2014

Annual Report

“Safeguarding the life and health of the citizens of Louisiana.”

Letter to the Governor, Members of the Legislature, Other State Agencies, Healthcare Community, Academic Institutions, and the Citizens of Louisiana:

Having completed my first year as Executive Director of the Louisiana State Board of Nursing (LSBN), it is with a deep sense of accomplishment that I share with Governor Jindal, state officials and my professional colleagues as well as the general public the accomplishments of this agency during 2014. The mission of LSBN is ***to safeguard the life and health of the citizens of Louisiana by assuring persons practicing as registered nurses and advanced practice registered nurses are competent and safe.*** The purpose of the 2014 Annual Report is to validate the activities and actions of the Board for the period of January 1, 2014 through December 31, 2014 and to provide data related to nursing education, nursing practice, licensure, and discipline. Additionally, this report identifies specific issues relative to educational capacity for Registered Nurses (RNs) and Advanced Practice Registered Nurses (APRNs) in Louisiana and other workforce data for the profession.

The year 2014 was especially productive for the LSBN in the area of rule-making. In compliance with the Louisiana Administrative Procedures Act, we were able to promulgate new rules related to Title 46, Subpart 2: Registered Nurses, §3341 Fees for Registration and Licensure to allow for limited fee increases and §3328 Temporary Permits Rules and Regulations and §4513 Authorized Practice to allow for temporary prescriptive authority for APRNs during a formal, declared disaster. Our goal is to build on our successes and to continue to promulgate strategy-driven, outcomes-oriented processes. With every regulatory, disciplinary, practice and educational decision that we make, our overarching goal is to improve health outcomes for all Louisianans.

For the Public Trust,

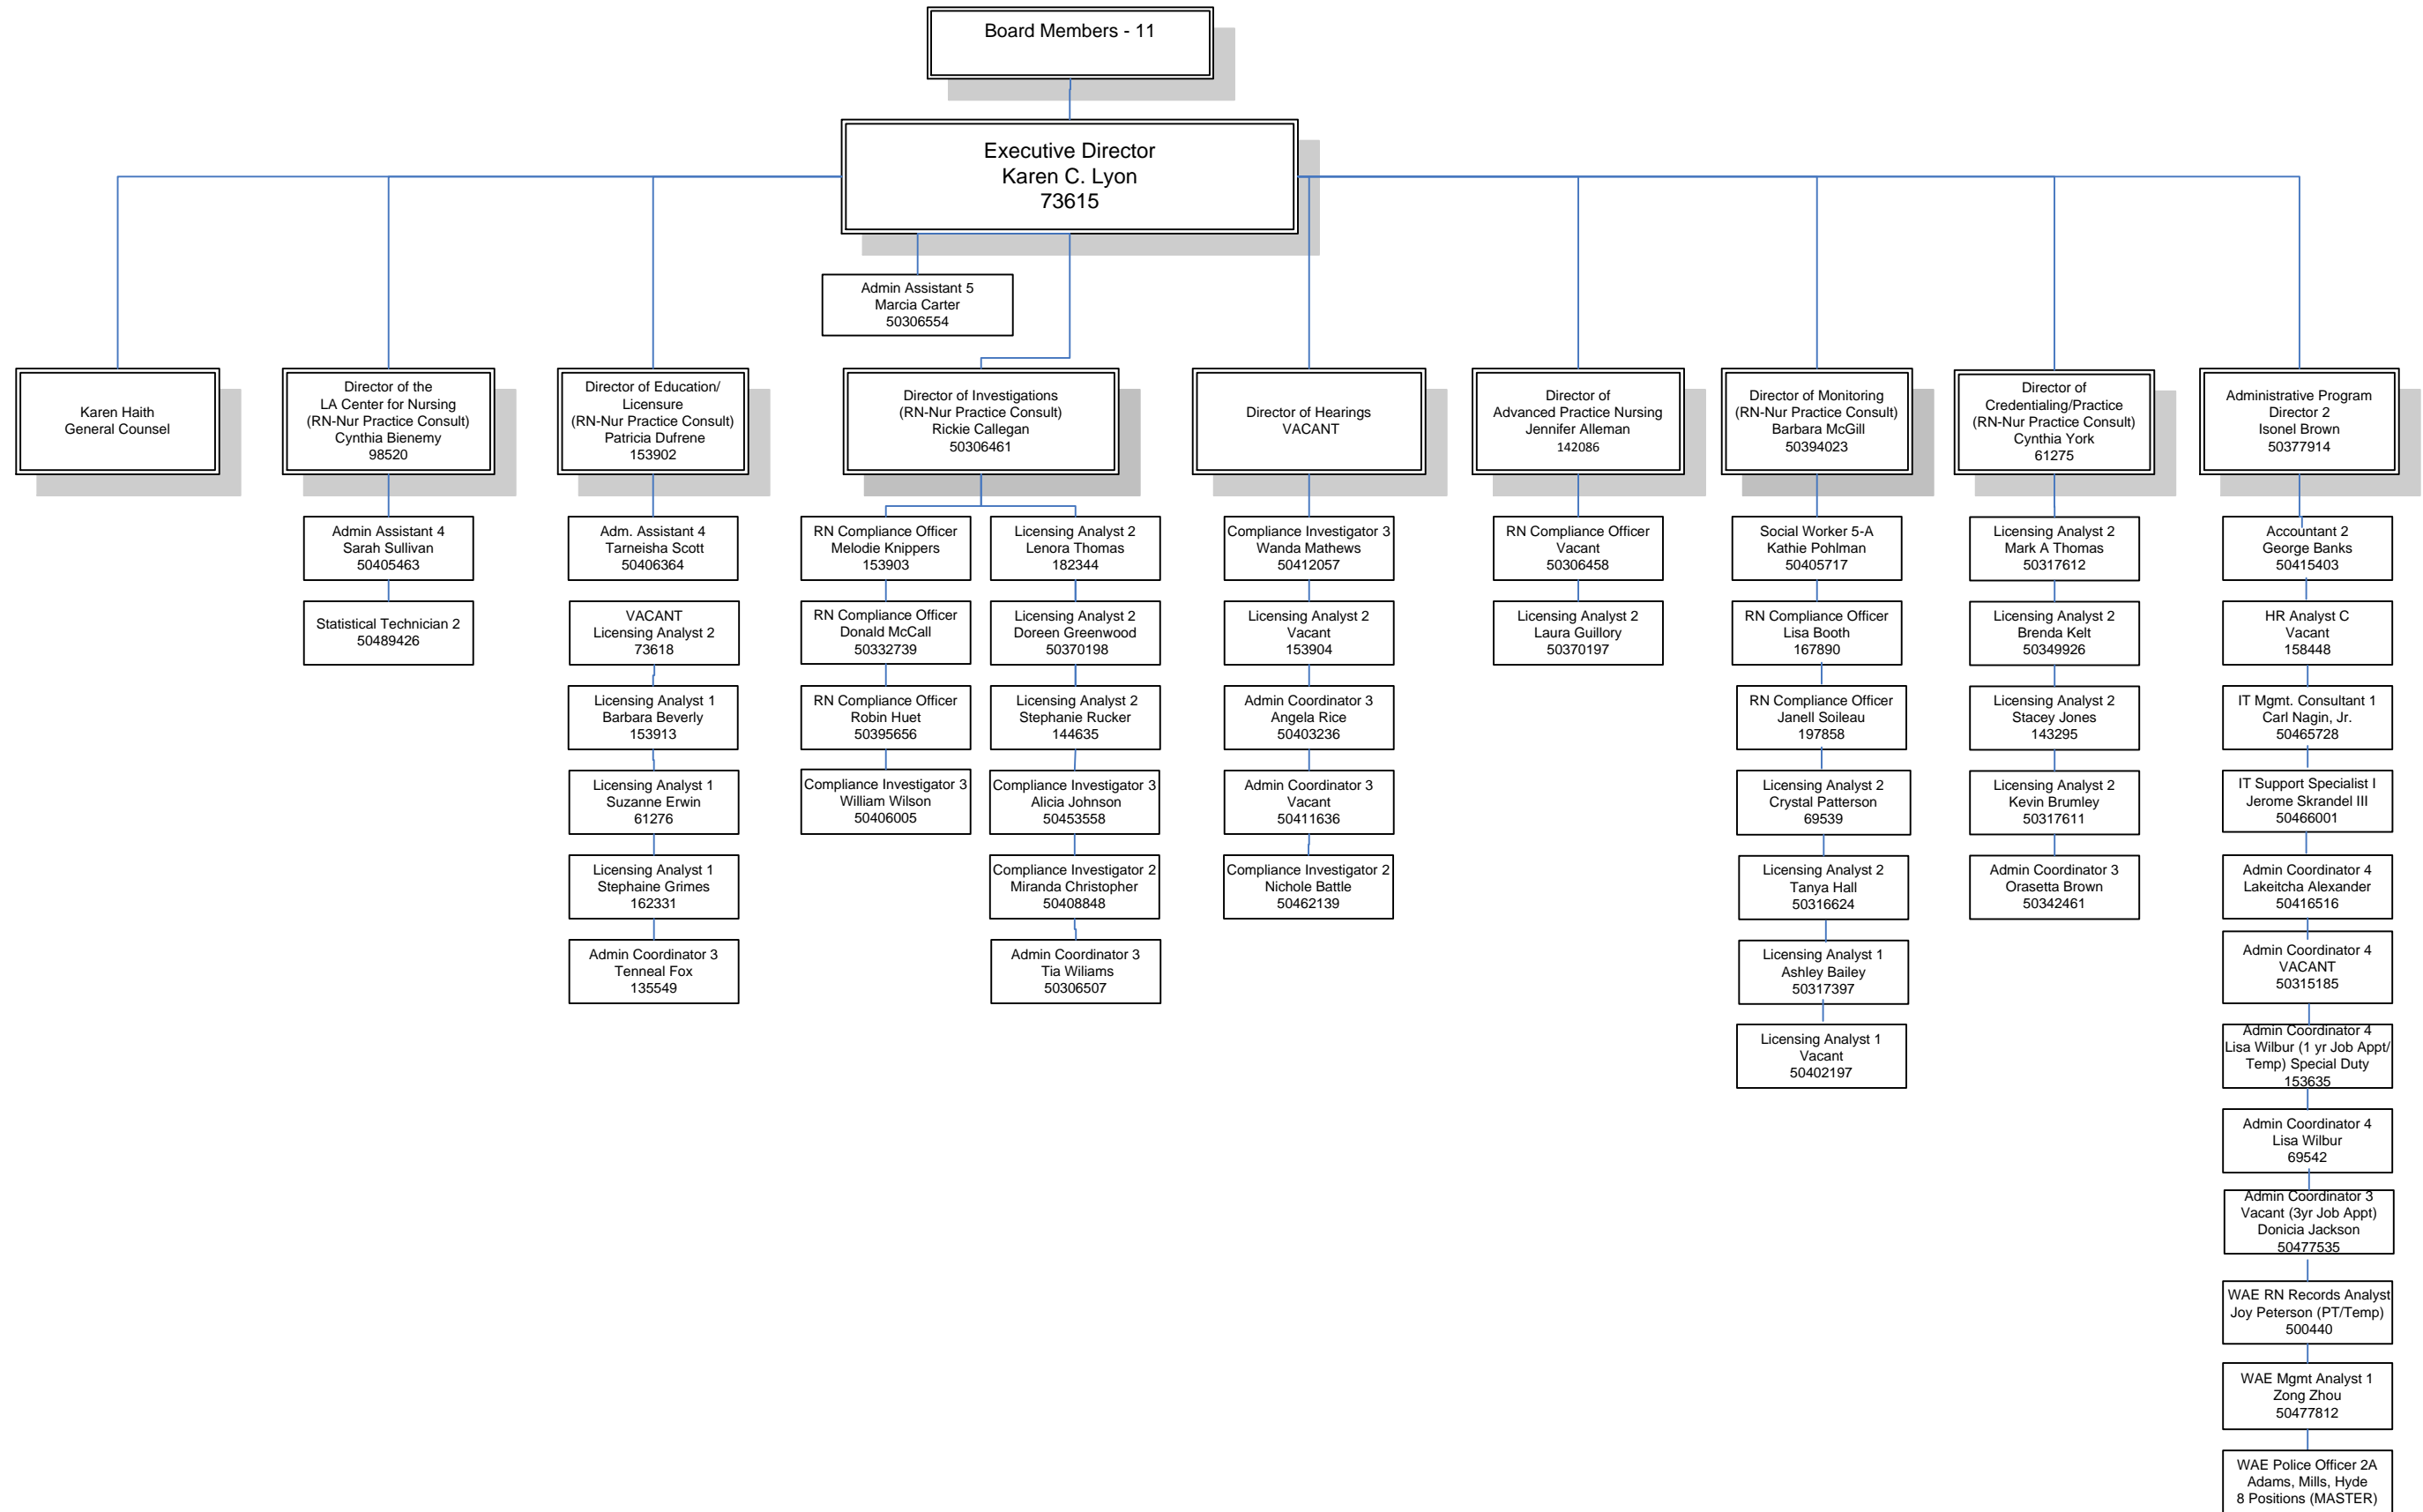

A handwritten signature in black ink that reads "Karen C. Lyon". The signature is written in a cursive, flowing style.

Duties and Powers of the Louisiana State Board of Nursing

The duties and powers of LSBN are defined in RS37:918. In order to assure that individuals licensed to practice as registered nurses and/or advanced practice registered nurses are qualified, LSBN is empowered to regulate nursing education and practice in Louisiana. Further, LSBN is charged with the responsibility to deny, revoke, suspend, probate, limit or otherwise discipline individuals who violate the provisions of the law governing nursing practice in Louisiana.

Further, Senate Resolution 152 of the 2008 Regular Legislative Session requested the Louisiana State Board of Nursing establish a nursing workforce center in Louisiana. The charge to the nursing workforce center, hereafter called the Louisiana Center for Nursing, was identified as the following:

- Collect, analyze and report the registered nurse workforce data utilizing established nursing supply, demand, and predictor models to forecast registered nurse resource needs to the Louisiana Health Works Commission.
- Evaluate registered nurse education capacity, and develop strategies for increasing educational access, retention and mobility, including opportunity for minority and underrepresented groups.
- Establish a website for information concerning potential employment, and educational opportunities for becoming a registered nurse in Louisiana.

The following sections reflect information regarding activities of LSBN in safeguarding the citizens of Louisiana in major areas: Nursing Education, Licensure, and Discipline/Alternative to Discipline.

Louisiana State Board of Nursing
STRATEGIC PLAN
2013 - 2015

MISSION STATEMENT

To safeguard the life and health of the citizens of Louisiana by assuring persons practicing as registered nurses and advanced practice registered nurses are competent and safe.

VISION STATEMENT

LSBN will be a leader in regulatory excellence that advances nursing workforce, education, and practice.

CENTRAL CHALLENGE

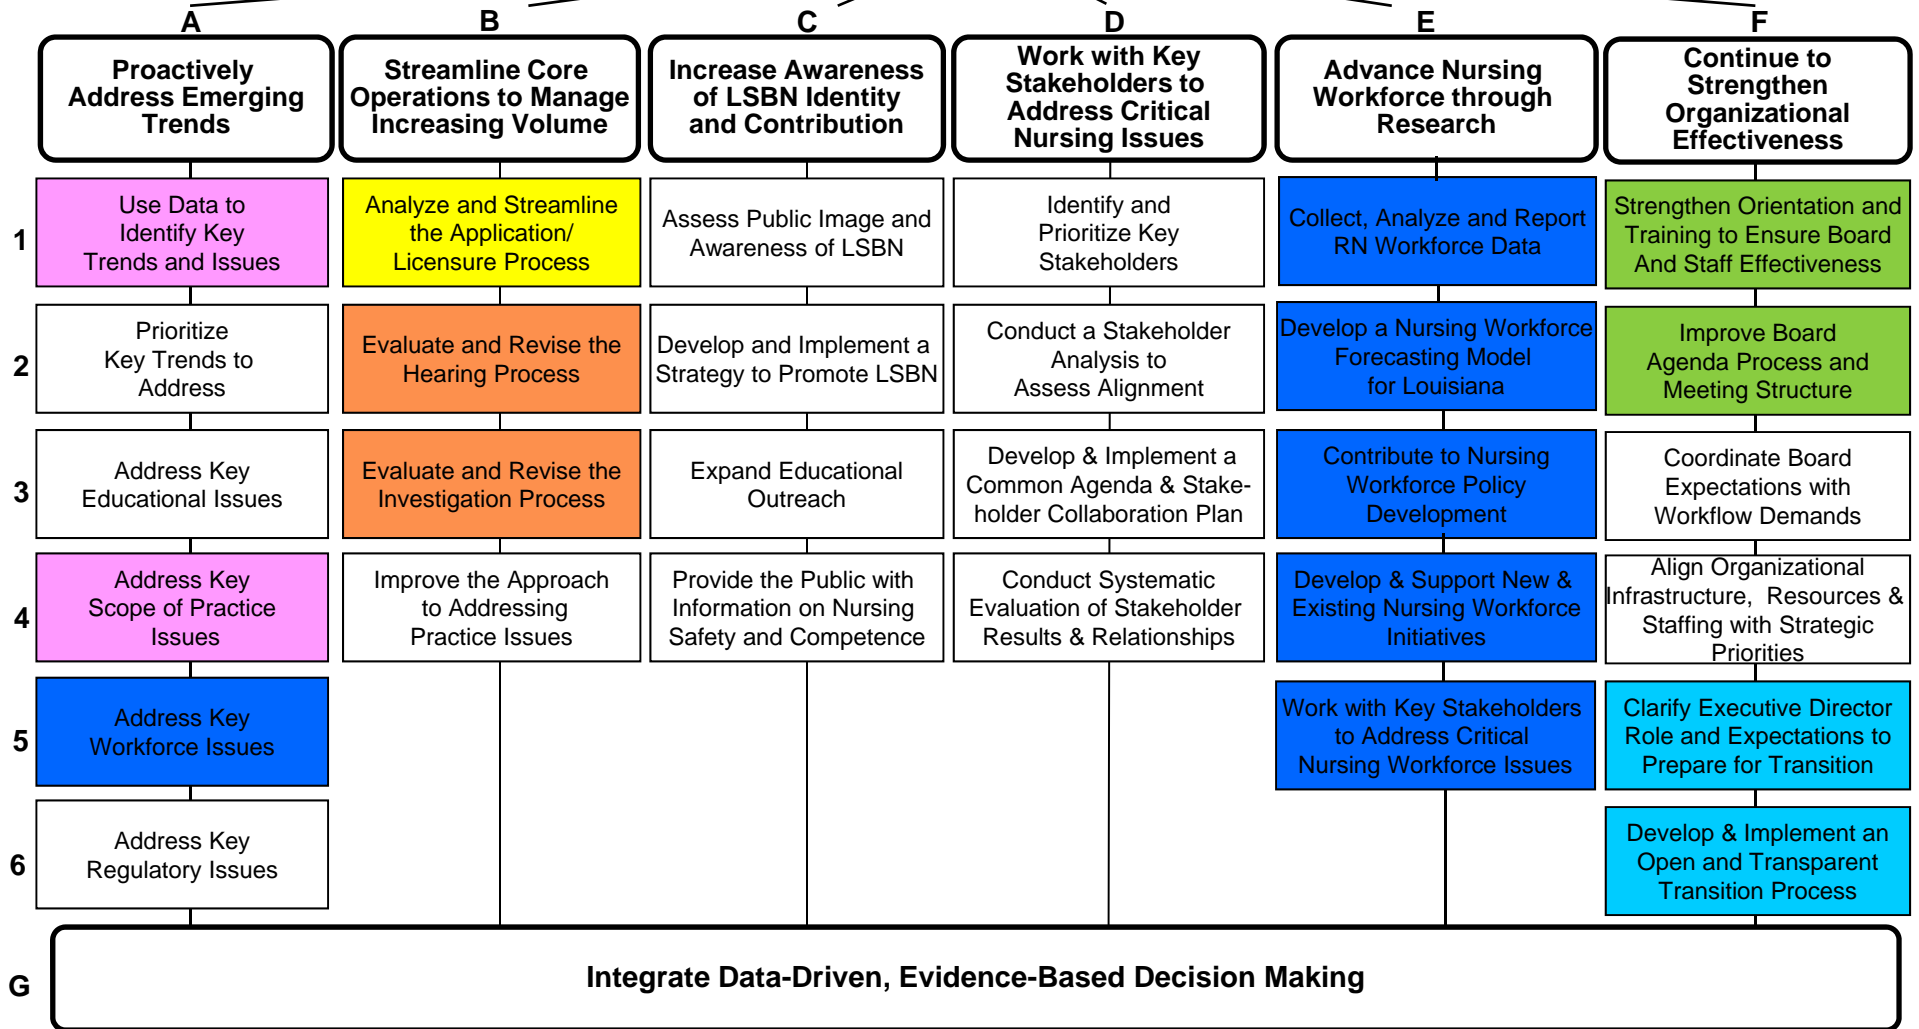

Provide leadership to protect the public and advance nursing in Louisiana.

The practice of nursing by qualified individuals is necessary to protect the public health, safety, and welfare of the citizens of Louisiana (LRS:37:911). In order to promote, preserve, and protect the public health, safety, and welfare, the LSBN is charged with the regulation of nursing education and practice and ensuring that any individual practicing or offering to practice nursing or using the title “registered nurse” or “advanced practice registered nurse” shall be licensed to do so. In 2012, the LSBN Board and staff held a strategic planning meeting and produced the LSBN 2013-2015 Strategic Map which identifies strategic priorities and strategic objectives that the Board will address over the next three years. In April 2013, LSBN revised the 2013-2015 Strategic Plan to include a strategic priority that specifically addresses nursing workforce.

- | | |
|------------------------------|--|
| STRATEGIC PRIORITY A: | Proactively address emerging trends. |
| STRATEGIC PRIORITY B: | Streamline core operations to manage increasing volume. |
| STRATEGIC PRIORITY C: | Increase awareness of LSBN’s identity and contribution. |
| STRATEGIC PRIORITY D: | Work with key stakeholders to address critical nursing issues. |
| STRATEGIC PRIORITY E: | Advance nursing workforce through research. |
| STRATEGIC PRIORITY F: | Continue to strengthen organizational effectiveness. |

**Louisiana State Board of Nursing
Strategic Map: 2013-2015**

**Provide Leadership to
Protect the Public and
Advance Nursing in Louisiana**

Adopted: October 10, 2012 Revised: April 17, 2013

MAJOR MOTIONS AND OTHER ACTIONS OF THE BOARD IN 2014

EXECUTIVE ACTIONS:

Approved CMA OCDD Medication Administration course guidelines as revised

Approved piloting the self-assessment tool with a select group of providers and support coordinators for six months

Approved the August 2014 Vice-President Financial Report

Accepted the Report of the Executive Director for the August 27, 2014 and October 15, 2014 meetings

UNFINISHED BUSINESS:

Appointed a task force to begin serious discussion regarding adoption of the NCSBN Nurse Compact Licensure

Defined “actively engaged” in nursing for individuals retired from paid nursing positions to include: LSBN service; participation on LSNA or other professional nursing organization committees; volunteer nursing activities at health fairs, schools, senior centers, or other community agencies; nursing consulting activities, either paid or volunteer; and other related activities as defined at the Board’s discretion

ADMINISTRATIVE ACTIONS:

Adopted and approved the LSBN investment policies

Approved Capital One Financial Advisors as LSBN Financial Intermediary

Approved proposed revisions to LAC46:XLVII§3341.A.1 and LAC 46:XLVII§3341.B.1

Approved the proposed FY2016 Annual Budget with revisions

Accepted and **Approved** LSBN Board Resolution for contract with Rutledge Law Firm, LLC

NURSE PRACTICE ACTIONS:

Approved board staff's request to remove nursing practice opinion 93.22 from LSBN website

Defined the role and scope of practice of the registered nurse in the administration of medication and monitoring of patients during the levels of procedural sedation (minimal, moderate, deep, and anesthesia). (Action on this motion was deferred and the staff was directed to return to the Board with a more completely researched declaratory statement on RN and APRN involvement in different levels of sedation based on best evidence

Recommended that it is not within the scope of practice for an acute care pediatric nurse practitioner to provide a full range of primary care services unless additional formal education, certification, and licensure is obtained as a primary care pediatric nurse practitioner and subsequent prescriptive authority documents are provided and approved by the Board. The practices of the acute care pediatric nurse practitioner must be in alignment with the role and population which includes the provision of:

1. services designed to meet the specialized needs of pediatric patients with **complex** acute, chronic, and critical health conditions, and
2. preventive services that are within the context of restorative and rehabilitative care related to the management of **complex** acute, chronic, and critical health conditions

Accepted the Board staff recommendations as presented without the option for National Certification

Approved and Adopted *two declaratory separate statements:*

- a. the revised Declaratory Statement for Registered Nurse First Assistants including the revised title “Declaratory Statement for Registered Nurses First Assisting in Surgery” and
- b. a new declaratory statement titled “Declaratory Statement for Advanced Practice Registered Nurses First Assisting in Surgery”;

and

Approved that the previous Declaratory Statement for Registered Nurse First Assistants currently on LSBN's website and last affirmed in 2003 be superseded by the proposed Declaratory Statement and be removed from the LSBN's website

Accepted the recommendation

Number 1: That it within the scope of practice for a Registered Nurse (in a life threatening situation) to insert an External Jugular Peripherally Inserted Central Catheter (EJ PICC). A radiographic verification of the placement is required prior to initiation of therapy via EJ PICCs. Said Registered Nurse must have successfully completed a minimum of eight (8) contact hours of formalized education and practice in the technique. The educational program shall be approved by the LSBN and/or ANCC. EJ PICCs are defined as catheters placed through the external jugular vein and advanced into position where the distal tip dwells in the lower one-third of the superior vena cava to the junction of the superior vena cava and the right atrium

Additionally, it is within the scope of practice for a Registered Nurse (in a life threatening situation) to insert an External Jugular Peripheral Intravenous Catheters (EJ PIVs). Said Registered Nurse must have successfully completed a minimum of eight (8) contact hours of formalized education and practice in the technique. EJ PIV catheters are defined as peripheral catheters placed in the external jugular vein

That the prior nursing opinions NPOP 94.15 and NPOP 09.04 dated September 1, 1994 and October 6, 2009 respectively, be removed from the Louisiana State Board of Nursing website

Deferred action regarding the petitioner's request for a rule change; and create and authorize an ad hoc committee consisting of select LSBN's Board members and LSBN staff to discuss and review matters related to the delegation of medication administration to unlicensed personnel with consideration to engage other stakeholders if needed

Directed Board staff to begin doing an investigation and provide that information to the Board so they can begin formulating a draft declaratory statement for the Board to react to RNs Work Hours and Safety Issues

COMPLIANCE/ CREDENTIALING ACTIONS:

Approved the proposed attached revisions to §3328 and direct staff to initiate rule making procedures

Approved the revision to LAC46:XLVII:4513.D.1.a., "Regarding the application for prescriptive authority, the applicant shall hold a current, unencumbered, unrestricted and valid registered nurse license in Louisiana with no pending disciplinary proceedings as stated in R.S. 37:921 except as provided in LAC 46: XLVII. 3328(A-H)."

Adopted the proposed changes to Section 3327.A.9, *Licensure by Endorsement Rules and Regulations, Requirements for Licensure by Endorsement*, to remove the words "or a third party vendor."

And to change the words "school records" to "official school transcripts."

Recessed the matter until June 11, 2014 Board Meeting for University of South Alabama

To issue the following ruling on the Findings of Facts submitted by the Louisiana State Board of Nursing prosecutor:

Accept Paragraphs 1 through 5

Paragraph 6 modified to delete the last sentence of the paragraph

Accept Paragraph 7 as modified with the deletion of the first two paragraphs

Change the second bullet of Paragraph 7 to read, “Board further testified that the National Organization of Nurse Practitioner Faculties criteria are utilized by accrediting bodies.” At the end of the sentence in this bullet, make the change, “Board staff testified that USA is not in compliance with NONPF criteria as follows:”

The third bullet to read, “Board staff testified and presented evidence that USA is not in compliance with NONPF criteria.”

That the Board finds that the use of an FNP as preceptor for 100% of the experience for these two students in the Acute Program is not in compliance with LAC 46:XL VII.4505 and is a violation of NONPF standards.”

Paragraph 8, redact the first two paragraphs

The first bullet is accepted with the deletion of the final sentence

The second bullet should read, “Board staff presented evidence and testimony that there are at least two graduates from USA’s dual track Program that did not have qualified acute care preceptors doing their clinical experience in the acute care portion of the track.”

Delete the third bullet

Delete Paragraph 9

Accept Paragraph 10 with the deletion of the first paragraph only

Delete Paragraph 11

Delete Paragraph 12

Accept Paragraphs 13 and 14

To issue the following ruling on the Findings of Facts submitted by the University of South Alabama:

Items 1 through 8 are accepted

Item 9 rejected as incomplete

Item 10 accepted as amended to read, “Of the 147 dual track students, between 2010 and 2013, only two students were identified as not having at least one preceptor with certification as an Adult Acute Care NP. As set forth in USACON’s response, the two students, Daniel Schnebelen and Kathryn Martin, while working in an Emergency Department and/or urgent care setting, experienced patient encounters sufficient to meet the adult-gerontology acute care competencies while under the guidance of an FNP preceptor with extensive acute care clinical experience for the entire clinical experience.” Accept the rest of Item 10 as submitted.

Item 11, 12, and 13 accept

Item 14 accept as amended to read, “All current USACON Louisiana students have a certified Adult Acute Care APRN as his/her preceptor. Existing students who have already completed hours under a different preceptor were required to obtain additional hours.”

Item 15 accept

Item 16 delete as irrelevant

Accept Item 17, 18, 19

Item 20, reject, allegation withdrawn

Issued the following Conclusions of Law:

Louisiana State Board of Nursing Agency-Wide Investigations and Disciplinary Actions for Calendar Year 2014

There were 2,293 individuals with complaints or alleged incidents that resulted in opened investigations and consideration for disciplinary action by LSBN for calendar year 2014. This represents an increase of less than 12% (11.58) when compared to 2013 (2,055). Of the 2,293 complaints or matters requiring further investigation by LSBN, 48.19% (1,105) were against RNs, 41.34% (948) were against student nurses, and 4.70% (108) were against Advanced Practice Registered Nurses (APRNs), Prescriptive Authority, and Temporary APRN combined (Table 1). The percentage of complaints against all RNs, based on the 62,356 RNs licensed to practice in Louisiana in 2014, is approximately 1.95% of the entire RN workforce, which includes Registered Nurses, Endorsement Applicants, all APRN and Prescriptive Authority. The two areas with the largest percentage increase in complaints was Registered Nurse Endorsement with 40% (+29) and APRN with a 28% increase (+23).

Source of Opened Investigations

As shown in Table 2, the source of 39.95% (916) of complaints to LSBN was student files (student applications or application process) and Self-Reports followed with 20.28% (465). LSBN staff initiated/identified and investigated 13.30% (305) complaints. Approximately 2.66% (61) of the total number of complaints received by LSBN were initiated by hospitals. Other sources include but are not limited to the Recovering Nurse Program, patient/family, other regulatory agencies, employers, nursing schools and lay people.

Types of Complaints or Potential Violations Resulting in Opened Investigations

Almost half, 45.01% (1,032), of the 2,293 complaints or potential violations received by LSBN in 2014 for further investigation were “criminal related”. Registered Nurses accounted for the largest number of criminal related complaints with 574 followed by students with 458. The second largest number of complaint type is the “inability to practice safely” with 26.34% (604) (Table 3). Students received 473 complaints under this type followed by Registered Nurses with 131. The next type of complaint with the most reports is “other” related issues with 13.48% (309). Other includes but is not limited to: continuing education and failure to comply with a Board Order. “Drug related” complaints constituted 2.18% (50), with 46 for Registered Nurses and only 4 for students.

Closed Investigations

LSBN Staff closed 2,270 investigations during 2014. There were 1,360 closed by Board Staff other than an Investigator. This number accounts for the student clinical, student exam and endorsement applications in which the applicant disclosed something that required documents to be sent in and reviewed prior to the application being approved. The Board Investigative staff completed 910 investigations with 394 requiring action (Tables 4 – 4e) and 516 investigations completed without

action. Investigations requiring action are transferred to the Hearings Department for resolution or scheduling for a Board Hearing.

2014 One Year Review of Louisiana State Board of Nursing Number of Investigations

The total number of investigations requiring disciplinary action increased by 20.5% (327 in 2013; 394 in 2014). Two types of complaints referred to the Hearings Department for disciplinary action showed significant change between 2013 and 2014. Complaints identified as “Other” requiring action increased by 1100% (2 in 2013; 24 in 2014). Investigations classified as other include patient abandonment, improper prescribing, and unsafe practice/substandard care. Furthermore, drug related complaint investigations requiring action increased by 88% (24 in 2013; 45 in 2014). Males made up 11.1% of the nurse work force in Louisiana for the year 2014; however, males made up 23% of the nurses/nursing student requiring disciplinary action during the same time frame. The average age of all individuals requiring disciplinary action was 38.7 years. Every year RNs must renew their license between October 1 and January 31 of the following year. As part of the Renewal Application, RNs must answer various questions deemed to be related to their ability to practice nursing safely. Therefore, when reviewing the renewal questions for months of January 2014 and October through December 2014, 311 Renewal Applications were noted to have answers that needed to be reviewed. After reviewing the answers, LSBN staff screened out 191 Renewal Applications, resulting in 120 Renewal Investigations being opened. The 191 applications screened out were either already addressed by the LSBN Staff or in the process of being addressed by the LSBN Staff. This screening on the front end saved time, cost, duplication of work on the back end, and improved staff morale.

HEARINGS DEPARTMENT

The Hearings Department processes all disciplinary actions. The Hearings Department receives completed investigations from the Investigations Department and will offer consent orders or proceed with filing charges for a Board Hearing. The Hearings Department manages all hearings. They also process consent orders, automatic suspensions and reinstatements offered by the RNP/Monitoring Department. The Hearings department also processes all requests for public records.

This year the Hearings Department moved from paper booklets to electronic booklets of evidence for Board Hearings.

There were 55 Hearings, the files of 451 nurses/student nurses were reviewed and a total of 479 disciplinary actions taken (Table 5).

RECOVERING NURSE PROGRAM/MONITORING

This division monitors Registered Nurses and student nurses in the Recovering Nurse Program (RNP) through confidential agreements and disciplinary orders. The RNP was developed to protect the consumers of health care in Louisiana while allowing a Registered Nurse recovering from chemical dependency and/or a medical, mental or physical condition to maintain licensure while being closely monitored by the Board through a structured agreement or order. Participants are allowed to join the program confidentially if they meet criteria outlined in L.R.S 3419 or through a consent order with probation if ineligible for confidential entry. After completion of treatment and clearance to return to work by the RNP staff and treatment team, the individual is allowed to practice in a highly supervised setting. Monitoring includes, but is not limited to, frequent random drug screenings, reports from employers, and participation in Aftercare and verified participation in support groups such as Alcoholics Anonymous.

In contrast to some independent alternative programs, the RNP is housed within Louisiana State Board of Nursing (LSBN), therefore any non-compliance or relapse, once confirmed, is acted upon swiftly often resulting in either immediate return for treatment or automatic suspension of the nursing license. This process offers greater protection to the citizens of Louisiana from potentially impaired practitioners.

The added structure and accountability of monitoring programs such as RNP have been linked to greater success in maintaining abstinence. Relapse rates for the general public following treatment for chemical dependency are 40%-60% (NIDA, 2009) whereas the relapse rate for RNP participants at LSBN in 2014 was 3.4% translating to a recovery rate of greater than 96%.

Relapse rate for 2014: The LSBN relapse rate was calculated by dividing the number of relapses by the number of all active participants in the program as of December 31.

The Monitoring Division monitors compliance with Board orders/agreements (excluding RNP participants). These (non-RNP) individuals may have stipulations which are often similar to RNP such as drug screening and work site monitoring, but they are not required to do treatment and have not been diagnosed with chemical dependency.

Additionally, the Monitoring Division processes disciplinary reinstatement requests for individuals previously disciplined by LSBN. The history of the individual is reviewed and stipulations for reinstatement are provided. Disciplinary reinstatements were 41 in 2014 out of 103 requests (Table 6). The Director investigates the often complex histories of previously disciplined individuals to determine eligibility for reinstatement. Often times this requires a period of monitoring prior to eligibility for reinstatement. This also may include re-entry into RNP. Some RNs choose not to pursue reinstatement after stipulations are mandated. Individuals with an extensive disciplinary history may be required to appear before a hearing with Board Members to determine suitability for reinstatement. The Monitoring Division investigates and prepares the cases for presentation at the Administrative Hearing.

Finally, the department drafts voluntary surrender agreements should an individual wish to surrender their license for a minimum of two (2) years rather than comply with the RNP agreement or board order. The department drafted twenty two (22) of these agreements in 2014.

Departmental Highlights in 2014

The RNP/Monitoring Department had several personnel changes in 2014 including one nurse was added as a case manager for the Recovering Nurse Program and monitoring. One of the Licensing Analysts resigned and the search for a replacement is currently ongoing.

Three treatment facilities were added to the list of Recognized Treatment Facilities. One treatment facility was removed from the LSBN Recognized Treatment Facility List after they lost their addictionologist.

There were only 11 relapses of active participants during the calendar year of 2014. This is the lowest rate in six years. In 2013, there were 29 relapses of active participants. We think this is mostly attributable to enforcing strict criteria for treatment centers so that nurses get a good foundation in treatment.

The RNP/Monitoring Director serves as Member-at-Large on the Board of Directors for the National Organization of Alternative Programs. The Director also serves on the Standards Development Committee for the National Council of State Boards of Nursing.

LICENSURE

Approval to Enroll in Clinical Nursing Courses

There were 3,122 applications to enroll in clinical nursing courses during the calendar year of 2014 as compared to 3,020 in 2013 which represents a 3.38% increase. Of these, 930 were placed under investigations compared to 810 in 2013, a 14.81% increase. A total of 2,130 student applications were approved for clinical enrollment, approval was delayed for 42 students, and 33 were denied.

Completion of Louisiana Undergraduate Nursing Program

There were 2,081 graduates from 28 undergraduate nursing programs in Louisiana. Of this number, 26 (1.25%) were Diploma graduates, 770 (37%) were Associate Degree graduates, and 1,285 (61.75%) were Baccalaureate Degree graduates.

Licensure by Examination

Beginning January 1 through December 31, 2014 the NCLEX-RN examination was administered to 2,290 candidates using computerized adaptive testing (CAT). These candidates included first time takers, repeat takers, and foreign graduates. Of this number, 1,668 individuals were licensed to practice as registered nurses as initial licensure by examination.

Two thousand thirty-one (2,031) Louisiana graduates sat for the NCLEX-RN exam for the first time. Of this number, 1,744 passed the exam. First time candidates from nursing programs in Louisiana achieved a pass rate of 85.87% for the 2014 calendar year. This is above the national average of 81.79%. Performance of first time candidates of nursing education programs in Louisiana can be found in Appendix A.

Licensure by Examination Advanced Practice Registered Nurses

LSBN authorizes the practice of advanced practice registered nurses (APRNs) by examination in four categories, Certified Registered Nurse Anesthetist (CRNA), Certified Nurse Midwife (CNM), Clinical Nurse Specialist (CNS), and Nurse Practitioner (NP).

A total of 436 APRN licensure by examination applications were received during the year 2014. Of the applications received, a total 426 individuals were licensed to practice as APRNs: 56 as CRNAs, 6 as CNMs, 4 as CNSs, and 360 NPs. The remaining APRN by examination applications were not processed through licensure, because their application was incomplete and/or expired.

Licensure Renewals Registered Nurses/Advanced Practice Registered Nurses

A total of 58,501 RNs and 4,699 APRNs successfully renewed their licenses to practice nursing in Louisiana by the January 31, 2015 due date.

A total 3,006 individuals relinquished the right to practice nursing in Louisiana, as follows: 2,219 RNs/APRNs failed to renew their license; 572 RNs and 35 APRNs requested inactive status; and 176 RNs and 4 APRNs requested retired status.

**Licensure by Endorsement
Registered Nurses**

As reflected in Table 7, a total of 2,154 RN endorsement applications to practice registered nursing in Louisiana were received during the year 2014, representing a 48% increase over the last 5 years and a 27% increase since 2013. Of the total received, 2,135 were received from United States (US) educated RNs and 19 were received from foreign educated RNs.

Of the endorsement applications received, a total of 1,864 individuals were licensed to practice as a RN, as follows: 1,855 US educated RNs and 9 foreign educated RNs, representing a 48% increase since 2010 and a 51% increase since 2013. The remaining endorsement applications were not processed through licensure due to one of the following reasons: their application was incomplete and/or expired, or the RN completed a temporary nursing assignment and did not desire full licensure.

2010	1,441	28	1,469	1,248	14	1,262

**Licensure by Endorsement
Advanced Practice Registered Nurses**

A total of 112 endorsement applications to practice as an APRN in Louisiana were received during the year 2014. All applications were received from United States (US) educated APRNs.

Of those endorsement applications received, a total 97 APRN applications were completed through licensure, as follows: 27 CRNAs, 3 CNM, 4 CNS, and 63 NPs. The remaining applications received in 2014 were not processed through licensure either because their application was incomplete and/or expired, or the APRN completed a temporary nursing assignment and did not desire full licensure.

**Licensure by Reinstatement
Registered Nurses/Advanced Practice Registered Nurses**

A total of 790 individuals reinstated their privilege to practice nursing in Louisiana during the year 2014, 752 RNs and 38 APRNs.

Temporary Permits Issued Registered Nurses

The total number of RN temporary permits issued for the year 2014 was 520. No disaster permits were issued during the year 2014. Permits are issued to allow the RN holding a valid and unencumbered RN license in another U.S. state, to work as a RN in Louisiana until all documents are received in the LSBN office and full licensure can be issued. Additionally, permits may be issued to RNs holding a valid and unencumbered RN license in another US state to work on a temporary basis within their respective scope of practice in Louisiana during special events or times of disaster as declared by the Governor of Louisiana.

Temporary Permits Issued Advanced Practice Registered Nurses

The total number of permits issued to APRN applicants for the year 2014 was 35. No disaster permits were issued to APRNs during the year 2014. Permits were issued to allow the APRN applicant to provide limited services while obtaining unconditional national certification or to allow the APRN applicant to obtain required clinical hours to demonstrate current competency.

Verification of Credentials to Other States Registered Nurses/Advanced Practice Registered Nurses

During 2014, a total of 2,615 RNs utilized the National Council of State Boards of Nursing (NCSBN) verification service (NurSys.com) to request their Louisiana RN credentials be verified to another state board of nursing. Table 8 reflects the number of individuals requesting licensure verifications per year for the previous 5 year period.

Table 8. License Verification Out of Louisiana (2010-2014)

Report Year	Number of Verifications
2014 NurSys Processed	2,615
2013 NurSys Processed	2,611
2012 NurSys Processed	2,487
2011 NurSys Processed	2,233
2010 NurSys processed	2,253

*Note: Due to a variety of factors, it cannot be assumed that there is a relationship between request for verification of credentials and numbers of RNs leaving the state.

Prescriptive Authority Advanced Practice Registered Nurses Only

Prior to delivering health care services in the state of Louisiana, an APRN who engages in diagnosis and management must apply for and receive approval from LSBN for prescriptive authority privileges. Said prescriptive authority privileges must be in collaboration with one or more physicians or dentists. Table 9 reflects the total number of APRNs with prescriptive and distributing authority in compliance with the Board's rules as of January 31, 2015. The total, 2,972, represents a 35% decrease from January 31, 2014.

**2014 ANNUAL REPORT ON
2015 LICENSE RENEWAL - LICENSEES WITH DEFAULTED STUDENT LOANS**

In accordance with Louisiana Revised Statute 38:2951, the Louisiana State Board of Nursing did not allow 90 RNs who were deemed by Navient Post Claim Assistance, on behalf of the Louisiana Student Financial Assistance Commission (LSFAC), to be in default of a student loan and 2015 licensure renewal was withheld. This represents an increase of approximately 8.5% from the 83 nurses that were in loan default the previous year.

Of the 90 total nurses in default during 2014, approximately 34.5%, or 31 nurses, had been in loan default previously as outlined below:

- Default 7 times = 1 nurse
- Default 5 times = 1 nurse
- Default 4 times = 3 nurses
- Default 3 times = 9 nurses
- Default 2 times = 17 nurses

The remaining 59 nurses were in loan default for the first time. This represents approximately 65.5% of the total 90 nurses for this year.

Letters and emails were mailed to the RNs on September 26, 2014 advising them that their ability to renew their 2015 RN license would be placed on hold until the Louisiana State Board of Nursing received authorization from Navient that the loan was removed from default status.

As of February 1, 2015, 82 of the 90 nurses had been removed from default status by Navient and permitted to seek licensure renewal by January 31, 2015. Of the remaining 8, 3 contacted the Board to advise they were living/working out-of-state and choose to go inactive, and the license for the remaining 5 nurses was changed to delinquent status and unable to practice as a registered nurse in Louisiana.

**2014 ANNUAL REPORT ON
CONTINUING EDUCATION AUDIT FOR 2014 LICENSE RENEWALS**

In accordance with LAC 46:XLVII.3335.I.2, the Louisiana State Board of Nursing performed an audit on the nursing continuing education (CE) requirements for 2014 license renewal on 1,431 RNs.

A random selection of RNs renewing their license during the 2014 licensure renewal process was conducted which yielded a total of 1,431 RNs (approximately 2.5% of the total 56,968 RNs renewing their license by January 31, 2014). One thousand two hundred ten (1,210) were compliant and had met CE rule requirements. The remaining 221 RNs were deemed non-compliant and action was taken as outlined below:

- Two hundred six (206) RNs obtained additional CE, produced documentation to support completion, and were issued Informal Reprimands for first time non-compliance;

- Three (3) RNs changed their status to inactive as they were no longer working in nursing or had moved out of state;
- Eleven (11) RN licenses were inactivated for failure to respond and provide documentation to board staff demonstrating compliance;
- One (1) RN was suspended for other (non-audit) cause.

In accordance with LAC 46:XLVII.4513.D.5, the Louisiana State Board of Nursing performed an audit on the continuing competency for prescriptive authority for 2014 license renewal on 73 APRNs. Letters were mailed to the APRNs advising them of their selection to participate in the random audit of additional 6 hours of pharmacology CE needed for their prescriptive authority privileges. Of the 73 APRNs selected, 65 were compliant. The remaining 8 APRNs obtained additional CE, produced documentation to support completion, and were issued Informal Reprimands for first time non-compliance.

LOUISIANA STATE BOARD OF NURSING - CENTER FOR NURSING 2014 INITIATIVES

Nursing Education Capacity and Supply Report

The Nursing Education Capacity and Supply Report (a subset of the LSBN Annual Report) is used to inform stakeholders about Louisiana's ability to educate an adequate number of registered nurses (RNs) and advance practice registered nurses (APRNs), as well as the supply of RNs and APRNs in the state. The Nursing Education Capacity and Supply Report is compiled each year and is based on data collected in the preceding year. The report is available on line in its entirety at the following website: <http://lcn.lsbn.state.la.us/NursingWorkforce.aspx>.

Louisiana's Multi-Regional Statewide Nursing Workforce Forecasting Models Roadshow

The Center for Nursing conducted three meetings across the state in June 2014 highlighting findings from Louisiana's Multi-Regional Statewide Nursing Workforce Model and how the model can be used as a simulator in strategic planning and nursing workforce policy development. Dr. Craig Moore, the Economist that built the Model, served as presenter and facilitator along with Dr. Bienemy. The meetings were held in Baton Rouge, Lake Charles, and Shreveport. The meetings allowed the Center for Nursing to gather information from a variety of stakeholders (nursing and non-nursing) on nursing workforce issues across the state. Many of the issues or concerns were similar among the various regions in the state and many were unique to each region. This information was very helpful when evaluating the assumptions used in the Forecasting Model for each region. Attendees were very interested in staying connected with the Center for Nursing and having the opportunity to use the Nursing Workforce Forecasting Model to create various simulations.

Louisiana's Multi-Regional Statewide Nursing Workforce Forecasting Model 2014 Update

The Louisiana Multi-Regional Statewide Nursing Workforce Forecasting Model was updated with the 2014 licensure renewal data from both LSBN and the Louisiana State Board of Practical Nurse Examiners (LSBPNE). This was the first year LSBPNE conducted online licensure renewal which allowed us to capture location of employment data for the LPN workforce which enhances the accuracy of the regional forecasts for LPNs. Key findings include:

- A statewide shortage will exist through 2020 for RNs, APRNs, and LPNs based on current conditions.
- There will be large regional differences in shortages and surpluses across Louisiana for RNs, APRNs, and LPNs through 2020.
- In 2014 a supply of 41,393 full-time equivalent (FTE) RNs compared to a demand of 45,982 FTE RNs was projected to result in an unfilled gap of 4,589 (FTE) RNs statewide that varies significantly by region.
- The demand for APRNs (FTEs) in 2014 is estimated at 5,558, with a supply of 4,186, leaving a gap of 1,372 FTEs. The ultimate size of this gap over the next decade will depend on the changing patterns of APRN utilization and healthcare policy as we go forward.
- There will be a shortage of LPNs through 2020 in the following regional labor market areas (RLMAs): Baton Rouge, Houma, Lake Charles, New Orleans, and Shreveport.

2014 Nurse Employer Survey / Nurse Demand Project

Louisiana's first Nurse Employer Survey was conducted in 2010. Information gained from the Nurse Employer Survey included skill mix and staff mix, staff sizes, vacancies and vacancy rates, replacement growth, separations, and turnover rates. The types of facilities surveyed included hospitals, psychiatric hospitals, long term care facilities, home care agencies, hospices, and ambulatory care facilities. The second nurse employer survey was launched in September, 2014. Over thirteen hundred (1,335) health care facilities across Louisiana were surveyed and 554 surveys were returned yielding an overall 41% response rate for the 2014 Nurse Employer Survey. The final report will be available in June 2015.

Newly Licensed Registered Nurses Survey

Louisiana's second New RN (Graduate) Survey was launched in September 2013 in an effort to obtain objective data about the actual and potential employment challenges experienced by new RN graduates in Louisiana. The 2013 Newly Licensed Registered Nurse (RN) Survey was a follow-up to the 2011 New Graduate Survey that was conducted in 2011. By conducting the survey every two years, trends related to hiring practices experienced by newly licensed RNs can be monitored as changes occur in the state's health care system, economy, and nursing workforce. This information can be used to inform policy makers, schools of nursing, prospective nursing students, and other interested stakeholders. The name of the survey was changed to better identify the target population – graduates from pre-RN licensure nursing programs that had received their initial RN license. There were items added to the 2013 survey to determine the new RNs interest in participation in a nurse residency program, the point at which newly licensed RNs began to look for employment, whether new RNs had degrees and/or certificates in fields outside of nursing, and starting salaries for new RNs. The final report entitled *Finding Employment as a Newly Licensed Registered Nurse in Louisiana* was approved by the Board at the April 2014 Board Meeting and can be found at the following link: <http://lcn.lsbn.state.la.us/NursingWorkforce.aspx>.

The National Forum of State Nursing Workforce Centers

The Louisiana Center for Nursing is a subscriber member of The National Forum for State Nursing Workforce Centers. The Forum is responsible for developing the Nursing Education Capacity, Nursing Supply, and Nursing Demand Minimum Data Set which is used by many organizations across the country that collect data on the nursing workforce. The Director of the Center for Nursing serves as a member of the Forum's Research Committee and an alternate on the Interagency Collaborative on Nursing Statistics (ICONS) which promotes the generation and utilization of data, information, and research about nurses, nursing education, and the nursing workforce.

Grant Writing

Health Works Commission Request for Proposals – The Center for Nursing prepared a proposal that was submitted to the Health Works Commission on August 1, 2014. The focus of the proposal was the development of Regional Nursing Workforce Profiles which built on the work that was being done with the forecasting model and the nurse employer surveys. The premise of the proposal was based on the need for information about Louisiana's nursing workforce at the regional level. The amount requested in the proposal was \$95,036.79. The proposal, although thought to be worthy

of funding, was not funded due to the vast number of proposals submitted and limited funds available to the Health Works Commission.

Louisiana Action Coalition (LAC) – Future of Nursing Campaign for Action

The Louisiana State Board of Nursing – Center for Nursing has served as the co-lead for the Louisiana Action Coalition since its inception in February 2011. The following are highlights of LAC’s activities in 2014:

- The Future of Nursing Campaign for Action (CCNA/AARP) Leadership Meeting “Leadership in Action” was held in New Orleans on January 13th and 14th. This was the last of three face-to-face invitational meetings offering targeted technical assistance and opportunities to work together to develop a national strategy to get more nurse leaders serving on hospital/health system, state, and federal boards. Dr. Fred Cerise, Representative Tom Willmott, and OLOLRMC COO, Terri Sterling served as members of the expert panel at the Leadership Meeting to discuss leadership in arenas outside of nursing.
- LAC submitted two reports on diversity to the Future of Nursing Campaign for Action:
 - Diversity: A Core Value Within the Louisiana Action Coalition
 - Building a Diverse APRN Workforce in Louisiana
- LAC Strategic Planning Meeting (August 22, 2014) Dr. Alexia Green, Professor and Dean Emeritus at Texas Tech University Health Sciences Center School of Nursing, and former Co-Lead for the Texas Team, served as the facilitator for LAC’s second strategic planning meeting. Dr. Green has been hired as a consultant by the National Campaign for Action to work with state action coalitions in the areas of strategic planning, fundraising, and leadership. A major outcome of the strategic planning meeting was that the current Core Leadership Team would serve as the Executive Committee for LAC. Each member of the CLT was asked to complete the LAC Commitment Form which addresses the understanding that it is the organization, not the individual that is a member of LAC. The individual serving as the representative for the organization must have the full support of their organization in implementing the Institute of Medicine recommendations on the Future of Nursing. Organizations must include within their strategic plans how they plan to implement the IOM recommendations (the ones that fit best with their organizations) and it is the responsibility of the organization’s representative to give the Executive Committee (CLT) updates on their progress (this poses a new way of thinking for LAC).
- LAC Funding Opportunities
 - A collaborative proposal entitled *Tuition Reimbursement for Racial and Ethnic Minority RNs pursuing a degree as a Primary Care Family Nurse Practitioner (PCFNP)* developed by LAC, LSUHSC- School of Nursing, and SUBR-SON was submitted to the Health Works Commission in August and was funded in the amount of \$30,000.
 - In September 2014, LAC prepared a proposal that was submitted on October 1, 2014 for the second round of State Implementation Program (SIP 3) grants funded by the Robert Wood Johnson Foundation (RWJF). RWJF will be providing a 2:1 match to action coalition states that can: 1) find a minimum of \$50,000 or a maximum of \$75,000 in matching funds, and 2) develop a strong proposal which addresses implementation of up to two of the IOM recommendations. A total of \$56,000 was obtained in matching funds for the LAC SIP 3 grant proposal.

- Five Forums sponsored by LAC took place across the state in Baton Rouge, Alexandria, Lafayette, Lake Charles, and Shreveport to inform the nursing community about the IOM Report on the Future of Nursing: *Leading Change, Advancing Health* and to demonstrate how the Louisiana Action Coalition is working with stakeholders across the state to implement the recommendations from the Future of Nursing Report.

NURSING EDUCATION CAPACITY IN LOUISIANA 2014

It is the charge of the Louisiana State Board of Nursing (LSBN) to closely monitor all nursing programs in the state that prepare nursing students for initial licensure as a registered nurse (RN), as well as those graduate programs that prepare RNs as advanced practice registered nurses (APRNs). It is the responsibility of LSBN to ensure that these programs are preparing safe and effective practitioners to care for the citizens of Louisiana. Deans and Directors of Pre-RN Licensure programs in Louisiana must submit an annual report to LSBN in the fall of each year to demonstrate ongoing compliance with all rules and regulations relative to nursing education. Information such as the number of applicants accepted into the programs each year, the number of students enrolled in clinical nursing courses, the number of graduates, and the qualifications of faculty teaching in the programs is used to determine RN education capacity. An analysis of the data obtained from the 2013-2014 annual reports submitted by undergraduate and graduate nursing programs in Louisiana was used to develop the 2014 Nursing Education Capacity Report.

Pre-RN Licensure Programs in Louisiana

LSBN approved twenty-eight (28) pre-RN licensure programs during the 2013-2014 report year (Table 10). One (1) diploma program, thirteen (13) associate degree (AD) programs, and fourteen (14) baccalaureate in nursing (BSN) programs that prepare students to become candidates for initial RN licensure in Louisiana (see Appendix A for a List of LSBN Approved Nursing Education Programs). Our Lady of the Lake College phased out its AD program and graduated the last class in 2014. William Carey phased out its BSN program in Louisiana and graduated its last class in 2014.

Applicants and Admissions to Pre-RN Licensure Programs in Louisiana

The pool of qualified applicants applying to pre-RN licensure programs in Louisiana in 2013-2014 decreased by 7% over the last year compared to a 3% increase in 2012-2013 (Table 11). Over the last five years, there has been an overall 8% decrease in the number of students applying for admission to Louisiana’s pre-RN licensure programs. In the current report year, 68% (2,956) of the 4,351 qualified applicants were admitted to Louisiana’s pre-RN licensure programs, in comparison to 62% (2,904) that were admitted in 2012-2013. Approximately 32% (1,395) of qualified applicants were denied admission to Louisiana’s pre-RN licensure programs in 2013-2014 compared to 38% (1,757) in 2012-2013 (see Appendix B2 for a summary report of applicants and admissions to pre-RN Licensure programs and Appendix B3 for a breakdown of applicants and admissions by programs).

Over the past five years there has been a 13% decrease in the number of qualified students admitted to Louisiana’s pre-RN licensure programs.

Applicants and Admissions to Pre-RN Licensure Programs in Louisiana by Program Type for the 2013-2014 Annual Report Year

As seen in Table 12a, 52% (2,262) of the qualified applicants applied to BSN programs when compared to 46% (2,011) that applied to AD programs. The number of qualified students applying to BSN programs decreased by 10% (2,506 in 2013), while the number of qualified students applying to AD programs decreased by 4% (2,085 in 2013) when compared to the previous year. Seventy-nine percent (79%) of the qualified applicants applying to BSN programs, 57% of those applying to AD programs, and 51% of those applying to the state’s only Diploma program were admitted.

Sixty percent (60%) of the 2,956 qualified applicants admitted to pre-RN licensure programs in Louisiana were admitted to BSN programs, 39% to AD programs, and 1% to diploma programs.

No. of Qualified Applicants Not Admitted	38	872	485
% of Qualified Applicants Not Admitted	49%	43%	21%

Although in the current report year there was a 9% increase in the number of students admitted to AD programs, over the last five years there has been an overall 27% decrease in the number of students admitted to AD programs. The number of students admitted to BSN programs decreased by 2% since the previous report year. There was no change in the number admitted to the only diploma program in Louisiana (Table 12b).

Reasons Why Qualified Applicants are not Admitted to Pre-RN Licensure Programs (2013-2014 Annual Report Year)

A lack of budgeted faculty positions remains the number one reason identified by Louisiana’s pre-RN licensure programs as to why qualified applicants were not admitted during the 2013-2014 report year (Table 13). Faculty salaries that are not competitive was second, followed by the lack of available qualified faculty coming in third. In a report recently released by Georgetown University Center on Education and the Workforce McCourt School of Public Policy (2015), lack of faculty, lack of clinical placement sites, and lack of classroom space were identified as the major hurdles to training more nurses nationwide.

Enrollment in Pre-RN Licensure Programs in Louisiana

In the current report year, 12,575 students enrolled in post-secondary education settings in Louisiana declared nursing as their major (Table 14), which reflects a 10% decrease from the previous report year (14,050 in 2013). However, there was a 1% increase in the number of students enrolled in clinical nursing courses in 2013-2014 when compared to a 7% decrease in the previous report year (see Appendix B2 for a summary report on enrollments in pre-RN Licensure programs). The American Association of Colleges of Nursing (AACN) released preliminary survey data showing that enrollment in entry-level baccalaureate nursing programs increased by 2.6% from 2012 to 2013, which marks the lowest enrollment increase in professional registered nurse (RN) programs over the past five years.

Table 14. Enrollment in Pre-RN Licensure Programs in LA (2010-2014)

Report Year	Enrollment (All Nursing Majors)	Enrollment in Clinical Nursing Courses
2014	12,575	5,836

In 2014, there were 5,836 students enrolled in Louisiana’s pre-RN licensure programs which reflects a 1% increase in number when compared to 2013 (Table 15). Over two-thirds (68%) of the students were enrolled in Baccalaureate programs, 31% in Associate degree programs, and 1% in the state’s only Diploma program. Since 2010, there has been a 12% increase in the number of students enrolled in Baccalaureate programs, a 29% decrease in the number enrolled in Associate degree programs, and a 17% decrease in those enrolled in the state’s only Diploma program.

Gender of Students Enrolled in Pre-RN Licensure Programs in Louisiana

Females represented 86% of students enrolled in pre-RN licensure programs in Louisiana in 2014, while males represented 14%. Although there was an overall 16% decrease in the number of male students enrolled in Louisiana’s pre-RN licensure programs between 2010 and 2014, there was a 2% increase in male enrollment in 2014 when compared to the previous report year (Table 16).

Racial Distribution of Students Enrolled in Pre-RN Licensure Programs in Louisiana

In 2014, 65% of the students enrolled in pre-RN licensure programs in Louisiana were White, 26% were Black, 3% Hispanic, 3% Asian, and 4% Other (Table 17). There was an 18% increase in the number of Hispanics enrolled and a 26% increase in the number of Asians enrolled when compared to the previous year. Of the 227 students that reported their ethnicity as *Other*, 38 were self-reported as American Indian/Alaska Natives which represents a 36% increase when compared to 2013 (28 in 2013).

Age of Students enrolled in Pre-RN Licensure Programs in Louisiana

Forty-six percent (46%) of the students enrolled in pre-RN licensure programs in Louisiana in the current report year were between 21 and 25 years of age. The youngest group of students (17-20 years old) represented 17% of the student population, and the 26 to 40 year age group was represented by 31% of the student population (Table 18).

Prior Education Status of Students Enrolled in Pre-RN Licensure Programs in Louisiana (2010-2014)

Between 2013 and 2014 there was a 0.7% increase in the number of LPNs enrolled in clinical nursing courses in Pre-RN licensure programs in Louisiana. In contrast, there has been an overall 13% decrease in the number of LPN students enrolled in clinical courses in pre-RN licensure programs over the last five years. Ten percent (596) of the students that were enrolled in clinical nursing courses possessed a degree in another field and approximately 2% possessed prior education in a health field (see Table 19).

Graduates from Pre-RN Licensure Programs in Louisiana

When compared to the previous report year, the number of graduates from Louisiana’s pre-RN licensure programs decreased by 8%. Sixty-two percent (1,285) of the 2,081 graduates in the 2013-2014 report year were from baccalaureate programs, 37% (770) were from associate degree programs, and 1% (26) were from the one diploma program in the state (Table 20). There was a 3% increase in the number of graduates from BSN programs; compared to a 23% decrease in the number from AD programs, and a 10% decrease from the diploma program (see Appendix B2 for a summary report of RN graduates and Appendix B8 for the number of RN Graduates per program for 2014).

Non-Traditional Graduates from Louisiana’s Pre-RN Licensure Programs

Over the past five years, there has been a 24% decrease in number of licensed practical nurses graduating from Louisiana’s AD programs, and an 18% decrease graduating from Louisiana’s BSN programs (Table 21). There was a 90% increase in the number of students graduating from accelerated BSN programs in Louisiana over the last year.

Pre-RN Licensure Students in Louisiana Performance on the NCLEX-RN

In 2014 there were a total of 2,031 RN candidates (2,186 in 2013) sitting for the National Council Licensure Examination for Registered Nurses (NCLEX-RN) exam with 1,744 (85.87%) passing on the first take (Table 22). The overall national passage rate on the NCLEX-RN for 2014 was 81.79% compared to 83.04% in 2013 (see Table 23 and Appendix B1 for NCLEX-RN results by program).

Grand Total	2,031	1,744	85.87%

Note: The National Average Passage Rate on the NCLEX-RN Examination was 81.79% for 2014.

The passage rate on the NCLEX-RN for graduates from Louisiana’s pre-RN licensure programs continues to exceed that of the nation (Table 23) in spite of the higher passing standard and the new test plan implemented in April 2013 by the National Council of State Boards of Nursing (NCSBN). There was a 7% decrease in the number of students sitting for the exam compared to 2013 (2,186). There was also a 7% decrease in the number of Diploma graduates (28 in 2013), and a 20% decrease in the number of AD graduates (942 in 2013) sitting for the NCLEX-RN exam. In contrast, there was a 3% increase in the number of BSN graduates (1,216 in 2013) sitting for the exam when compared to the previous year.

Faculty Teaching in Pre-RN Licensure Programs in Louisiana

To gauge the current level of demand for nurse faculty, data was obtained from the 2013-2014 Annual Reports submitted to LSBN by the Deans and Directors of pre-RN licensure programs and APRN programs in the state of Louisiana. Deans and Directors were asked to report the number of filled and vacant faculty positions in their pre-RN licensure programs as of October 15, 2014. These numbers are depicted by program type and full vs. part-time positions in Table 24. The number of full and part-time faculty positions fluctuate from year to year depending on the number of budgeted faculty positions, the availability of qualified faculty, and the school's need to fill full-time positions with part-time faculty.

There were a total of 484 budgeted full-time nurse faculty positions reported by Louisiana's pre-RN licensure programs in 2014 compared to 511 in 2013 which reflects a 5% decrease from the previous year. There was also a 4% decrease in the number of part-time faculty positions filled in 2014 (215) when compared to 2013 (225). Forty-seven (47) faculty positions were funded from grants, capitation funds, additional appointments, and/or other funding sources compared to 35 positions in 2013, which represents a 34% increase in the number of faculty positions funded by other sources.

Note: Faculty funded from other sources was not included when reporting the total number of budgeted faculty.

Vacant Nurse Faculty Positions

There were a total of 26 vacant nurse faculty positions reported by Deans and Directors in the current report year, compared to 27 in the previous report year (Table 25). Fourteen (14) vacant nurse faculty positions were reported by Louisiana's BSN programs and 12 by AD programs. The number of vacant full-time faculty positions will often determine the number of part-time positions needed. Many schools do not budget positions for part-time instructors, instead they are hired as needed.

New Nurse Faculty Appointments, Exceptions and use of Preceptors

A total of 112 new faculty appointments were reported by pre-RN licensure programs during the 2013-2014 report year compared to 84 in the previous year (Table 26). New appointments include part-time adjunct faculty that are hired for one or more semesters based on available funding. Seventy-one percent (71%) of the new faculty appointments were for BSN programs and 29% were for AD programs. There were no new faculty appointments for the diploma program.

Faculty exceptions are granted to pre-RN licensure programs upon approval of the Board for a pre-approved time period. According to LSBN Rules and Regulations, Title 46, Part XLVII, Chapter 35, No. 3515 B.8, the number of faculty exceptions shall not exceed 20 percent of the number of full-time nurse faculty employed (not FTE) in the program. The need for faculty exceptions is indicative of the lack of available qualified nurse faculty. The number of faculty exceptions requested by pre-RN licensure programs went from 46 in 2013 to 51 in 2014 which represents an 11% increase in the number of faculty exceptions utilized by pre-RN licensure programs in 2014.

Preceptors are valuable resources in nursing education. Preceptors are used only during the last two academic semesters of a baccalaureate program and during one of the last two semesters of a diploma or associate degree program (LSBN Rules and Regulations, Title 46, XLVII, Chapter 35, No.3541B). In preceptor-student relationships, nursing faculty retain the responsibility for selecting, guiding, and evaluating student learning experiences with input from the preceptor. In the 2013-2014 report year there were a total of 1,028 preceptors used by pre-RN licensure programs, compared to 1,153 in 2013 which reflects a 11% decrease in the number of preceptors used by pre-RN licensure programs over the last year.

Nursing Faculty Attrition

Faculty attrition due to faculty leave, resignation, retirement, death or termination contributes to an ongoing demand for nurse faculty (Table 27). In 2013-2014 a total of 9 faculty went on leave (10 in 2012-2013). There were a total of 62 resignations in 2013-2014, compared to 47 in 2012-2013 which represents a 32% increase; 15 retirements (20 in 2012-2013); 36 terminations (15 in 2012-2013); and no deaths (one in 2012-2013).

Educational Preparation of Nurse Faculty

The Institute of Medicine Report on the Future of Nursing: *Leading Change, Advancing Health* recommends that the proportion of nurses with a BSN be increased to 80% and the number of nurses with a doctorate be doubled by 2020 (IOM Report, 2011). According to the Carnegie Study (Benner, Sutphen, Leonard and Day, 2010), in order to meet the projected shortages for registered nurses, nursing education programs must increase their capacity by approximately 90%. The educational preparation of nursing faculty is essential. In order to properly educate the next generation of RNs, nurse faculty must be prepared to teach nursing students how to care for clients with complex diagnoses and treatment plans; be familiar with essential principles of teaching and learning; be able to appropriately use the newest teaching learning healthcare technology; and have the ability to engage nursing students in the teaching-learning process.

The Southern Association of Colleges and Schools (SACS), require that at least 25% of nursing course hours in a Baccalaureate Nursing program be taught by faculty members holding the terminal degree (2012). In 2013-2014 approximately 18% (151) of the faculty teaching in pre-RN licensure programs were prepared at the doctoral level, 76% (647) were Masters prepared, and 6% (51) reported that their highest degree in nursing was a baccalaureate degree (Table 28). This represents a 3% increase in the number of faculty prepared at the doctoral level (146 in 2012-2013), a 6% decrease in the number prepared at the Masters' level (687 in 2012-2013), and an 11% increase in the number of faculty prepared at the BSN level (46 in 2012-2013) when compared to the previous year.

There was an 11% increase in the number of faculty holding a DNP and a 10% increase in the number holding a PhD in Nursing teaching in pre-RN licensure programs in Louisiana in 2013-2014, however there was a 6% decrease in the number of faculty holding a DNS and no change in the number holding a doctorate in a related field (Table 29). It is interesting to note that there has been a 63% increase in the number of faculty teaching in Louisiana's pre-RN licensure programs holding a DNP and a 47% increase in the number with a PhD in Nursing over the last three years.

Board of Regents Nursing Faculty Stipends

According to the 2013-2014 annual reports from pre-RN licensure programs, 89 nurse faculty employed by pre-RN licensure programs in Louisiana were recipients of the Board of Regents (BOR) Nursing Faculty Stipends which represents a 21% decrease in number when compared to the previous year (Table 30). One faculty member pursuing a Master’s degree was funded by the BOR Nurse Faculty Stipend program in 2013-2014.

Nurse Faculty Salaries

Noncompetitive salaries for nursing faculty has been consistently cited as one of the top four reasons why hundreds of qualified students are not admitted to Louisiana’s pre-RN licensure programs each year. Noncompetitive salaries leads to an inadequate number of filled nurse faculty positions which is cited as a major reason for denying admission to qualified students (National Advisory Council on Nurse Education and Practice, 2010). According to the American Association of Colleges of Nursing (AACN, 2014), the average salary of an NP, across settings and specialties, is \$94,050 compared to \$80,690 for a Master’s prepared faculty. The higher compensation in clinical and private-sector settings is luring current and potential nurse educators away from teaching (AACN, 2014). Joynt and Kimball (2008), authors of a white paper entitled *Blowing Open the Bottleneck: Designing New Approaches to Increase Nurse Education Capacity* stated “While nursing faculty compensation adjustments alone will not solve the nursing education capacity problem, the value of the educators must be acknowledged and rewarded in order to move forward” (p.12).

The Deans and Directors of pre-RN licensure programs in Louisiana reported the average salaries of nursing faculty according to the rankings of instructor, assistant professor, associate professor, and professor. The Southern Regional Education Board (SREB) mean salary for full-time instructional faculty teaching in four year colleges or universities is \$105,376 for Professors, \$74,914 for Associate Professors, \$63,694 for Assistant Professors and \$45,322 for Instructors (2013). The average salaries reported by Schools of Nursing in 2013-2014 (Table 31) indicate that although there was an increase in the mean salaries for instructors, there was a decrease in the mean salaries

for assistant professors, associate professors, and professors when compared to 2012-2013. Mean salaries for all levels of nursing faculty in Louisiana, except for instructors, remain below the SREB mean for four year public colleges.

Nurse Faculty in Louisiana Demographics

Age

When planning for a projected nursing shortage, issues related to an aging nurse faculty must be addressed. The literature contends that younger nurses tend to choose practice roles over faculty roles (Joynt, and Kimball, 2008). In 2013-2014 over half (55%) of the nurse faculty in Louisiana were 51 and older (Table 32). The average age of nurse faculty at retirement is approximately 62.5 according to a report published by AACN (2014). A wave of retirements is expected within the next 10 years among faculty teaching in nursing programs across the country (AACN, 2014). One hundred and thirty-six (18%) faculty currently teaching in Louisiana’s pre-RN licensure programs are 61+ years.

Graduate Nursing Programs in Louisiana

Advanced Practice Registered Nurse (APRN) Education in Louisiana

There are seven Graduate Nursing Programs in Louisiana offering a degree as an advanced practice registered nurse (APRN). Six of the seven programs offer the Nurse Practitioner (NP) role; four the Clinical Nurse Specialist (CNS) role; and two the Certified Registered Nurse Anesthetist (CRNA) role (see Appendix A for a list of LSBN Approved Graduate Nursing Programs). There are currently no programs offering the Certified Nurse Midwife (CNM) role in Louisiana (Table 35).

Admission to APRN Programs in Louisiana

In the 2013-2014 report year, there was a 7% decrease in the number of students admitted to APRN programs in Louisiana when compared to the previous report year (Table 36). There was a 7% decrease in NP program admissions and a 60% decrease in CNS admissions. The only role showing an increase in admissions was CRNA programs (1%). It is important to note that the numbers that are addressed in the annual reports from Louisiana's graduate nursing programs do not include RNs living and working in Louisiana that have been admitted to APRN programs in other states.

Enrollment in APRN Programs in Louisiana

There was an overall 8% decrease in the number of students enrolled in Louisiana's APRN programs with the most significant decrease in enrollment occurring in NP programs (Table 37). The number of students enrolled in BSN to DNP APRN programs in Louisiana (121 in 2013; 187 in 2014) increased by 55%.

Gender of Students Enrolled in APRN Programs in Louisiana

Eighty-one percent of the students enrolled in APRN programs in Louisiana were female and 19% were male (Table 38). The overall decrease in the number of students enrolled in APRN programs in Louisiana in the current report year resulted in a decrease in the number of males and females enrolled, with no significant change in the percentage of females and males.

Performance of APRN Graduates on Certification Exams

Certification examinations taken by graduates from Louisiana’s APRN programs include, but are not limited to the American Nurses Credentialing Center (ANCC), the American Academy of Nurse Practitioners (AANP), the Council on Certification for Nurse Anesthetists (CCNA), the National Certification Corporation (NCC), the Pediatric Nursing Certification Board (PNCB), and the American Association of Critical Care Nurses (AACCN). In 2013-2014, 326 APRN candidates sat for their respective certification exams. Three hundred and eleven (311) candidates successfully passed their certification exams resulting in a 95.40% passage rate for the state (Table 42).

Graduate Nursing Programs in Louisiana Offering Non-Licensure Degrees in Nursing Education and Nursing Administration

Six of the seven Graduate Nursing Programs in Louisiana offer a Master’s Degree in Nursing Education and a Master’s Degree in Nursing Administration (Table 43). Currently, LSBN only has jurisdiction over graduate nursing programs that lead to the APRN degree which require licensure and not those that lead to a Masters in Nursing Education or Nursing Administration. In order to better inform policy makers about nursing workforce demand and to be able to predict future nursing workforce needs, it is important to identify the number of nurses that are being prepared to take on faculty positions in Louisiana, as well as leadership positions in hospitals and other health care settings. A major limitation related to reporting on enrollment of Louisiana’s RNs in APRN and non-licensure Graduate Nursing programs is the inability to track those nurses that are enrolled in online or out-of-state programs that do not come under the jurisdiction of the Board of Nursing.

Nurse Faculty Teaching in Graduate Nursing Programs in Louisiana

Educational Preparation of Nursing Faculty Teaching in Graduate Nursing Programs in Louisiana

Faculty teaching in Graduate Nursing programs in Louisiana must have a minimum of a Master’s Degree in Nursing (LSBN Rules and Regulations Title 46 Part XLVII Chapter 45, 4509 G 2.c) although most accrediting bodies prefer that graduate nursing faculty have a doctorate either in nursing or in a related field. Seventy-two percent (72%) of the faculty teaching in Louisiana’s graduate nursing programs held an earned doctorate in nursing or a related field in the current report year (Table 50). A Masters was the highest degree held by 24% of the faculty teaching in graduate nursing programs in Louisiana in 2013-2014, and 5% held a degree outside of nursing (e.g., MD, Pharm D.). These individuals possessed credentials and/or expertise in an advanced practice specialty area that was recognized by both LSBN and national accrediting bodies.

- Sixty-one percent of the faculty teaching in graduate nursing programs in Louisiana were 51 and over compared to 58% in 2012-2013. Over a fourth of the graduate nursing faculty (27%) were 61 years and older.

NURSING SUPPLY: AVAILABLE RN NURSING WORKFORCE IN LOUISIANA
2014

The Louisiana State Board of Nursing (LSBN) collects demographic information about Louisiana’s registered nurse workforce as a component of the licensure renewal process. The target population for the nursing supply data for 2014 includes all registered nurses that held an active unencumbered license to practice as a registered nurse (RN) in Louisiana any time between February 1, 2014 and January 31, 2015. Descriptive analysis of the RN supply data, along with findings based on the analysis of the data, is being presented in the 2014 LSBN Annual Report.

Licensed Registered Nurses Residing in Louisiana

The Louisiana Nurse Practice Act requires annual license renewal for registered nurses. The LSBN is the state appointed agency assigned to implement, regulate, and monitor the issuance of a license to practice as a RN in the state of Louisiana. In 2014, 62,356 nurses held a license to practice as an RN in Louisiana. Eighty-six percent (53,731) of nurses licensed to practice in Louisiana also lived in Louisiana and 14% (8,599) reported home addresses outside of Louisiana. Over the past five years, there was a 12% increase in the number of RNs holding a license to practice nursing in Louisiana, an 11% increase in the number of RNs licensed and residing in Louisiana, and a 16% increase in the number of RNs that do not reside in Louisiana but hold a license to practice in Louisiana (Table 56).

In 2013, two questions related to education progression were added to the licensure renewal application in an effort to capture information on education progression from licensed RNs residing in Louisiana who are enrolled in post-RN programs that are not only in Louisiana but are outside of Louisiana as well. In 2014, over 4,000 (4,219) licensed RNs residing in Louisiana indicated that they were currently enrolled in school which is equivalent to 8% of the 53,731 licensed RNs residing in Louisiana (Table 64). Of those that were currently enrolled, 1,515 (36%) indicated that they were enrolled in a baccalaureate in nursing program, 1,828 (43%) were enrolled in a Master's in Nursing program, and 579 (14%) were enrolled in various types of doctoral programs. A total of 297 (7%) of licensed RNs reported being enrolled in non-nursing post-graduate education programs.

NURSING SUPPLY: AVAILABLE RN NURSING WORKFORCE IN LOUISIANA
Major Findings 2014

Registered Nurses

Licensees

- In 2014, 62,356 nurses held a license to practice as a RN in Louisiana. Of the 62,356 RNs holding a Louisiana license, 53,731 (86%) lived in Louisiana, while 8,599 (14%) reported home addresses outside of Louisiana.
- Over the past five years, there has been an 11% increase in the number of RNs holding a license to practice in Louisiana.

Demographics

- The average age for RNs licensed in Louisiana in 2014 remained 45 years and the median age was 44 years. The average age for RNs nationwide is 50 years (2013 National Workforce Survey of Registered Nurses, 2013).
- Over a third (38%) of the licensed RNs residing in Louisiana are 50 years and older. Since 2010, the number of licensed RNs that are 60 and over has increased by 71%.
- According to the U.S. Census Bureau (2015) minorities comprise approximately 37% of the U.S. population; minorities represent 40% of Louisiana's population and 19% of licensed RNs residing in Louisiana are minorities.
- In the past five years there has been no significant change in the percentage of male RNs in Louisiana. Males make up 11% of the RN workforce and females continue to be the majority at 89%.

Educational Preparation

- In 2014, 50% of the licensed RNs residing in Louisiana reported that their basic educational preparation began at the baccalaureate degree level, which is a 4% increase when compared to 2013 and a 16% increase since 2010.
- In 2014, over eleven hundred RNs (1,187) reported that they were licensed as an LPN prior to becoming a RN, which represents a 5% increase (+52) since 2013.
- In Louisiana, 63% of licensed RNs residing in Louisiana hold a baccalaureate or higher degree (including Bachelor's or Masters degrees in other disciplines) and 54% have a baccalaureate or higher degree in nursing (including a doctorate in a related field).
- There was an 18% increase in the number of nurses with a doctorate in nursing in 2014 when compared to the previous year.
- There was a 27% increase in the number of licensed RNs with a DNP when compared to the previous year, and a 22% increase in those with a PhD in Nursing.
- There has been a 186% increase in the number of RNs enrolled in Louisiana's RN to BSN programs over the past five years and a 135% increase in the number of graduates.
- In 2014, over 4,000 (4,219) licensed RNs residing in Louisiana indicated that they were currently enrolled in school which is equivalent to 8% of the 53,731 licensed RNs residing in Louisiana. This represents a 13% increase over the last year in the number of licensed RNs moving forward with their education.

Employment

- In 2014, 8,382 (16%) licensed RNs reported that they plan to work an additional 1-5 years as an RN and 19% plan to work an additional 6-10 years, which is equivalent to approximately 34% or one-third of licensed RNs in Louisiana reporting that they plan to be out of the nursing workforce within the next 10 years
- Eighty-eight percent (88%) of the licensed RNs residing in Louisiana were employed in a position requiring a RN license in 2014; 74% (39,329) full-time, 10% (5,180) part-time, and

4% (2,171) per diem. Over the last year there was a 4% increase in the number of licensed RNs that reported that they were not employed.

- In 2014 hospitals employed 57% (Number of Respondents=53,083) of licensed RNs residing in Louisiana which is unchanged since 2013 in terms of percentage.
- Over the past five years, the area with the greatest growth in the number of employed licensed RNs was clinic/ambulatory care (29% increase).
- Sixty-three percent (33,547) of RNs licensed in Louisiana in 2014 were employed as staff nurses. Approximately 10% (5,460) of the licensed RNs were nurse managers, 8% (4,066) APRNs, 3% (1,387) faculty, and 2% (1,207) administrators.
- Five clinical, teaching, or practice areas in Louisiana with the largest number of RNs (licensed and residing in Louisiana) in 2014 were: medical-surgical units (7,306); acute care/critical care (5,491); OR/PACU (3,716), emergency room/trauma (3,503); and general practice/adult family health (2,872).

Advanced Practice Registered Nurses in Louisiana

Number of Licensees

- In 2014, there were 4,968 APRNs licensed to practice in Louisiana and 90% (4,469) are residents of Louisiana.
- The number of APRNs licensed and residing in Louisiana has increased by 35% over the past five years. In addition, the number of APRNs with a LA license that do not reside in Louisiana has also increased by 31%.
- In 2014, 63% (2,773) of all APRNs licensed and residing in Louisiana were Nurse Practitioners, 29% (1,272) were Certified Registered Nurse Anesthetists, 3% (127) were Clinical Nurse Specialists, and 0.7% (32) were Certified Nurse Midwives.

Demographics

- The average age for licensed APRNs residing in Louisiana is 46 years (same as 2013) and the median age was 44 (45 in 2013) years.
- There is a greater male representation among APRNs in Louisiana, when compared to that of the RN workforce. Twenty-three percent (23%) of APRNs in Louisiana are male, whereas only 11% of all licensed RNs residing in Louisiana are male.
- Minorities represent approximately 16% of licensed APRNs in Louisiana: 14% Black, 1% Hispanic, 0.9% Asian, 0.4% American Indian and Alaska Native, and 0.1% Native Hawaiian/Pacific Islander.

Employment

- The majority of licensed APRNs residing in Louisiana were employed full-time (85%); 9% reported part-time employment and 3% were not employed.
- Thirty-nine percent (1,645) of APRNs in Louisiana were employed by hospitals in 2014 which is a 5% increase since 2013 and a 15% increase since 2010.
- Between 2013 and 2014 the clinical settings with the greatest increase in the number of APRNs employed were the HIV/AIDS clinic (60%↑) and the medicine clinic (54%↑).
- Sixty-three percent (2,819) of licensed APRNs residing in Louisiana had prescriptive authority in 2014.
