UNFINISHED BUSINESS

By-Laws Revision Task Force:

Ms. Davis reported that the Task Force has been meeting. One of the topics they are considering is the inclusion of a non-nurse member and are working through the process.

3331 Revision Task Force:

Dr. Lyon stated that the Revision Task Force has met and will be following up. Board Attorney is looking at the entire Section 3331 to define absolute and time-limited prohibitions to licensure in the State of Louisiana.

RN Work Hours and Safety Issues:

C. York reported that the Board had requested Board staff begin to look at the amount of extended shifts being worked by nurses as there have been some concerns reported over excessive work hours and safety issues related to caring for complex patients, increasing patient/nurse ratios. Ms. York is conducting a literature review for evidence-based practice articles related to the topic. An ad-hoc committee will be formed with an anticipated meeting date in June.

Chapter 35

The Task Force met on March 31st. Ms. Dufrene is in the process of working on the document and hopes to have it completed by next week, then have the Task Force comment on it in order to present a document to the Board for acceptance at the June meeting.

Committee on Unlicensed Assistive Personnel

Dr. Lyon reported that the Task Force is working on policies regarding all unlicensed assistive personnel who want to be able to have administration of medications and non-complex tasks delegated to them.

They have been working collaboratively together with Paul Rhorer, with DHH, particularly in regards to Bailey's Law, and the training program for medication administration.

Mr. Rhorer reported they did find an online medication administration course and some other trainings that would be required similar to the requirements for direct service workers.. Three of the nurses that work with DHH have taken the test. They stated it addressed all the necessary components in the rule. The next step would be that they would go over the tests results, the test requirements, and the content with the State Board of Nursing. There are some other areas that DHH has to do related to RN supervision of the direct support staff and competency training in the specific training for the unlicensed workers in the waiver programs.

RN Compact Task Force

Dr. Porche reported the RN Compact Task Force has met. The meeting focused on discussing how they need to reorganize work to move forward in looking at the Compact.

The National Council State Boards of Nursing is having a meeting to have a final vote on what the new Compact Act model will look like. Dr. Bonanno and Dr. Lyon will be representing the Board of Nursing. The scope of authority in the Nurse Practice Act needs to be looked into to see what may need to be revised by statute. They also need to decide whether or not the whole Compact language should be included in the Act. They are also looking at what other states have done.

Transporting Critically Ill Neonates

The Board had requested Board staff to formulate an ad hoc committee to revise the Declaratory Statement on Transporting Critically Ill Neonates.

Committee members are: Dr. Agosta, Board member and Chair, Tim Cotita, Board Member, Dr. Susan Orlando, from LSUHSC School of Nursing and Petitioner, Staci Sullivan, Woman's Hospital, Julie Puyau and Jeffrey Peno, from Our Lady of the Lake Hospital.

They are anticipating receiving ancillary support from some of health care facilities in the Lafayette/Shreveport area and others areas across the state.

Their first conference call is scheduled for April 30th.

Revision in the Format of the Annual Report

P. Dufrene stated this revision is in its preliminary stage. As they are moving towards the online platform with National Council, they are investigating moving to the online ability to complete the Annual Reports. Dr. Bienemy and Ms. Dufrene have been working together and have met with IT, and with Ms. I. Brown for Administrative Services Operations to determine their needs. They are coming up with their specs based on what they need so they can find a vendor to help develop a platform. They are going to look at trying to streamline it for the deans and directors. They hope to have it ready to post by October.

EDUCATION ISSUES

AGENDA ITEM 2.1

UNIVERSITY OF ALABAMA BIRMINGHAM REQUEST FOR MAJOR CURRICULUM CHANGE

Summary/Background presented by P. Dufrene

The University of Alabama Birmingham is requesting to have an additional role and population of the Adult Geriatric Primary Care with the Women's Health Nurse Practitioner added to their current approval which goes through December of 2015. They were requested to come to address questions by the Board.

They have been on the Agenda for a few months. On February 18, 2015, LSBN staff received notification of request by University of Alabama Birmingham Administration to defer item until the April 2015 meeting.

Ms. Dufrene has not heard from the UAB whether they were going to have a representative at the April Board Meeting.

Ms. Dufrene recommended that the Board approve the request unless Board Members still have further questions.

Discussion ensued and concerns were identified

AGENDA ITEM 2.3

HERZING UNIVERSITY REQUEST FOR APPROVAL TO OFFER GRADUATE CLINICAL EXPERIENCES IN LOUISIANA

The Summary/Background was presented by P. Dufrene

Ms. Dufrene reported that Herzing's proposal meets the standards as it's written. However, an issue arose with Herzing's regarding a student who was turned in for licensure. The investigation showed that the student posed as a preceptor and the student produced fraudulent documents.

Herzing acknowledged they have written policy. They have instituted a full time doctorally-prepared faculty who is in Louisiana who will serve as the regional coordinator.

Ms. Dufrene recommended that they be conditionally approved to offer APRN clinical experiences in Louisiana for the following role and population April 2015 to April 2016 Family Nurse Practitioner MSN.

And further, that the Board instruct Herzing that they may apply for full approval for second year of request at the April 2016 Board meeting with evidence of improvement of processes related to faculty oversight of precepted clinical experiences.

Dr. Catherine Kotechi, Vice Chair for Online Nursing at Herzing University, Dr. Elizabeth Markham, Assistant Dean, Dr. Catherine Kotecki, FNP Program Chair, Dr. Blake Faulkner, Provost, were present to answer questions by the Board.

Discussion ensued.

Motion: by P. Prechter, seconded, that the Board conditionally approve Herzing University to offer APRN clinical experiences in Louisiana for the following role and population April 9, 2015 - April 9, 2016:

Family Nurse Practitioner (MSN)

And further, that the Board instruct Herzing that they may apply for full approval for second year of request at the April 2016 Board meeting with evidence of improvement of processes related to faculty oversight of precepted clinical experiences.

AGENDA ITEM 6.2

PROPOSED AMENDMENT TO LSBN'S DECLARATORY STATEMENT (ADOPTED, 2005): THE ROLE AND SCOPE OF PRACTICE OF THE REGISTERED NURSE IN THE ADMINISTRATION OF MEDICATION AND MONITORING OF PATIENTS DURING THE LEVELS OF PROCEDURAL SEDATION (MINIMAL, MODERATE, DEEP, AND ANESTHESIA)

A Summary/Background is attached

C. York reported that a workgroup was formulated after the last meeting. Board staff continued to work together as a group with Ms. Hill and Dr. William Freeman, Medical Director at St.

Charles Hospital as well as representatives from LANA. What is being presented today is a proposed revision to the Declaratory Statement. (See Exhibit 5)

The Declaratory Statement continues to allow RNs (non-CRNAs) to monitor deep sedation; and it also reflects changes and additional information to bring other areas of the DS within current national standards of practice.

Additional information has been provided that reflects current standards of practice and basically expands education and competency requirements for RNs (non-CRNAs) who administer and monitor procedural/conscious sedation.

Board staff desires the first sentence on page 3 to read: 'It is within the scope of practice for a RN to administer non-anesthetic medications up to and including moderate (conscious/sedation) and to monitor.....'

A statement was added that requires the physician to physically remain at the patient's bedside or within the confines of the patient's immediate treatment area, until the patient recovers from deep sedation. This requirement comes from the Emergency Room Nurses Association standards of care.

Quality assurance or performance improvement process is to be in place that measures processes and structural outcome indicators. This statement stems from the Association of Operating Room Nurses (AORN) standards of practice and is in place to enhance the quality and safety of patient care.

The definition of "available" was retrieved from AORN standards.

Ms. York thanked the members of the workgroup who assisted in helping to bring the new Declaratory Statement to fruition.

Ms. Hill and Dr. Freeman and members from LANA were available to answer any questions the Board may have had

Motion: by D. Porche, seconded, to accept amended LSBN Declaratory Statement: The Role and Scope of Practice of the Registered Nurse in the Administration of Medication and Monitoring of Patients During the Levels of Intravenous Conscious/Procedural Sedation (Minimal, Moderate, Deep, and Anesthesia) originally adopted in 2005.
