 39 represented 27% of the RN workforce, followed by 22% that were 40-49. Twenty-six percent of licensed RNs were 50 years or older. RNs that were 60 and older continue to decrease in number reflected by a 3% decrease in 2011 and a 4% decrease in 2010. The two age groups with the greatest increase in numbers over the past five years were the youngest RNs (less than 30 years) and the oldest (60 years or greater) (Table 46).

Table 46. Age Distribution of Licensed Registered Nurses Residing in LA ((2007-2011)

Report Year	<30		30-39		40-49		50-59		60 and >

Gender of Licensed Registered Nurses Residing in Louisiana

In 2010, the gender distribution for the U.S. population was 49.2% males and 50.8% females, which does not differ significantly from that of the gender distribution for Louisiana which was 49% male and 51% female (2010 U.S. Census Bureau). Nationwide, males comprise approximately 6.2% of employed RNs who were licensed before 2000 and 9.6% of those licensed in 2000 or later (DHHS/HRSA, 2010). In Louisiana, males have consistently represented 11% of the RN workforce and females 89% (see Table 47).

Table 47. Gender Distribution of Licensed Registered Nurses Residing in LA ((2007-2011)

Ethnicity of Licensed Registered Nurses Residing in Louisiana

According to the U.S. Census Bureau (2010) minorities comprise approximately 36% of the U.S. population. In the U.S. Hispanics represent 16% of the population, Blacks 13%, Asians 5%, Native Americans 1%, and Native Hawaiians and other Pacific Islanders 0.2%. In Louisiana, Hispanics represent 4% of the population, Blacks, 32%, Asians, 2%, Native Americans, 0.7%, and Native Hawaiians and other Pacific Islanders, less than .01%. In 2011, the racial make-up of RN workforce in Louisiana was 80% White, 14% Black, 1% Hispanic, 1% Asian, .4% Native American, and .4% other race (Table 48). Hispanic RNs had the greatest growth in number over the past five years (42% increase in number).

Basic Educational Preparation of Licensed Registered Nurses Residing in Louisiana

In 2011, 46% of the RN workforce reported on their licensure renewal application that their basic educational preparation began at the baccalaureate degree or higher level, which is a 2% increase when compared to 2010 and a 13% increase over the previous five years. There was less than a 1% increase in the number of RNs reporting that their basic RN education began at the associate degree level, yet since 2007 there has been a 17% increase in the number RNs reporting the associate degree as their basic educational preparation. There continues to be a decline in the number of licensed RNs reporting their basic educational preparation at the diploma level (Table 49). In 2011, the question relative to initial preparation as a nurse at the vocational/practical level was added as an option in order to comply with the Forum for State Nursing Workforce

Center's minimum data set for nursing supply. Over one thousand RNs (1,181) reported Vocational/Practical Nursing as their basic nursing preparation.

Table 49. Basic Educational Preparation of Registered Nurses Residing in Louisiana (2007-2011)

Report Year	Diploma Nurse		Associate Degree		Baccalaureate or Higher		Other/No Answer #
	#	%	#	%	#	%

Note: 612 RNs reported the Masters Degree as their basic educational preparation as an RN and 16 indicated the Doctorate.

Highest Degree Held by Licensed Registered Nurses Residing in Louisiana

For the purposes of the annual report and in order to make comparisons with the 2008 National Sample Survey of Registered Nurses conducted by Health Resources and Services Administration (HRSA), only those degrees that are in nursing, or a related field (i.e., doctorate in another field) will be included in the following discussion. According to the National Sample Survey of Registered Nurses (DHHS/HRSA, 2010), the highest degree reported by 13.9% of the U.S. RN workforce is the diploma, 36.1% the associate degree, 36.8% the baccalaureate degree, and 13.2% the Masters/Doctorate degree. In Louisiana, the highest degree held for 7% of the RN workforce is the diploma, 33% report the associate degree as being their highest educational preparation, 40% the baccalaureate degree and 9.5% the Masters/Doctorate which reflects minimal change from 2010 (Table 50). Louisiana continues to fall slightly below the nation in terms of the percentage of its RN workforce that is prepared at the baccalaureate or higher degree level (Louisiana-49.5%; U.S.-50%).

Members of the RN workforce possessing doctorates in nursing reflected a 17% increase between 2010 and 2011 and a 71% increase over the past five years. Types of doctorates in nursing included: PhD in Nursing (93), Doctorate of Nursing Practice (54), and Doctorate of Nursing Science or Doctorate of Science in Nursing (50). There has been a 59% increase in the number of licensed RNs holding a DNP since 2010 (Table 51).

Number of Years Licensed Registered Nurses Residing in Louisiana Plan to Work

In 2011, 7,296 nurses (15%) reported that they only plan to work an additional 0-5 years as an RN, which reflects a 6% increase since 2010. Nine thousand eight hundred and fifty-one RNs (20%) indicated that they plan to work 6-10 more years. Over one third (35%) of Louisiana’s RN workforce plan to be in the workforce for 10 years or less (Table 52).

Table 52. Number of Years Licensed Registered Nurses in Louisiana Plan to Work

Positions Held by Licensed Registered Nurses Residing in Louisiana

Sixty percent (30,165) of RNs licensed in Louisiana in 2011 were employed as staff nurses. Approximately 9% (4,329) of the RN workforce were nurse managers, 6% (3,104) advanced practice registered nurses, 3% (1,428) administrators, and 3% (1,525) indicated that they were instructors (Table 53). The positions showing the greatest growth in numbers overall for both the one year and five year mark were advanced practice registered nurses (↑8% and ↑47% respectively) and instructors (↑8% and ↑44% respectively). There continues to be a decline in the number of RNs serving as nurse administrators.

Major Clinical, Teaching or Practice Areas Reported by Registered Nurses Residing in Louisiana

The top five clinical, teaching or practice areas reported by RNs licensed and residing in Louisiana in 2011 were: 1) medical-surgical units (7,009); special care units/critical care areas (5,672); 3) operating room/post anesthesia care units (3,512); 4) emergency room (3,139); and 5) general practice/adult family health (2,966). Community/Public Health came in at number 6 (2,880), with a 17% increase in the number of RNs working in these types of clinical settings as compared to a 16% decrease in 2010. The number of RNs holding positions in maternal child health continued to decline in 2011 (↓5%) compared to a decrease of 16% in 2010 (Table 54).

Table 54. Major Clinical, Teaching or Practice Areas Reported by Licensed Registered Nurses Residing in LA (2007-2011)

Licensed Registered Nurses Residing in Louisiana Providing Direct Patient Care in 2011

Nurses are the single largest component of the health care workforce and they provide the majority of direct care to patients (Institute of Medicine Report on the Future of Nursing, 2011; National Advisory Council on Nurse Education and Practice, 2008). This is true not only for the nation, but also for Louisiana. The majority of RNs licensed and residing in Louisiana in 2011 (81%) reported that they provided direct patient care in their practice, which is a 3% increase from 2010 (Table 55).

Table 55. Licensed Registered Nurses Residing in LA Providing Direct Patient Care (2010-2011)

RNs Residing in Louisiana	No. of RNs Providing Direct Patient Care	Total No. Licensed RNs	% of Total RNs Providing Direct Patient Care	No Answer

Salaries from Positions held as a Registered Nurse Living in Louisiana

Of the 37,148 RNs licensed and residing in LA in 2011 that reported working full-time, 47% (17,498) reported annual salaries between \$50,001.00 and \$75,000. Twenty-one percent of the full-time RN workforce reported receiving an annual salary ranging between \$35,001 to \$50,000. There was a 6% increase in the number of RNs working full-time reporting annual salaries between \$15,001 and \$25,000 which is in direct contrast to the 40% decrease reported in 2010. Approximately 65% of the fulltime RN workforce residing in LA reported salaries between \$50,001.00 and \$100,000 (Table 56a). Annual salaries greater than \$100,000 dollars were reported by 6% of RNs working full-time in 2011, an increase of 1% when compared to 2010.

Table 56a. Salaries of Licensed Registered Nurses Living in Louisiana Working Full-Time (2009-2011)

Advanced Practice Registered Nurses

There has been a 30% increase in the number of APRNs holding a license to practice in Louisiana since 2007. The number of APRNs licensed and residing in Louisiana has increased by 34%, while the number of licensed APRNs residing outside of Louisiana has increased by only 3% over the previous five years (Table 57).

Table 57. Number of Advanced Practice Registered Nurses Licensed in LA ((2007-2011))

Roles of Advanced Practice Registered Nurses Employed and Residing in Louisiana

In 2011, 55% (1,966) of all APRNs licensed and residing in Louisiana were nurse practitioners, 35% (1,191) were Certified Registered Nurse Anesthetists, 4% (156) were Clinical Nurse Specialists, and 0.6% (23) were Certified Nurse Midwives. In contrast, 5% of licensed APRNs were not employed as APRNs. This number has increased by 41% over the past 5 years. There has been a 55% increase in the number of NPs licensed and residing in Louisiana between 2007 and 2011 and a 12% increase between 2010 and 2011. Certified Nurse Midwives, although small in number, decreased by 18% between 2010 and 2011 and the number of Clinical Nurse Specialist licensed and residing in Louisiana decreased by 1% during the same time period (Table 58).

NURSING SUPPLY: AVAILABLE RN NURSING WORKFORCE IN LOUISIANA

Major Findings

- In 2011, 57,788 nurses held a license to practice as a registered nurse (RN) in Louisiana which reflects a 4% increase in the number of nurses licensed to practice in Louisiana over the last year and a 15% increase over the previous 5 years.
- Of the 57,788 RNs holding a Louisiana license, 50,142 (87%) lived in Louisiana, while 7,630 (13%) reported home addresses outside of Louisiana.
- 74% of RNs holding an active RN license in Louisiana reported full-time employment and 13% reported part-time employment.
- 4,366 RNs reported that they were unemployed, which reflects a 6% increase in number since 2010.
- There was a 17% increase in the number of licensed RNs indicating that some form of disability was their reason for not seeking employment and a 12% increase in the number of RNs citing home and family care as their major reason for not seeking employment.
- There was a 21% increase since 2010 in the number of licensed RNs that were retired.
- There was a 7% increase in the number of RNs indicating that they had difficulty finding a job during the current report year.
- Although hospitals continue to be the primary employers of RNs in 2011, the percentage of RNs employed by hospitals went from 57% in 2010 to 56% in 2011.
- Since 2007, there has been an 88% increase in the number of RNs employed in physician's offices and a 60% increase in the number employed by long term care facilities.
- The average age for RNs licensed in Louisiana in 2011 was 44 years, whereas, nationwide the average age for RNs is 47 yrs (BHP., 2010).
- The two age groups with the greatest increase in numbers over the past five years were the youngest RNs (less than 30 years) and the oldest (60 years or greater).
- Twenty-six percent of licensed RNs in Louisiana were 50 years or older in 2011.
- In Louisiana, males have consistently represented 11% of the RN workforce and females 89%. Nationwide, males comprise approximately 6.2% of employed RNs who were licensed before 2000 and 9.6% of those licensed in 2000 or later (DHHS/HRSA, 2010).
- In 2011, the racial make-up of RN workforce in Louisiana was 80% White, 14% Black, 1% Hispanic, 1% Asian, .4% Native American, and .4% other race (Table 43). Hispanic RNs had the greatest growth in number over the past five years (42% increase in number).
- In 2011, 46% of the RN workforce reported that their basic educational preparation began at the baccalaureate degree or higher level, which is a 2% increase when compared to 2010 and a 13% increase over the previous five years.
- There was less than a 1% increase in the number of RNs reporting that their basic RN education began at the associate degree level in 2011, yet since 2007 there has been a 17% increase in the number RNs reporting the associate degree as their basic educational preparation.
- Over one thousand RNs (1,181) reported Vocational/Practical Nursing as their basic nursing preparation in 2011.

- Louisiana continues to fall slightly below the nation in terms of the percentage of its RN workforce that is prepared at the baccalaureate or higher degree level (Louisiana-49.5%; U.S.-50%).
- Members of the RN workforce possessing doctorates in nursing reflected a 17% increase between 2010 and 2011 and a 71% increase over the past five years.
- During the 2010-2011 report year, there has been a 59% increase in the number of licensed RNs holding a DNP.
- Over one third (35%) of Louisiana's RN workforce plans to be in the workforce for 10 years or less.
- The majority of RNs (60%) licensed in Louisiana in 2011 were employed as staff nurses.
- The positions held by licensed RNs showing the greatest growth in numbers overall for both the one year and five year mark were APRNs (↑8% and ↑47% respectively) and instructors (↑8% and ↑44% respectively). There continues to be a decline in the number of RNs serving as nurse administrators.
- The top five clinical, teaching or practice areas reported by RNs licensed and residing in Louisiana in 2011 were: 1) medical-surgical units; special care units/critical care areas; 3) operating room/post anesthesia care units; 4) emergency room; and 5) general practice/adult family health.

Advanced Practice Registered Nurses in Louisiana

- There has been a 30% increase in the number of APRNs holding a license to practice in Louisiana since 2007.
- In 2011, 55% (1,966) of all APRNs licensed and residing in Louisiana were nurse practitioners, 35% (1,191) were Certified Registered Nurse Anesthetists, 4% (156) were Clinical Nurse Specialists, and 0.6% (23) were Certified Nurse Midwives.
- There has been a 55% increase in the number of NPs licensed and residing in Louisiana between 2007 and 2011 and a 12% increase between 2010 and 2011.
- The number of licensed APRNs with prescriptive authority in Louisiana increased by 72% between 2007 and 2011, with a 14% increase noted between 2010 and 2011.

APPENDIX B

LSBN Approved Continuing Education Providers

LOUISIANA STATE BOARD OF NURSING

Board Approved Continuing Education

Continuing education contact hours which have been approved either by another Board of Nursing or the American Nurses Credentialing Center (ANCC) are acceptable for relicensure in Louisiana. Certification by the ANCC in a specialty area of nursing by a certifying body whose requirements have been approved by the LSBN may be used in lieu of contact hours to meet the CE requirements for relicensure. Academic courses in a post-secondary institution which are related to specific knowledge and/or technical skills required for the practice of nursing or which lead to an advanced degree, or to a certification in advanced nursing, may be used in lieu of CE contact hours. Continuing education may also be obtained through one of the LSBN approved providers listed below. For detailed information related to continuing education, please refer to our Rules and Regulations, Chapter 33, Subchapter C, §3335.

APPROVED PROVIDERS
