**Excelsior College**

Summary/Background presented by Dr. Dufrene. Recommended acceptance.

Dr. Wright reported that Dr. Bonanno and Dr. Couvillon along with staff, Drs. Dufrene and Wright, met in New Orleans. The proposed draft is a revision of the current policy. It carves out some guidelines for staff to process licensure applications for what is termed "nontraditional programs."

Dr. Bonanno stated that when they were working on the policy, they recognize that it's not just one school that could be included here. So, they revised the policy to remove Excelsior College and replace it with "licensure requirements for graduates of nontraditional programs."

The biggest change in this policy is the removal of the option for graduates of nontraditional programs that have no faculty supervised clinical experience from being eligible for licensure in Louisiana by examination. However, the option remains for them to be licensed by endorsement after receiving additional experience as a registered nurse. This is in alignment with what several other states are doing.

The effective date of the policy revision is an open agenda item.

(Discussion ensued regarding the number of students this new policy would affect.)

**Motion:** by J. Couvillon, seconded, to approve the policy revision with the effective date of July 1, 2018.
